

**UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF WEST VIRGINIA  
AT CHARLESTON**

<b>IN RE: ETHICON, INC. PELVIC REPAIR SYSTEM PRODUCTS LIABILITY LITIGATION</b>	<b>Master File No. 2:12-MD-02327 MDL No. 2327</b>
<b>THIS DOCUMENT RELATES TO:</b>  <i>Jo Beth Huskey, et al. v. Johnson &amp; Johnson, et al. Case No.: 2:12-cv-05201</i>	<b>JOSEPH R. GOODWIN U.S. DISTRICT JUDGE</b>

**[PROPOSED]**

**JOINT PRETRIAL ORDER**

In accordance with Local Rule of Civil Procedure 16.7(b) and Rules 16 and 26 of the Federal Rules of Civil Procedure, and pursuant to Pretrial Order No. 127, Plaintiff Jo Huskey (“Plaintiff”) and Defendants Ethicon, Inc. and Johnson & Johnson (“Ethicon”), by their undersigned counsel, hereby respectfully submit the following [Proposed] Joint Pretrial Order for the Court’s consideration:

**I. PRETRIAL DISCLOSURES REQUIRED BY FEDERAL RULE OF CIVIL PROCEDURE 26(A)(3) AND OBJECTIONS THERETO**

**A. Witnesses each party expects to present and may call if the need arises**

**1. Names of witnesses Plaintiff expects to present at trial:**

The final list of witnesses that Plaintiffs will present at trial is dependent on several factors, including but not limited to any further pre-trial rulings by the court; Plaintiffs’ ability to present certain witnesses whom they do not control for live testimony; and the Court’s time limitations:

- i. Jo Huskey
- ii. Allan Huskey
- iii. Dr. Bruce Rosenzweig
- iv. Dr. Jerry Blaivas

- v. Dr. Erin Carey
- vi. Scott Guelcher, Ph.D.
- vii. David Epperly

2. **Names of witnesses Plaintiff may call if the need arises at trial:**

- i. Gretchen Dean PT
- ii. Nancy Davidson
- iii. Dr. John Steege
- iv. Russell Dunn, Ph.D.
- v. Abhay Pandit, Ph.D.
- vi. Any witness called by the Defendant

3. **Ethicon's objections, if any, to Plaintiff's witness list:**

Ethicon objects to any witness listed by Plaintiff testifying to that which is beyond what is set forth in their report and insofar as said witness's testimony has been excluded by the Court's rulings on Ethicon's motions to exclude or *in limine* motions. In addition, Ethicon objects to Plaintiff calling any fact witness or treating physician not previously identified or made available for deposition.

4. **Names of witnesses Ethicon expects to present at trial:**

The final list of witnesses that Ethicon will present at trial is dependent on several factors, including (a) the witnesses that Plaintiff presents during her case-in-chief, (b) the Court's rulings on motions, and (c) the trial schedule and availability of Ethicon's witnesses. Ethicon also reserves the right to call any witness listed by Plaintiff. Subject to those considerations, Ethicon presently expects to call the following witnesses at trial:

- i. Daniel Sexton, M.D.
- ii. Christina Pramudji, M.D.
- iii. Plaintiff's treating physicians:
  - a. Gretchen Byrkit, M.D.
  - b. Colleen Fitzgerald, M.D.
  - c. James Harms, M.D.
  - d. Elizabeth Mueller, M.D.
  - e. Dele Ogunleye, M.D.
  - f. Derin Rominger, M.D.
  - g. Kenneth Schoenig, M.D.
  - h. Bryan Yocks, M.D.
- iv. Plaintiff's coworkers and friends:
  - a. Bryan Jasker
  - b. Ruth Teel
  - c. Terry Ward
- v. Ethicon employees:
  - a. Piet Hinoul, M.D.
  - b. Axel Arnaud, M.D.

5. **Names of witnesses Ethicon may call if the need arises at trial:**

- i. Laura Angelini
- ii. Thomas Barbolt, Ph.D., DABT
- iii. Thomas A. Barocci, Ph.D.
- iv. Boris Batke
- v. Catherine Beath
- vi. Dan Burkley
- vii. Peter Cecchini
- viii. Meng Chen, M.D.
- ix. Judi Gauld
- x. James Hart, M.D.
- xi. Matthew Henderson
- xii. Kimberly Hunsicker
- xiii. Joerg Holste
- xiv. Michelle Irvin
- xv. Richard Isenberg, M.D.
- xvi. Harry Johnson, M.D.
- xvii. Gregory Jones
- xviii. Scott Jones
- xix. Gene Kammerer
- xx. Brian Kanerviko
- xxi. Aaron Kirkemo, M.D
- xxii. Dan Lamont
- xxiii. Reynaldo Librojo
- xxiv. Susan Lin
- xxv. Bryan Lisa
- xxvi. Brian Luscombe
- xxvii. Brett Marshall
- xxviii. Codi Marshall
- xxix. Clint Marshall
- xxx. Jim Mittenthal
- xxxi. Charles Nager, M.D.
- xxxii. Sean O'Bryan
- xxxiii. Charlotte Owens, M.D.
- xxxiv. Jennifer Paine
- xxxv. Paul Parisi
- xxxvi. David Robinson, M.D.
- xxxvii. Mark Schneider
- xxxviii. Daniel Smith
- xxxix. Shelby Thames, Ph.D.
- xl. Timothy Ulatowski, M.S
- xli. David Weber, M.D., M.P.H.
- xlii. Martin Weisberg, M.D.
- xliii. Mark Yale
- xliv. Wenxin Zheng, M.D.

- xlv. Any other treating physician or health care provider identified in the medical records for plaintiff Jo Huskey.

6. **Plaintiff's objections, if any, to Ethicon's witness list:**

Pursuant to Pretrial Order #127, Plaintiffs will serve their objections to Ethicon's witness list by August 14, 2014. Plaintiffs object to any witness listed by Ethicon testifying to that which is beyond what is set forth in their report and insofar as said witness's testimony has been excluded by the Court's rulings on Ethicon's motions to exclude or *in limine* motions. In addition, Plaintiffs object to Ethicon calling any fact witness or treating physician not previously identified or made available for deposition. Finally, Plaintiffs object to testimony from physicians who treated Mrs. Huskey for conditions not relevant to her TVT-O and resulting pelvic pain, or conditions that Ethicon's experts have been precluded from testifying about at trial.

**B. Designation of witnesses whose testimony is expected to be presented by means of deposition (whether videotaped or otherwise)**

1. **Plaintiff**

As with live testimony, the Plaintiffs' final list for presentation by deposition will depend on several factors, including but not limited to any further pre-trial rulings by the court, including clarifications of rulings already made; Plaintiffs' ability to present certain witnesses whom they do not control for live testimony; and the Court's time limitations:

- i. Dr. Gretchen Byrkit
- ii. Dr. Sohail Siddique
- iii. Gretchen Dean PT
- iv. Nancy Davidson
- v. Dr. Derin Rominger
- vi. Michelle Irvin
- vii. Bryan Jasker
- viii. Laura Angelini
- ix. Thomas Barbolt, Ph.D., DABT
- x. Dr. Meng Chen
- xi. Dr. James Hart
- xii. Brigitte Helhammer
- xiii. Dr. Piet Hinoul
- xiv. Joerg Holste, DVM, Ph. D.
- xv. Dr. Richard Isenberg
- xvi. Dr. Aaron Kirkemo
- xvii. Dr. Bernd Klosterhalfen
- xviii. Dr. David Robinson
- xix. Daniel Smith
- xx. Dr. Martin Weisberg

2. **Ethicon**

The final list of witnesses that Ethicon will present at trial via deposition is dependent on several factors, including (a) the witnesses that Plaintiff present during her case-in-chief, whether live or by deposition, (b) the Court's rulings on motions, (c) the Court's rulings on deposition designations, and (d) the trial schedule and availability of Ethicon's witnesses. Ethicon reserves the right to designate deposition testimony for any witness presented at trial by the Plaintiff or whose deposition is played by the Plaintiff. Ethicon also reserves the right to call via deposition any witness listed by Plaintiff. Subject to those considerations, Ethicon may call the following witnesses at trial via deposition:

- i. Peter Cecchini
- ii. Jim Hart, M.D.
- iii. Kim Hunsicker
- iv. Richard Isenberg, M.D.
- v. Gene Kammerer
- vi. Aaron Kirkemo, M.D.
- vii. Dan Lamont
- viii. James Mittenthal
- ix. Charles Nager, M.D.
- x. Sean O'Bryan
- xi. Charlotte Owens
- xii. Gretchen Byrkit, M.D.
- xiii. Colleen Fitzgerald M.D.
- xiv. James Harms, M.D.
- xv. Bryan Jasker
- xvi. Elizabeth Mueller, M.D.
- xvii. Dele Ogunleye, M.D.
- xviii. Derin Rominger, M.D.
- xix. Kenneth Schoenig, M.D.
- xlvi. Ruth Teel
- xlvii. Terry Ward
- xlviii. Bryan Yocks, M.D.

**C. Exhibits each party expects to offer, may offer if the need arises, and objections thereto**

1. Plaintiff expects to offer or utilize the exhibits and/or documents identified in the accompanying Attachment A.
2. Ethicon's objections to Plaintiff's exhibit list will be provided on August 18, 2014, as provided in PTO #122.
3. Ethicon expects to offer or utilize the exhibits and/or documents identified in the accompanying Attachment B. This list does not include medical literature or similar documents and materials that Ethicon may use with the appropriate witnesses such as learned treatises.

4. Ethicon may offer if the need arises the exhibits and/or documents identified in the accompanying Attachment C. This list includes medical literature and similar documents and materials that Ethicon may use with the appropriate witnesses such as learned treatises.
5. Plaintiffs' objections to Ethicon's exhibit list will be provided on August 18, 2014, as provided in PTO #122.

## **II. CONTESTED ISSUES OF LAW REQUIRING A RULING BEFORE TRIAL**

### **A. By Plaintiff**

1. Any motions *in limine* or other evidentiary pretrial motions not yet filed.
2. Plaintiffs' Motion to Permit Live Trial Testimony Via Contemporaneous Transmission

### **B. By Ethicon**

1. Defendants' Omnibus Motions in Limine (Huskey Doc. 282)
2. Defendants' Motion to Exclude Evidence of Spoliation (Huskey Doc. 274)
3. Defendants' Motion to Limit Testimony of Erin Teeter Carey (Huskey Doc. 275)
4. Defendants' Motion to Exclude Testimony by Scott Guelcher, Ph.D. in Reliance on Documents Identified in his Supplemental Reliance List Served August 1, 2014 and to Preclude Testimony other than Those Opinions Contained in Dr. Guelcher's Expert Report Served February 21, 2014 (Huskey Doc. 314)
5. Defendants' Motion to Exclude Testimony by Bruce Rosenzweig, M.D., on Matters Contained in his Fourth Supplemental Expert Report Served July 31, 2014 and Accompanying Reliance List (Huskey Doc. 316)
6. Defendants' Motion to Deem Requests for Admissions Admitted, or Alternatively, to Compel (MDL Doc. 1017)
7. Defendants' Motion to Exclude Certain Opinions of Jerry G. Blaivas, M.D.

## **III. STATEMENT OF ESSENTIAL ELEMENTS THAT PLAINTIFF MUST ESTABLISH FOR EACH CLAIM AND THE DAMAGES OR RELIEF SOUGHT, ACCOMPANIED BY SUPPORTING LEGAL AUTHORITIES**

**A. By Plaintiff**

For this case, Plaintiffs have not disputed that Illinois law applies to liability issues and New Jersey law applies to punitive damages issues. An explanation of the elements of each of Plaintiffs' claims, under the applicable state's law, follows.

**Claim I: Negligence**

"A product liability action asserting a claim based on negligence, such as negligent design, is based upon fundamental concepts of common law negligence...As in any negligence action, a plaintiff must establish the existence of a duty, a breach of that duty, an injury that was proximately caused by that breach, and damages." *Jablonski v. Ford Motor Co.*, 955 N.E.2d 1138, 1153 (Ill. 2011); *Calles v. Scripto-Tokai Corp.*, 224 Ill. 2d 247, 270 (2007); *Heastie v. Roberts*, 226 Ill. 2d 515, 556, (2007)). In Illinois, a manufacturer has a non-delegable duty to design reasonably safe products. *Calles*, 224 Ill. 2d at 264. Additionally, a manufacturer of a prescription medical device has a duty to warn prescribing physicians or other health professionals who may prescribe the device of the product's known dangerous propensities. See *Hansen v. Baxter Health Corp.*, 198 Ill. 2d 420, 430-32 (2002).

**Strict Liability Counts:**

To recover under strict liability in Illinois, a "plaintiff must prove that the injury or damage resulted from the condition of the product, that the condition was an unreasonably dangerous one, and that the condition existed at the time the product left the manufacturer's control." *Coney v. J.L.G. Industries, Inc.*, 97 Ill. 2d 104, 111 (1983); *Woodill v. Parke Davis & Co.*, 79 Ill. 2d 26, 31 (1980).

**Claim II: Strict Liability – Failure To Warn**

Under Illinois law, a product can perform as intended yet subject its seller to strict liability if the seller fails to warn of a danger known to the seller but unanticipated by the consumer. See, e.g., *Solis v. BASF Corp.*, 979 N.E.2d 419 (Ill.App.Ct. 1st Dist. 2012). A product is in a defective and unreasonably dangerous condition precisely because of the absence of an adequate warning. *Miller v. Rinker Boat Co.*, 815 N.E.2d 1219, 1240 (Ill.App.Ct. 4th Dist. 1986). To prove a product defect claim based on a defendant's failure to warn, a plaintiff must show "that the defendant knew or should have known, in the exercise of ordinary care, that the product was unreasonably dangerous and defendant failed to warn of its dangerous propensity." *Solis v. BASF Corp.*, 979 N.E.2d 419, 443 (Ill.App.Ct. 1st Dist. 2012) (quoting *Blue v. Environmental Engineering, Inc.*, 215 Ill. 2d 78, 96, 828 N.E.2d 1128, 293 Ill. Dec. 630 (2005)). Even if a manufacturer provides general information about risks in using a product, Illinois law requires the manufacturer to warn of more specific failures or complications where the manufacturer has more knowledge than members of the medical community (e.g., physicians). Moreover, "[d]octors who have not been sufficiently warned of the harmful effects of a [device] cannot be considered 'learned intermediaries' and the adequacy of warnings is a question of fact, not law, for the jury to determine...." *Hansen v. Baxter Health Corp.*, 198 Ill. 2d 420, 432 (2002).

### **Claim III: Strict Liability – Design Defect**

Illinois recognizes two tests for design defect claims. A plaintiff may establish a design defect through either the “consumer expectation test” or the “risk-utility test.” Under the consumer expectation test, a plaintiff may present “evidence that the product failed to perform as safely as an ordinary consumer would expect when used in an intended or reasonably foreseeable manner.” *Mikolajczyk v. Ford Motor Co.*, 231 Ill. 2d 516, 526 (2008) (citing *Lamkin v. Towner*, 138 Ill. 2d 510, 529 (1990)). Alternatively, a plaintiff may prevail on a design defect claim under the risk-utility test by proving “the product’s design proximately caused his injury and the defendant fail[ed] to prove that on balance the benefits of the challenged design outweigh[ed] the risk of danger inherent in such designs.” *Id.*

### **Claim IV: Punitive Damages**

Under New Jersey law, punitive damages are determined by statute. The provisions of N.J.S.A. § 2A:15-5.12 state in pertinent part as follows:

a. Punitive damages may be awarded to the plaintiff only if the plaintiff proves, by clear and convincing evidence, that the harm suffered was the result of the defendant’s acts or omissions, and such acts or omissions were actuated by actual malice or accompanied by a wanton and willful disregard of persons who foreseeably might be harmed by those acts or omissions. This burden of proof may not be satisfied by proof of any degree of negligence including gross negligence.

b. In determining whether punitive damages are to be awarded, the trier of fact shall consider all relevant evidence, including but not limited to, the following:

(1) The likelihood, at the relevant time, that serious harm would arise from the defendant’s conduct;

(2) The defendant’s awareness or reckless disregard of the likelihood that the serious harm at issue would arise from the defendant’s conduct;

(3) The conduct of the defendant upon learning that its initial conduct would likely cause harm; and

(4) The duration of the conduct or any concealment of it by the defendant.

### **Count V: Loss of Consortium**

Loss of consortium encompasses loss of support and loss of society, which includes companionship and sexual intercourse. *Brown v. Metzger*, 104 Ill. 2d 30, 34 (1984). Consortium includes loss of a spouse’s companionship, happiness and society; it also includes material services, elements of companionship, felicity and sexual intercourse, “all welded into a conceptualistic unity.” *Ford-Sholebo v. U.S.*, 980 F. Supp. 2d 917, 1002 (N.D. Ill. 2013) (citing *Dini v. Naiditch*, 20 Ill. 2d 406 (1960)). “Although both loss of consortium and loss of society

are incapable of being measured with precision and particularity, a trier of fact must nevertheless place a monetary value on these items.” *Ford-Sholebo*, 980 F. Supp. 2d at 1002.

**B. By Ethicon**

Plaintiff brings the following claims:

1. Failure to warn
2. Design defect
3. Negligence
4. Punitive damages
5. Loss of consortium

**Failure to Warn**

1. To establish a claim for failure to warn, the Plaintiff must prove (1) that there was a duty to warn, (2) that the defendant knew or should have known that the product could cause the injury in question, (3) that the warning was inadequate, and (4) that the inadequate warning was the proximate cause of the plaintiff’s injuries. *See Giles v. Wyeth, Inc.*, 500 F. Supp. 2d 1063, 1065 (S.D. Ill. 2007).
2. Under the learned intermediary doctrine, the manufacturer’s duty to warn is not to the patient, but to the prescribing physician. *Id.*
3. “[T]here is no duty to warn of a risk that is already known by those to be warned.” *Proctor v. Davis*, 682 N.E.2d 1203, 1211 (Ill. App. Ct. 1997); *see also Hansen v. Baxter Healthcare Corp.*, 764 N.E.2d 35, 42 (Ill. 2002) (“[A] prescription medical device manufacturer need not provide a warning of risks already known to the medical community.”).
4. Thus, “[n]o duty to warn arises where the risk of harm is apparent to the foreseeable user, regardless of any superior knowledge on the part of the manufacturer.” *Sollami v. Eaton*, 201 Ill. 2d 1, 772 N.E.2d 215, 221, 265 Ill. Dec. 177 (Ill. 2002).
5. Under Illinois law, proximate cause is the cause “that, in the natural or ordinary course of events, produced the plaintiff’s injury.” *Richter v. Village of Oak Brook*, 958 N.E.2d 700, 709 (Ill. App. 2001) (citing Ill. Pattern Jury Instructions Civil 15.01).

## Design Defect

1. To establish a claim for design defect, Plaintiff must prove: (1) a condition of the product that results from design; (2) the condition made the product unreasonably dangerous; (3) the condition existed at the time the product left the defendant's control; (4) the plaintiff suffered an injury; and (5) the injury was proximately caused by the condition. *Salerno v. Innovative Surveillance Technology, Inc.*, 932 N.E.2d 101, 108 (Ill. App. Ct. 2010).
2. To establish that the product is unreasonably dangerous, the plaintiff may rely on either the consumer-expectation test or the risk-utility test, or both. *Huskey v. Ethicon, Inc.*, 2014 U.S. Dist. LEXIS 64789, 3-6 (S.D. W. Va. May 12, 2014) (citing *Mikolajczyk v. Ford Motor Co.*, 231 Ill. 2d 516, 901 N.E.2d 329, 336 (Ill. 2008)).
3. Under the consumer-expectation test, "the plaintiff may introduce 'evidence that the product failed to perform as safely as an ordinary consumer would expect when used in an intended or reasonably foreseeable manner.'" *Mikolajczyk*, 901 N.E.2d at 336, 901 N.E.2d at 336 (quoting *Lamkin v. Towner*, 138 Ill. 2d 510, 563 N.E.2d 449, 457, 150 Ill. Dec. 562 (Ill. 1990)). In a case such as this where the learned intermediary doctrine applies, the relevant consumer is the learned intermediary, not the patient or the average layperson.
4. Under the risk-utility test, the jury analyzes a range of factors, including:
  - the product's utility to the user and to the public as a whole;
  - the likelihood that the product will cause injury and the probable seriousness of the injury;
  - the product's compliance with "design standards in the industry, design guidelines provided by an authoritative voluntary organization, or design criteria set by legislation or governmental regulation";
  - the instructions and warnings accompanying the product; and
  - the availability and feasibility of alternative designs at the time the product at issue was manufactured.

*Sosnowski v. Wright Med. Tech., Inc.*, 2012 U.S. Dist. LEXIS 41303 (N.D. Ill. Mar. 27, 2012) (citing *Mikolajczyk*, 901 N.E.2d at 335, 352; *Calles v. Scripto-Tokai Corp.*, 864 N.E.2d 249, 260 (Ill. 2007)).

5. Illinois has adopted comment k to the Restatement (Second) of Torts § 402A, which provides, in pertinent part, as follows:

there are some products which, in the present state of human knowledge, are quite incapable of being made safe for their

intended and ordinary use. . . . Such a product, properly prepared, and accompanied by proper directions and warning, is not defective, nor is it unreasonably dangerous.

Restatement (Second) of Torts, § 402A, comment k at 353-54 (1965); *see also Lawson v. GD Searle & Co.*, 356 N.E.2d 779 (Ill. 1976); *Glassman v. Wyeth Labs., Inc.*, 238 Ill. App. 3d 533, 606 N.E.2d 338, 342, 179 Ill. Dec. 506 (Ill. App. Ct. 1992).

### **Negligence**

In order to establish a cause of action for negligence under Illinois law, the plaintiff must demonstrate: (1) a duty owed by the defendant to the plaintiff; (2) breach of that duty; and (3) injury proximately caused by the breach. *Jones v. Chicago HMO Ltd. of Illinois*, 191 Ill.2d 278, 294 (Ill. 2000) (negligence).

### **Punitive Damages**

As this Court is aware, Ethicon's position is that the New Jersey Products Liability Acts bars punitive damages in this case. Because the Court has rejected this position, Ethicon suggests that, while preserving its objection, in order to establish a claim for punitive damages, Plaintiff must prove the following by clear and convincing evidence to recover punitive damages under New Jersey law:

- i. The harm suffered was the result of the defendant's acts or omissions; and
- ii. Such acts or omissions were actuated by actual malice or accompanied by a wanton and willful disregard of persons who foreseeably might be harmed by those acts or omissions.

N.J. Stat. 2A:15-5.12-4(a).

### **Loss of Consortium**

1. A loss of consortium claim "encompasses two basic elements of [the marital] relationship: loss of support and loss of society, which includes companionship and sexual intercourse." *Ford-Sholebo v. United States*, 980 F. Supp. 2d 917, 1002 (N.D. Ill. 2013) (internal quotation marks and citations omitted).
2. A claim for loss of consortium is only actionable if the primary plaintiff has shown both liability and damages. *See Bergman v. U.S. Silica*, 2006 U.S. Dist. LEXIS 76500 (S.D. Ill. Oct. 17, 2006)

## Damages

### 1. Compensatory Damages

Plaintiff may recover the following compensatory damages under Illinois law. These damages must be proven with reasonable probability.

- i. Reasonable expenses for necessary medical care, treatment, and services received by Plaintiff, sustained in the past and those that are reasonably certain to be sustained in the future;
- ii. The value of earnings lost and the present value of the earnings reasonably certain to be lost in the future.
- iii. Physical pain and suffering, emotional distress, sustained in the past and that is reasonably certain to be sustained in the future; and  
*See Ill. PJC 30.04.01, 30.05, 30.05.01, 30.06, 30.07, 30.08*

### 2. Consortium Damages

Plaintiff may recover the following damages for his loss of consortium claim:

- (i) Loss of support provided by Ms. Huskey. *Ford-Sholebo v. United States*, 980 F. Supp. 2d 917, 1002 (N.D. Ill. 2013) (internal quotation marks and citations omitted).
- (ii) Loss of society, including loss of companionship and sexual intercourse. *See id.*

Punitive damages are not allowed on a loss of consortium claim. *Hammond v. North Am. Asbestos Corp.*, 97 Ill.2d 195, 454 N.E.2d 210, 73 Ill.Dec. 350 (1983).

### 3. Punitive Damages

If and only if the Court determines that punitive damages may be considered, factors that the jury may consider when deciding on an amount of punitive damages include:

- i. Likelihood, at the relevant time, that serious harm would arise from the defendant's conduct;
- ii. The defendant's awareness or reckless disregard of the likelihood that the serious harm at issue would arise from the defendant's conduct;

- iii. The conduct of the defendant upon learning that its initial conduct would likely cause harm;
- iv. The duration of the conduct or any concealment of it by the defendant;
- v. Profitability of the misconduct to the defendant;
- vi. When the misconduct terminated; and
- vii. The financial condition of Ethicon at the time of the wrongdoing up through the time of judgment, meaning its ability to pay.

*See Tarr v. Ciasull's Auto Mall*, 943 A.2d 866 (N.J. 2008); N.J. Stat. Section 2A:15-5.12(b)(1)-(4) and (c)(2)-(4); *Herman v. Sunshine Chem. Specialties*, 133 N.J. 329, 345 (1993).

Any punitive damages should be measured by product sales in the pertinent geographical area, and any award of punitive damages must bear a reasonable relationship to the award of compensatory damages. *See State Farm v. Campbell*, 538 U.S. 408, 422 (2003); *BMW of N. Am. v. Gore*, 517 U.S. 559, 580-81 (1996).

#### **IV. STATEMENT OF ESSENTIAL ELEMENTS THAT ETHICON MUST ESTABLISH IN SUPPORT OF ANY MERITORIOUS DEFENSES, ACCOMPANIED BY SUPPORTING LEGAL AUTHORITIES**

##### **A. By Ethicon**

1. As noted above, to preserve the issue for appeal, Ethicon will continue to raise the defenses of immunity from punitive damages and preemption of claims regarding the composition of the mesh, which the Court has rejected at the summary judgment stage. *Huskey v. Ethicon*, 2014 U.S. Dist. LEXIS 92315 (S.D. W. Va. July 8, 2014).

##### **B. By Plaintiff**

1. Ethicon seeks to “preserve for appeal” its assertions relating to immunity from punitive damages and preemption of claims regarding the composition of the mesh. Plaintiffs refer the Court to its rulings on these issues during the summary judgment stage (*Huskey v. Ethicon*, 2014 U.S. Dist. LEXIS 92315 (S.D.W.Va. July 8, 2014)), and incorporate by reference the arguments presented in opposition to Ethicon’s prior motions.

#### **V. BRIEF SUMMARY OF MATERIAL FACTS AND THEORIES OF LIABILITY OR DEFENSE**

**A. Plaintiff's Summary of Material Facts and Theories**

In the 1990s, Ethicon, Inc., a division of Johnson & Johnson, began developing a mesh product that was designed to treat stress urinary incontinence. In 1997, Ethicon submitted its 510(k) application to the FDA for the first of these products, called “Tension Free Vaginal Tape (‘TVT’).” The device was a huge success financially. After enjoying 5 years of financial success with this product, Ethicon was beginning to face competition from other medical device companies. It was at this time, in 2002, that Ethicon developed their second product to treat stress urinary incontinence, called “TVT-O.” In 2002, some French scientists developed a new procedure to treat stress urinary incontinence. This procedure used a new and different surgical approach than previous treatments for stress urinary incontinence—an approach which was thought to be safer than previous surgeries. This approach was known as the “transobturator” approach, because the surgeon would implant the device through an area of the pelvic floor called the Obturator Membrane. Ethicon’s competitors were beginning to develop their own transobturator products at this time. Ethicon was concerned about losing market share to these competitors, and therefore Ethicon decided to develop their TVT-O product and get it on the market as quickly as possible.

However, the TVT-O product (and its placement) also presented serious safety risks. The mesh is made of polypropylene, with other additives, plus tools to aid with implantation. The mesh will “rope and curl” and deform with very little tension. According to Ethicon’s own internal documents, the mesh is a heavyweight mesh with small pores and a large surface area. When the mesh is implanted, it causes a foreign body reaction that lead to inflammation and scarring around the mesh fibers. Consultants for Ethicon, including Dr. Bernd Klosterhalfen, warned that the use of heavyweight, small-pore mesh increased the foreign body response, causing danger to the patient. But Ethicon has continued to use that mesh in the TVT-O product. Other alternatives were available (and more were being developed), and relevant meaningful information was not shared with physicians and, ultimately, Mrs. Huskey.

There are other complications associated with the TVT-O product. There are substantial amounts of bacteria in the vaginal region, and placing a polypropylene mesh in that area can lead to infection. The polypropylene material in the TVT-O product is also subject to shrinkage, degradation, and other undesirable characteristics that lead to conditions such as chronic pelvic pain, erosions, and urinary and sexual dysfunction.

After the TVT-O device was launched onto the market, Ethicon engaged in a substantial TVT-O marketing campaign. Ethicon provided material to physicians espousing extremely low complication rates, and extremely high efficacy rates associated with the TVT-O product. Ethicon brochures for the TVT-O device all include the following statements: recovery is quick; patients should be back to a regular or normal routine after the procedure; this is a one-time treatment that is “minimally invasive;” “few patients experience complications;” and there should be very little discomfort after the procedure. Ethicon brochures for the TVT-O device also noted that the device was “used to treat over 1 million women worldwide.” However, this figure includes the sale of several different TVT devices and is not specific to the TVT-O device. Ethicon also included the statement “trusted in over 1 million patients” in TVT-O brochures. However, this statement falsely represents that there have been over 1 million patients satisfied with the TVT product and no such data exists. The Ethicon brochures omit details of several

risks and potential complications, including: pelvic pain, dyspareunia (pain with sexual intercourse), severity of complications, permanency of complications, and the risk that the mesh cannot be removed in the event of complications. Additionally, the data Ethicon relied on for many of these claims came from studies by investigators with an interest in the outcome of the studies.

To exacerbate the problem, Ethicon did not inform physicians or patients about the numerous safety issues associated with the TVT-O product. The Instructions for Use for the TVT-O product failed to warn about specific complications, such as roping and curling of the mesh; degradation of the mesh, resulting in injuries; or problems associated with using small-pore, heavy-weight mesh. Also, while Ethicon warned generally of the risk of infection, it failed to distinguish between a surgical infection and a mesh infection. In addition to excluding specific complications, the TVT-O IFUs also failed to include the permanency and severity of complications associated with the use of the TVT-O device. The TVT-O IFU notes only that the body's "transitory" response to the mesh may lead to erosion, exposure, or inflammation, despite Ethicon having knowledge that these complications can be ongoing and chronic. Finally, Ethicon knew that the polypropylene used in the TVT-O had been found to be cytotoxic, but it failed to inform physicians of these risks.

Additionally, Ethicon continued to sell the TVT-O device despite knowing that by 2010, it had a product, the Abbrevo, that had less mesh and less foreign body. Therefore, according to Ethicon, the Abbrevo had the potential to cause, among other things, less chronic and persistent pain. Ethicon also failed to inform all physicians and their patients about the Abbrevo or that it had a product that used less mesh and could possibly reduce problems related to the mesh. As a result, Ms. Huskey was never made aware of the Abbrevo.

The mesh used in the TVT-O product is the "old construction" hernia mesh developed by Ethicon in 1974. Ethicon continued to use this heavyweight, small pore mesh even after Ethicon had access to safer mesh. By the early 2000s, Ethicon had access to lighter weight, larger pore meshes that were much safer for patients, yet for marketing and business reasons Ethicon continued selling the old construction mesh in the TVT-O. One patient who received the "old construction" TVT-O mesh was Jo Huskey.

Mrs. Huskey is a 54-year-old resident of Maroa, Illinois, where she lives with her husband of seven years. Her home of Maroa, Illinois is a small town of fewer than 2,000 residents in central Illinois. Mrs. Huskey lives in a rural home, where she enjoys taking care of her two dogs. She is no longer physically active, despite a former highly active lifestyle, and has had to give up her job as a physical therapy assistant, due in part to the pain and complications caused by the TVT-O product.

In 2011, Mrs. Huskey was first diagnosed with stress urinary incontinence. Dr. Gretchen Byrkit implanted Ethicon's TVT-O mesh product—the heavyweight, small-pore mesh—into Mrs. Huskey in February of 2011. Unfortunately, the surgery did not solve Mrs. Huskey's problems. In March of 2011, Mrs. Huskey was suffering from painful and severe complications (pelvic pain and dyspareunia) and presented to Dr. Byrkit with exposed mesh on her right side. Dr. Byrkit attempted to surgically repair the mesh exposure; however, Mrs. Huskey subsequently experienced another erosion. When Mrs. Huskey suffered that second mesh erosion, she

attempted to live with the pain, but ultimately could not do so. At that time, Dr. Byrkit referred Mrs. Huskey to Dr. Sohail Siddique.

In November 2011, Dr. Siddique performed surgery to remove Mrs. Huskey's TVT-O mesh. Dr. Siddique saw so much eroded and edematous tissue during the procedure, that he thought his only option was to remove the entire mesh. Dr. Siddique, therefore, cut into Mrs. Huskey's vaginal wall and up into her groin where the mesh was infected and partially incorporated. Unfortunately, a portion of the mesh had retracted behind Mrs. Huskey's pubic bone and was unable to be removed. Since then, Mrs. Huskey continues to suffer from severe and chronic pelvic pain. All of this impacts her mentally and physically. She suffers from dyspareunia that will last for days after sex (if she is able to have intercourse at all) as well as depression. She is extremely physically debilitated and can no longer work—leading to large economic losses.

In this case, Plaintiffs will ask the jury to hold Ethicon responsible for selling the TVT-O and marketing it as a safe product when Ethicon knew or should have known that the TVT-O was unreasonably dangerous. Ethicon was also negligent in failing to ensure the safety of the TVT-O before subjecting thousands of women, including Mrs. Huskey, to significant risk. Finally, Ethicon failed to adequately warn Mrs. Huskey and her treating physician of the risks and complications of the TVT-O and its procedure.

Plaintiffs will ask the jury to compensate Mrs. Huskey for her injuries, which have impacted her daily life in many significant ways. They will also ask the jury to punish Ethicon for its corporate conduct in misleading Mrs. Huskey. Ethicon marketed the TVT-O product as safe and effective, and convinced physicians of the same, even though Ethicon knew that the mesh could lead to potentially severe complications. Therefore, Ethicon should be punished to deter it, and possibly others, from bringing medical devices to market without adequately ensuring their safety, and without adequately warning physicians and their patients about the device's hazards.

**B. Ethicon's Summary of Material Facts and Theories**

**i. Summary of Facts**

Plaintiff Jo Huskey claims injuries from TVT-O including mesh erosion, pelvic pain, dyspareunia (pain with sex), infection, scarring, loss of sleep and depression. Ethicon manufactures and markets the TVT-O device, which is a mesh tape called a "sling," placed under the urethra to address stress urinary incontinence.

The PROLENE\* Polypropylene Mesh tape in the TVT-O device, which is the only part left in the body, is constructed of knitted filaments of extruded polypropylene strands identical in composition to that used in PROLENE polypropylene non-absorbable surgical suture. The FDA approved Prolene polypropylene as safe and effective as a drug, and it was eventually categorized as a Class III medical device. Devices such as TVT-O are Class II devices which FDA recognizes as having reasonable assurances of safety and efficacy.

Mrs. Huskey, who resides in Illinois, began complaining to her healthcare providers about urinary incontinence in 2008. Her records document complaints in March 2008. In June 2008, Mrs. Huskey expressed concern to one of her healthcare providers about frequent urinary urgency and an incident of leakage at work. She tried pelvic floor exercises without success. In October 2009, Mrs. Huskey again complained to her doctor of urinary incontinence. She told her doctor that she had this condition for “many years.” It was not until 2010, however, that Mrs. Huskey sought a surgical solution for her urinary incontinence.

Before surgery to manage stress urinary incontinence, Mrs. Huskey had a history of two vaginal deliveries, one of which involved the use of forceps and led to tearing in the pelvic area. She had worked as a physical therapy assistant and had injured her back and sacroiliac joint on multiple occasions from lifting patients. Indeed, even after two back surgeries, Mrs. Huskey continued to experience low back pain from lifting patients in 2009 and afterwards.

Mrs. Huskey’s medical records document a long history of severe and chronic abdominal pain; low back pain which radiated into her right buttock, thigh, calf and foot; pelvic pain; pain with sex; vaginal infections; degenerative joint disease; herniated disc at L5-S1; episodes of “unrelenting” epigastric pain; gastroesophageal reflux disease (described as a 10 out of 10 on the pain scale); gastric ulcers secondary to her nonsteroidal anti-inflammatory drugs; chronic constipation; irritable bowel syndrome; diverticulitis, hypothyroidism; insomnia; depression; and symptoms of menopause.

Mrs. Huskey had her first office visit with Dr. Gretchen Byrkit, a board certified gynecologist, on January 27, 2011. She was 51 years old and complained of menopausal symptoms, painful urination, urinary frequency, depression, left lower quadrant pelvic pressure mainly after intercourse, and “constant” vaginal irritation. She experienced urine leakage when she laughed, coughed, sneezed, and performed other activities. Mrs. Huskey had tried years of conservative management of her stress urinary incontinence, which had not worked for her. She wanted other options.

Dr. Byrkit recommended TVT-O surgery to treat Mrs. Huskey’s stress urinary incontinence. Dr. Byrkit knew and documented the risks of TVT-O in her records. These risks included hemorrhage, infection, damage to internal organs, including the bowel, bladder, blood vessels, and ureters, death, mesh erosion, or that mesh could be seen through the skin of the vagina, that there were some patients who were not helped by the procedure and that they would need to have further work-up and treatment, bladder perforation, damage to the urethra, risk of overcorrection, which could result in need to self-catheterize to eliminate urine; need for further surgery; scarring; need to remove the device, and pain, whether there was mesh erosion or not. Dr. Byrkit understood that the potential risks and complications could range from mild to severe and from temporary to permanent, and that passage of the trocars through the tissues in the groin area could cause pain. Dr. Byrkit has never used TVT-Abbrevio.

During the procedure on February 23, 2011, Dr. Byrkit noted that the mesh had “buttonholed” through the vaginal mucosa, which is a known complication. Dr. Byrkit reinserted the product without complication. Mrs. Huskey had temporary groin pain after the implant, another known complication. Within ten days of implant, Mrs. Huskey experienced heavy vaginal bleeding after engaging in vacuuming, grocery shopping, and washing the dog. She had also started a new job as a physical therapy assistant. Bleeding is another known complication. At the first post-op visit on March 9, 2009, Dr. Byrkit palpated mesh on the right side. Dr. Byrkit observed a small mesh exposure on subsequent post-op visits. Mesh exposure and erosions are known complications. On June 29, 2011, Dr. Byrkit sewed the vaginal mucosa over the exposed mesh. Mrs. Huskey continued to have mesh exposure. Dr. Byrkit referred Mrs. Huskey to Dr. Sohail Siddique, a urogynecologist. On November 18, 2011, Dr. Siddique removed the mesh. He found that there was no evidence of mesh, sutures or foreign body in the urethra. Mrs. Huskey has not had mesh exposure or erosion since Dr. Siddique’s surgery.

While Mrs. Huskey’s mesh exposure was on the right side, Mrs. Huskey reports pelvic pain on her left side. She continues to have low back pain, degenerative joint disease, and sacroiliac joint pain.

Mrs. Huskey claims that she can no longer work at her job as a physical therapist assistant. None of her doctors have advised her not to continue in that position, and the Social Security Administration has denied her claim for disability benefits.

## **ii. Theories and Defenses**

Plaintiff contends that Ethicon failed to warn of the risks of the TVT-O and that the TVT-O was defectively designed. For the following reasons, Ethicon denies these allegations in their entirety and denies liability to Plaintiff under any theory of recovery. Ethicon further denies that TVT-O, or any action or inaction on Ethicon’s part, caused or contributed to Ms. Huskey’s alleged damages.

### *Failure to Warn*

Plaintiff cannot establish a claim for failure to warn under Illinois law.

First, each one of the complications Plaintiff alleges in this case were warned of or known by Dr. Byrkit and the medical community. Under the learned intermediary doctrine, the duty to warn runs not to the Plaintiff, but to the implanting physician, and there is no duty to warn of risks that are known within the medical community.

In addition, Plaintiff cannot show that any purported failure to warn was the cause of her injuries. Specifically, the IFU was not material to Dr. Byrkit’s decision to prescribe the TVT-O for Ms. Huskey. Though Dr. Byrkit testified that she uses the same implantation procedure described in the IFU, that is not tantamount to her relying on the IFU in connection with Ms. Huskey’s treatment. Further, Plaintiff cannot establish that an allegedly adequate warning would have changed Dr. Byrkit’s decision to implant the TVT-O. Plaintiff claims that Dr. Byrkit would not have used the device had she known it

was not appropriate for active, exercising women. This supposed contraindication does not exist, as neither medical evidence nor expert testimony establishes that the device is not appropriate for use in active, exercising women. Finally, she cannot establish that each of her alleged injuries was the result of the TVT-O.

*Design Defect*

Plaintiff cannot show that the TVT-O was defectively designed. It has been and remains the “gold standard” for treatment of stress urinary incontinence, and has been deemed safe and effective by regulators and practitioners alike. It has been successfully used to treat stress urinary incontinence in many women, its benefits outweigh its risks, and it has performed as expected. Further, Plaintiffs cannot show a safer alternative design or that any alleged design defect was the cause of Ms. Huskey’s injuries.

*Negligence*

Plaintiff’s claim for negligence is based on the same series of facts and duties as her claims for failure to warn and design defect. Thus, it fails for the same reasons Plaintiff’s strict liability claims fail.

*Loss of Consortium*

Mr. Huskey’s claim for loss of consortium is dependent on the success of at least one of Ms. Huskey’s claims. Because Ms. Huskey’s claims are without merit, the loss of consortium claim also fails.

*Punitive Damages*

Punitive damages are not appropriate in this case. Ethicon at all times acted in good faith based on FDA’s approval of PROLENE, FDA’s classification of surgical mesh based on its safety and effectiveness, FDA’s clearance of TVT-O, FDA’s review and determination that TVT-O and similar products are safe and effective, and reasonable scientific evidence. Ethicon has complied with government regulations. There is no malice or wanton or willful misconduct shown.

**VI. SINGLE LISTING OF CONTESTED ISSUES OF FACT AND ISSUES OF LAW, TOGETHER WITH CASE AND STATUTORY CITATIONS**

**A. By Plaintiff**

**Issues of fact:**

- Whether Ethicon breached the applicable standard of care for medical device manufacturers.
- Whether the TVT-O product had a design defect that made it unreasonably dangerous.

- Whether Ethicon failed to warn of the risks of the TVT-O product.
- Whether Ethicon's actions or inactions caused damage to Jo Huskey.
- Whether Ethicon's actions or inactions caused damage to Allan Huskey.
- A calculation of the value of the Huskey's damages, including economic and non-economic damages.
- Whether Ethicon engaged in either actual malice or willful or wanton conduct that foreseeably led to harm by Jo and Allan Huskey; and
- If "yes" to the above, what amount should Ethicon have to pay in punitive damages?

**Issues of law:**

For case citations to the applicable law, please see Section III above:

- Whether Ethicon should be held liable for negligence because its conduct in the testing, design, sale and/or marketing of the TVT-O device fell below the applicable standard of care, thereby causing harm to Mrs. Huskey.
- Whether Ethicon should be held negligent and/or strictly liable because of its conduct in the failure to warn of the risks of the TVT-O device.
- Whether Ethicon should be held strictly liable for defective design because its product was unreasonably dangerous and caused harm to Mrs. Huskey.
- If liability is established based on any of the grounds stated above, whether Ethicon should also be held liable to Mr. Huskey for loss of consortium, based on loss of society, comfort, companionship, sexual relations, and other aspects of the marital relationship
- If liability is established based on any of the grounds stated above, whether Ethicon should also be held liable for punitive damages, given that it had knowledge of substantial risks associated with the TVT-O, and yet it continued to sell the product, and it did not warn physicians or patients about many of the risks

**B. By Ethicon**

Ethicon reserves the right to identify different/ additional issues of fact or law in response to Plaintiff's case at trial.

The following issues of fact:

- i. Whether Plaintiff has proven by a preponderance of the evidence that she sustained harm as a result of the TVT-O device.

- ii. Whether Plaintiff has proven by a preponderance of the evidence that Dr. Byrkit was not adequately warned of the risks of the device.
- iii. Whether Plaintiff has proven by a preponderance of the evidence that a different warning would have altered Dr. Byrkit's prescription decision.
- iv. Whether Dr. Byrkit knew the risks associated with TVT-O.
- v. Whether Plaintiff has proven by a preponderance of the evidence that the TVT-O device was designed in a defective manner at the time it left Ethicon's control.
- vi. Whether Plaintiff has proven by a preponderance of the evidence that, as a result of the alleged design defect, her TVT-O device failed to function as expected by surgeons prescribing and implanting the device.
- vii. Whether Plaintiff has proven by a preponderance of the evidence that the risks of the TVT-O outweigh its benefits.
- viii. Whether Plaintiff has proven by a preponderance of the evidence that the alleged defective condition or failure to warn rendered the TVT-O device unreasonably dangerous in the view of surgeons trained in the treatment of stress urinary incontinence.
- ix. Whether Plaintiff has proven by a preponderance of the evidence that the alleged defective and unreasonably dangerous condition of the TVT-O device was a producing cause of her alleged damages.
- x. Whether Plaintiff has proven a safer alternative design for TVT-O existed at the time she received her implant.
- xi. Whether a surgery involving an autologous fascial sling qualifies as a safer alternative design for TVT-O.
- xii. Whether Ethicon reasonably relied upon pre-clinical, clinical, and other studies and experience, including regulatory experience, with Prolene polypropylene sutures and mesh in developing and selling TVT-O.
- xiii. Whether Ethicon have acted with actual malice or accompanied by a wanton and willful disregard of persons who foreseeably might be harmed. N.J. Stat. 2A:15-5.12-4(a).

The following issues of law:

- i. Whether the failure to warn of the risks of the TVT-O was a producing cause of Plaintiff's alleged injuries.

- ii. Whether a defective design of TVT-O was a producing cause of Plaintiff's alleged injuries.
- iii. Whether Plaintiff's design claims that arise out of the composition of Prolene polypropylene are preempted.
- iv. Whether Comment k bars Plaintiff's design defect claims.
- v. Whether Ethicon is immune from punitive damages under the New Jersey Products Liability Act (NJPLA).
- vi. Whether Plaintiff has proven by clear and convincing evidence that they are entitled to punitive damages.

## **VII. STIPULATIONS**

- A. The parties stipulate to the authenticity of exchanged medical records (while reserving all other objections).
- B. The parties stipulate to the authenticity of any document authored by an Ethicon employee that was produced by Ethicon in this litigation and bears an Ethicon Bates number.
- C. The parties stipulate that they will not refer to Plaintiff's fee agreement and/or who is responsible for expenses incurred in connection with the litigation.
- D. The parties stipulate that they will not suggest that a recovery from this action may or may not be subject to federal income tax or any other tax.
- E. The parties stipulate that they will not suggest that other women have had their mesh removed due to, or for the purpose of furthering, litigation.
- F. Unless evidence is uncovered and presented that it occurred in Ms. Huskey's case, the parties stipulate that they will not refer to testimony or evidence regarding "funding companies" who may be working with physicians and/or attorneys regarding mesh removal surgeries.
- G. The parties stipulate that they will not directly or indirectly attack the American Court System, plaintiffs' attorneys, defense attorneys, or recent tort reform campaigns, and that they will not refer to a purported "litigation crisis," "lawsuit crisis," "lawsuit abuse," "litigious society," or similar terms or phrases.
- H. The parties stipulate that they will not suggest that a verdict for Plaintiff will adversely impact medical device companies' incentive and/or ability to develop new devices.

- I. The parties stipulate that they will not suggest that damage awards may drive up the price of products, make products less readily available, put manufacturers out of business, or cause jobs to be lost.
- J. The parties stipulate that they will not refer to the effect of litigation on the cost of purchasing or maintaining insurance.
- K. The parties stipulate that they will not comment or make any suggestion about the existence of the PSC, the fact that there is a group of lawyers representing injured women who are cooperating to prosecute these cases, or the size of Ethicon's defense team.
- L. The parties stipulate that they will not offer any evidence, comment, or inference concerning other pending civil actions alleging injury from pelvic repair products, including the number of pending cases. If Plaintiffs believe Defendants have opened the door to such evidence, counsel will address the matter with the Court and defense counsel prior to offering such evidence.
- M. The parties stipulate that they will not use deposition video clips in their opening statements.
- N. The parties stipulate that they will not use the video featuring Dr. Todd Heniford entitled, "The Benefits of Lightweight Meshes in Ventral Hernia Repair." If Plaintiffs believe Defendants have opened the door to such evidence, counsel will address the matter with the Court and defense counsel prior to offering such evidence.
- O. The parties stipulate that they will not refer to the recall of the Protegen device.
- P. The parties stipulate that they will not refer to MSDS sheets from other suppliers or any MSDSs that suggest polypropylene causes cancer.
- Q. The parties stipulate that they will not refer to the 483 action that preceded the hiring of Meng Chen as postmarket surveillance director.
- R. The parties stipulate that they will not refer to the following:
  - a. Criminal guilty pleas and fines, such as that relating to the drugs Topamax or Risperdal;
  - b. State attorney general actions, such as an Oregon attorney general action relating to the over-the-counter drug Motrin and the multiple attorney general actions relating to the drug Risperdal;
  - c. Consent decrees with the U.S. Department of Justice or FDA, such as that regarding various McNeil manufacturing plants;

- d. Settlements or fines with the U.S. Department of Justice or Securities and Exchange Commission, such as any settlement related to the drug Risperdal, the entity Omnicare, Inc., and overseas activities, including any reserves set aside for settlement payments; and
  - e. Any investigations or proceedings by any political bodies or enforcement agencies, such as investigation relating to the drug Doribax or the congressional investigation into over-the-counter McNeil drugs.
- S. The parties anticipate that they will reach an agreed stipulation concerning the net worth of Ethicon and Johnson and Johnson.
- T. The parties anticipate that that they will reach an agreed stipulation concerning the total sales of TVT-O in the State of Illinois and/or the United States.
- U. Stipulation Regarding Corporate Structure and Related Issues (PTO 63, MDL Doc. 756).
- V. The parties will discuss whether they can reach any evidentiary stipulations that would aid the advancement of trial.

#### **VIII. SUGGESTIONS FOR THE AVOIDANCE OF UNNECESSARY PROOF AND CUMULATIVE EVIDENCE**

##### **A. Joint Suggestions**

None at this time.

##### **B. By Plaintiff**

Plaintiffs are aware of this Court's prior statements regarding avoiding duplication and promoting efficiency at trial. Plaintiffs will continue to meet and confer with defense counsel to reach those goals and will provide the Court with an update regarding any agreements or outstanding issues at or before the pretrial hearing.

##### **C. By Ethicon**

PTO # 127 provides that after July 31, 2014, no additional testimony may be designated absent leave of the Court. On August 14, 2014, the parties will have a hearing with Judge Eifert to determine unresolved objections to designations. In the interest of efficiency, Ethicon also suggests that the parties be required to provide counsel opposite with the actual video testimony they intend to play at trial (not just the names of witnesses) no less than 48 hours prior to that testimony being played. Absent exceptional circumstances, the parties should be barred from using video clips not provided at least 48 hours in advance, or different clips than those provided at least 48 hours in advance.

Because of the vast numbers of documents that have been produced by Defendants and the thousands that have been identified as exhibits in depositions, and because the parties do not

yet have rulings from the court on the various dispositive and evidentiary motions, Defendants' exhibit lists are exhaustive. Defendants anticipate that Plaintiff's list will be equally lengthy. Accordingly, Defendants suggest that the Court require each party to identify no more than 50 exhibits that they reasonably, in good faith, anticipate to use at trial recognizing that circumstances may arise that require the use of other exhibits on the list, but that should be an exception that could not be anticipated.

**IX. SUGGESTIONS CONCERNING ANY NEED FOR ADOPTING SPECIAL PROCEDURES FOR MANAGING DIFFICULT OR PROTRACTED ASPECTS OF THE TRIAL THAT MAY INVOLVE COMPLEX ISSUES, MULTIPLE PARTIES, DIFFICULT LEGAL QUESTIONS, OR UNUSUAL PROOF PROBLEMS**

The parties anticipate that they will agree on notification by the party presenting evidence of the identity and timing of upcoming witnesses.

**X. LIST OF SPECIAL VOIR DIRE QUESTIONS**

Plaintiffs request that the Court utilize the special voir dire questions set forth on the accompanying Attachment D.

**XI. STATEMENT OF REALISTIC ESTIMATE OF TRIAL DAYS REQUIRED**

This Court has not yet given guidance as to how much time will be permitted for trial, but the parties are aware of the Court's limitation of nine trial days (exclusive of jury deliberation) in prior trials, with the trial days divided equally between the parties.

**XII. COURTROOM TECHNOLOGY REQUESTS**

The parties have arranged for the appropriate courtroom technology and have timely advised the Court's technology staff as to same.

**XIII. ANY OTHER MATTERS RELEVANT FOR PRETRIAL DISCUSSION OR DISPOSITION, INCLUDING THOSE SET FORTH IN FEDERAL RULE OF CIVIL PROCEDURE 16**

**A. By Plaintiff**

Plaintiffs request that any court ruling as to restriction of the Plaintiffs' presentation of evidence equally apply to Defendants' presentation of evidence.

**B. By Ethicon**

None at this time.

DX21981	ETH.MESH.04121755 to ETH.MESH.04121756	05/12/2011	E-mail string, top one from Dr. James Hart to Judi Gauld; cc: Piet Hinoul regarding a Message from Bridget Ross: A Landmark Study in the New England Journal of Medicine		
DX21982	ETH.MESH.07192872	05/18/2011	Email from Piet Hinoul to Pann Hermansson and Christophe Vailhe Re Forces in the pelvic floor		
DX21983	ETH.MESH.07192872 to ETH.MESH.07192877	05/18/2011	E-mail string from Piet Hinoul to Paan Hermansson and Christophe Vailhe regarding FW: Forces in the pelvic floor		
DX21984	ETH.MESH.07192929	05/18/2011	May 18, 2011 PA Consulting Report_ Investigating Mesh Erosion in Pelvic Floor Repair and PowerPoint presentation		
DX21985	ETH.MESH.02589032 to ETH.MESH.02589079	05/18/2011	PowerPoint, "Investigating Mesh Erosion in Pelvic Floor Repair,"		
DX21986	ETH.MESH.02589032 to ETH.MESH.02589079	05/18/2011	REPORT - Investigating Mesh Erosion in Pelvic Floor Repair		
DX21987	ETH.MESH.05164815 to ETH.MESH.05164820	05/25/2011	E-mail chain, top one from Aaron Kirkemo to Jennifer Paradise regarding FPMRS Newsletter to Customers (Draft)		
DX21988	No Bates No.	06/06/2011	Excerpt of 6/6/11 letter sent to plaintiffs' counsel by defense counsel that lists Ethicon sales divisions and territories		
DX21989	ETH.MESH.08136486	06/06/2011	PowerPoint: GYNECARE TVT* Tension Free Support for Incontinence – Advanced Users Forum for the Experienced Clinician		
DX21990	ETH.MESH.04557644	06/13/2011	PowerPoint, "EWHU Board Meeting Update: Recent FDA Feedback on Regulatory Requirements for PRF Mesh Products," 9 pages		
DX21991	ETH.MESH.02323271 to ETH.MESH.02323272	06/14/2011	E-mail string re: FDA PFR Surgical Mesh Update		
DX21992	ETH.MESH.04932707 to ETH.MESH.04932709	06/14/2011	E-mail string, top one from Dr. James Hart to Jessica X. Shen regarding FDA PFR Surgical Mesh Update		
DX21993	ETH.MESH.04932710 to ETH.MESH.04932711	06/14/2011	E-mail string, top one from Dr. James Hart to Jessica X. Shen regarding FDA PFR Surgical Mesh Update		
DX21994	ETH.MESH.05336977 to ETH.MESH.05336980	06/14/2011	E-mail string, top one from Jennifer Paradise to Paul Parisi regarding Cost Containment		
DX21995	ETH.MESH.08476565 to ETH.MESH.08476568	06/16/2011	Email from Nicola Selley forwarding email from L. Vellucci re: FDA PFR Surgical Mesh Update		
DX21996	ETH.MESH.05718101	06/21/2011	Email from Konrad Schmitt to Boris Batke et al. re Classification of Meshes - UPDATE		
DX21997	ETH.MESH.05718101 to ETH.MESH.05718108	06/21/2011	E-mail string with attachments from Konrad Schmit to Boris Batke, Lars Fuchte, et al. regarding Classification of Meshes - UPDATE; cc: Colin Morgan, Paul Juelicher, et al.		

**In re: Ethicon, Inc. Pelvic Repair Systems Products Liability Litigation, Master File No. 2:12-CV-05201 (MDL 2327) (Jo Huskey)**

<b>Exhibit</b>	<b>Bates Range (if applicable)</b>	<b>Date</b>	<b>Description</b>	<b>Offered</b>	<b>Admitted</b>
DX23245	ETH.MESH.01239065 to ETH.MESH.01239066	07/16/2009	E-mail chain, top one from David Robinson to Aaron Kirkemo regarding TVR RR IFU version5 071409.doc		
DX23246	ETH.MESH.01262609 to ETH.MESH.01262512	05/14/2010	E-mail chain, top one from Aaron Kirkemo to Judi Gauld regarding Review of Scion 2 year data		
DX23247	ETH.MESH.01252509 to ETH.MESH.01252512	05/14/2010	E-mail chain, top one from Aaron Kirkemo to Judi Gauld regarding Review of Scion 2 year data		
DX23248	ETH.MESH.00592915 to ETH.MESH.00592916	09/14/2009	E-mail chain, top one from Sandy Savidge regarding TVT RR IFU 090911b.doc		
DX23249	ETH.MESH.00595406 to ETH.MESH.00595407	01/04/2010	E-mail from Aaron Kirkemo to David Robinson, et al. regarding Response Wall		
DX23250	ETH.MESH.05135901 to ETH.MESH.05135903	05/20/2010	E-mail chain top one from Colin Urquhart to Aaron Kirkemo regarding TVT World		
DX23251	ETH.MESH.02842658 to ETH.MESH.02842659	06/15/2010	TVT-World Monthly Meeting Minutes		
DX23252	ETH.MESH.00597472 to ETH.MESH.00597477	01/04/2011	E-mail from Douglas Tincello to Colin Urquhart, et al. regarding Your Submission; cc: Judi Gauld		
DX23253	ETH.MESH.02621143 to ETH.MESH.02621146	07/31/2000	Issue Report, TVT Retropubic 1999-2000 Open Date Between 01-Jan-1999 and 31-Dec-2000		
DX23254	ETH.MESH.02620964 to ETH.MESH.02620968	07/14/2000	Issue Report, TVT Retropubic 1999-2000 Open Date Between 01-Jan-1999 and 31-Dec-2000		
DX23255	ETH.MESH.05529653	11/30/2000	E-mail string, top one from Hans-Jochen Hoepffner to Rebecca Levine, et al. regarding Problem Statements for TVT Brainstorming Meeting		
DX23256	ETH.MESH.08476285 to ETH.MESH.08476287	No Date	"Patient-Contacting Material Identification, Continued"		
DX23257	ETH.MESH.10216874 to ETH.MESH.10216875	08/17/2000	E-mail string, top one from Greg Slusser to Riedley Charles, et al. regarding AUGS lecture/content of discussions; cc: Lisa Kwiatek, et al.		
DX23258	No Bates number	01/07/2014	E-mail to AUGS members regarding AUGS and SUFU Release Position Statement on Mesh Midurethral Slings for Stress Urinary Incontinence sent 1/7/14		

**In re: Ethicon, Inc. Pelvic Repair Systems Products Liability Litigation, Master File No. 2:12-CV-05201 (MDL 2327) (Jo Huskey)**

## ATTACHMENT D

### PLAINTIFFS' LIST OF SPECIAL VOIR DIRE QUESTIONS

- 1) Are you or is any member of your immediate family related to, or do you know Defendants' attorney Christy Jones of the law firm of Butler Snow? If you know her, how do you know her?
- 2) Are you or is any member of your immediate family related to, or do you know Defendants' attorney David Thomas of the law firm of Thomas Combs & Spann? If you know him, how do you know him?
- 3) Are you or is any member of your immediate family related to, or do you know any other attorney or person working with the law firm of Butler Snow? If so, whom?
- 4) Are you or is any member of your immediate family related to, or do you know any other attorney or person working with the law firm of Thomas Combs & Spann? If so, whom?
- 5) Are you or is any member of your immediate family an employee, director, officer or stockholder of Johnson & Johnson?
- 6) Are you or is any member of your immediate family an employee, director, officer or stockholder of Ethicon, Inc.?
- 7) Do you know anyone who works for or has worked for Johnson & Johnson or any of its subsidiaries or divisions? If so, who and how do you know them?
- 8) Do you know anyone who works or has worked for Ethicon, Inc.? If so, who and how do you know them?
- 9) Are you related by blood or marriage to, or do you know any of the following attorneys: Edward Wallace, Mark Miller, Fidelma Fitzpatrick, Thomas Cartmell, Bryan Aylstock or Jeffrey Kuntz?
- 10) Does anyone have any medical training above basic first-aid/CPR training and if so, what type of medical training?
- 11) Have you or anyone close to you ever worked for a company that manufactures, distributes or sells medical devices and if so, what company?
- 12) Have you or anyone close to you ever worked for a company that manufactures, distributes or sells prescription medications and if so, what company?
- 13) Do any of you have any experience in engineering, product development, product testing, product design or product manufacturing and if so, what is that experience?
- 14) Have you or any immediate family member ever had a good experience with a medical or prosthetic device and if so, what was that good experience?
- 15) Have you or any immediate family member ever had a bad experience with a medical or prosthetic device and if so, what was that bad experience?
- 16) Are there any of you who are opposed for any reason, whether it is philosophical, political, religious, or otherwise, to the way our court system of justice operates whereby a jury of citizens decides who should win in a case like this and also decides the value of any injury involved in the case? If so, why?
- 17) If the evidence presented in this case and the law as read to you by the Court justifies a damage reward in excess of \$10,000,000, do any of you have any philosophical, religious, political, or any other belief that would prevent you from awarding such a sum?
- 18) Does anyone know or are you related to anyone on the jury panel and if so, how?

- 19) If you or a family member was injured by a defective product, is there anyone who, for whatever reason, would not consider filing a lawsuit against the manufacturer of that product and if so, why?
- 20) How many of you when you take prescription medical or have any medical procedure done, always read the prescription warning label, read the prescription's inert, or read the medical procedure consent form?
- 21) Is there anyone who believes that a company does not have a duty to fully test its products prior to selling them to the consumer?
- 22) Have you or are any of your immediate family members ever filed a lawsuit or been sued and if so, what kind of case was involved and were you satisfied with the results?
- 23) Is there anything in your background that I have not asked you that would cause you to start out in this matter leaning toward the Plaintiffs' side of the case or leaning toward the Defendant Corporations' side of the case, and if so what is it?
- 24) Does anyone believe that there are too many lawsuits filed and that because of that feeling, you would start out leaning in favor of the Defendant Corporations against the Plaintiffs who filed this lawsuit?
- 25) The Plaintiffs are seeking to recover punitive damages, which are damages meant to deter or punish a Defendant for certain actions. Do any of you have a problem awarding punitive damages if the evidence and law calls for such an award?
- 26) How many of you currently search the internet for medical advice or health information?
- 27) Have you or any immediate family member ever developed chronic pain after a medical procedure, and if so, please explain?
- 28) Have you ever worked for a company that got sued for making a defective product, and if so, would that affect your ability to be fair in this case to the Plaintiffs who are seeking damages for a defective product?
- 29) There has been some press coverage and information on the internet about this case and about the vaginal mesh products involved. Has anyone seen any such reports or information that would influence your opinion for or against the Plaintiffs or the Defendants?
- 30) Are you familiar with surgical procedures used for the treatment of stress urinary incontinence? If so, please explain.
- 31) Are you familiar with medical devices used for the treatment of stress urinary incontinence? If so, please explain.
