

- 1           1.     The parties are continuing to meet and confer regarding the composition of a  
2           Master Consolidated Complaint and a Master Consolidated Answer. If there  
3           is no further impasse between the parties on this issue, Plaintiffs must file  
4           the Master Consolidated Complaint no later than **November 29, 2013**, and  
5           Defendants must file the Master Consolidated Answer no later than **Decem-**  
6           **ber 31, 2013**;
- 7           2.     The parties will submit a Joint Motion for Entry of a Case Management  
8           Scheduling Order detailing the utilization of Bellwether trials in this action,  
9           and proposed deadlines for filing dispositive motions, *Daubert* motions, and  
10          any other related motions. The Joint Motion must be filed no later than  
11          **January 10, 2014**. To the extent the parties disagree, the Joint Motion must  
12          set forth the areas in which the parties agree and the parties' respective  
13          disagreements. The parties will separately file a proposed plan for the  
14          utilization of Bellwether trials in this action. The proposed plan will take  
15          into account the state court cases filed in the JCCP and must be submitted no  
16          later than **January 10, 2014**;
- 17          3.     Science Day will be held on **February 5 and 6, 2014**. The purpose of  
18          Science Day is to apprise the Court, in a non-adversarial manner, of the  
19          following issues: (a) the nature of Type 2 diabetes; (b) pharmacological  
20          issues, i.e. the role of the Incretin-based therapies in treating Type 2 Diabe-  
21          tes; (c) pancreatic cancer and associated mortality and morbidity rates; and  
22          (d) data regarding the effects of the Incretin-based therapies on the pancreas.  
23          Lead Counsel for Plaintiffs and the Defendants' Steering Committee will be  
24          responsible for designating the individuals (non-experts) who will present at  
25          Science Day. Science Day presenters will not be placed under oath, nor will  
26          the presenters be subject to cross examination. None of the testimony  
27          presented at Science Day may be used to cross examine or impeach wit-  
28          nesses at trial, and all information presented at Science Day will be deemed

1 “off the record” for all purposes. Science Day will not be transcribed by a  
2 Court Reporter, nor will video cameras be permitted in the courtroom to  
3 record the proceedings. The Court declined Defendants’ request to submit  
4 briefing in advance of Science Day, but invited the parties to submit a joint  
5 glossary of relevant terms that may be referred to throughout the proceed-  
6 ings. The joint glossary of terms should be presented to the Court at Science  
7 Day, in addition to any copies of exhibits or presentations utilized at Science  
8 Day. Finally, the parties have reached an impasse regarding the organization  
9 of Science Day, but believe an agreement can be reached. Counsel is  
10 instructed to file a Joint Submission regarding the proposed organization of  
11 Science Day no later than **January 10, 2014**. To the extent the parties are  
12 not ready to proceed with a discussion regarding non-clinical information at  
13 Science Day, or believe Science Day will require more than the two days  
14 currently calendared, the parties are instructed to include these concerns in  
15 their Joint Submission;

- 16 4. The following matters are currently pending before Judge Dembin for  
17 resolution: (a) general deposition protocols and 30(b)(6) deposition proto-  
18 cols; (b) modification of the Plaintiff Fact Sheet and a proposed Defendant  
19 Fact Sheet; (c) protective order dispute; (d) ESI protocol dispute between  
20 Plaintiffs and Defendants Eli Lilly and Amylin; and (e) disclosures by  
21 Amylin regarding insurance coverage. In light of the dispute regarding the  
22 continued use of a previously approved Plaintiff Fact Sheet, the Court stays  
23 Plaintiffs’ obligation to submit Plaintiff Fact Sheets submitted in conjunc-  
24 tion with newly filed complaints. This does not stay Plaintiffs’ continuing  
25 obligation to respond to Defendants’ deficiency notices regarding Plaintiff  
26 Fact Sheets previously submitted. The stay will remain in effect until Judge  
27 Dembin issues an order resolving the current dispute as to the form of the  
28 Plaintiff Fact Sheet, at which time Judge Dembin will set forth a deadline for

1 Plaintiffs to submit Plaintiff Fact Sheets for the complaints filed during the  
2 pendency of the stay;

3 5. Judge Highberger provided the status of the cases in the Los Angeles County  
4 JCCP. In order to streamline the state and federal pancreatic cancer cases,  
5 counsel in the state court cases have met and conferred and agreed to waive  
6 the five year rule in the pancreatic cancer cases;

7 6. There are approximately 15 thyroid cancer cases pending in the Southern  
8 District of California that involve only Defendants Eli Lilly and Amylin.  
9 The JPML did not authorize joinder of these cases in the instant MDL, and it  
10 has come to the Court's attention that some of these cases may have been  
11 directly filed in the MDL, or have an MDL caption. As a result, Plaintiffs,  
12 Eli Lilly, and Amylin must: (a) identify all thyroid cancer cases currently  
13 pending in the Southern District of California; and (b) file a joint motion to  
14 coordinate and consolidate these cases pursuant to the low number rule.  
15 Any new thyroid cancer cases filed in the Southern District of California  
16 may not be directly filed in the MDL and must have independent subject  
17 matter jurisdiction. This does not affect the ability of the parties to later  
18 agree to file a motion before the JPML to join the thyroid cancer cases in  
19 the MDL.

20 The next Status Conference is scheduled for **January 16, 2014** at 9:00 a.m. in  
21 Courtroom 3B. At approximately 9:00 a.m., the Court will meet and confer with  
22 members of Plaintiffs' Lead and Liaison Counsel and Defendants' Steering Committee in  
23 chambers. This informal meeting will be followed by an on the record session beginning  
24 at approximately 10:00 a.m. in Courtroom 3B. Judge Highberger is invited to attend both  
25 sessions telephonically, and Judge Dembin will be in attendance as well. Any party  
26 wishing to appear telephonically at the Status Conference must have a case currently  
27 pending in the MDL, and must coordinate with other counsel wishing to appear telephon-  
28 ically. A list of all parties appearing telephonically must be submitted to the Court no

1 later than 5:00 p.m. on **January 15, 2014**. The Court does not utilize Court Call. The  
2 next Status Conference will address the progress of the matters set forth in paragraphs 1  
3 through 6 above. If Counsel wishes to address additional topics at the Status Conference  
4 a Joint Agenda must be submitted no later than **January 13, 2014**.
