**FRESENIUS MEDICAL CARE NORTH AMERICA’S
CENSUS OF PENDING CASES**

In response to the Court’s request at the November 7, 2014 status conference, *see* 11/7/14 Tr. at 8, FMCNA submits a census of cases pending in this MDL as of December 12, 2014, which is attached to this pleading at Tab A. The census identifies each plaintiff with a case in this MDL, as well as (1) the plaintiff’s state of residence, (2) the state in which the dialysis clinic was located, (3) the state in which the injury occurred, (4) the type of injury (death or non-death), (5) the date of the injury, (6) the date on which the complaint was filed, (7) the court in which the complaint was filed, and (8) the “home forum” selection.¹

In summary:

1. Number of Cases and Plaintiffs

As of December 12, 2014, there were 2,217 cases in this MDL, involving 2,526 different plaintiffs.

¹ Given the continual addition of new cases, the ongoing collection of data from complaints and fact sheets, and variations in the information reported on complaints and fact sheets, this census represents FMCNA’s best approximation of the cases now pending in this MDL.

2. Residence of Plaintiffs and Location of Clinics and Injuries

The plaintiffs are residents of 47 different states, the District of Columbia, and Puerto Rico. (The only states not represented are North Dakota, South Dakota, and Wyoming.) 1,316 plaintiffs—more than half of the total—are residents of six states: Alabama (209), California (233), Florida (177), Louisiana (116), Mississippi (294), and Texas (287). Ten plaintiffs are residents of Massachusetts.

The dialysis clinics or hospitals identified in the various complaints and fact sheets are located in 47 different states, the District of Columbia, and Puerto Rico. (The only states not represented are South Dakota, Vermont, and Wyoming.) Eleven clinics or hospitals are located in Massachusetts.

The alleged injuries occurred in 47 different states, the District of Columbia, and Puerto Rico. (The only states not represented are South Dakota, Vermont, and Wyoming.) 1,314 of the alleged injuries—more than half of the total—occurred in six states: Alabama (210), California (221), Florida (177), Louisiana (116), Mississippi (298), and Texas (292). Twelve of the alleged injuries occurred in Massachusetts.

3. Types of Injuries

Of the 2,526 plaintiffs in this MDL, approximately 2,136 allege that the use of GranuFlo or NaturaLyte resulted in death. The remaining plaintiffs are suing for non-fatal injuries.

4. Place of Filing

Of the 2,526 plaintiffs in this MDL, 686 filed complaints in Districts outside Massachusetts and were transferred to this District through the JPML process. The remaining 1,840 filed complaints in this District and thus were not transferred to this District. Of that number, approximately 123 plaintiffs filed long-form complaints in this District *before* the

“direct-filing” procedure established in CMO-7 took effect in February 2014. The remaining 1,717 direct-filed short-form complaints in this MDL pursuant to CMO-7.

5. Short-Form Complaints and “Home Forum” Designations

Of the 2,526 plaintiffs in this MDL, 1,983 have made a “home forum” selection on a short-form complaint. 1,393 plaintiffs have selected Massachusetts as their “home forum.” (Some plaintiffs purported to select both Massachusetts and another district.) The remaining 590 plaintiffs have selected federal districts in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, the District of Columbia, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, Washington, West Virginia, and Wisconsin.

December 18, 2014

Respectfully submitted,

/s/ William H. Kettlewell
