Attorneys for Plaintiff

UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA  
SAN FRANCISCO DIVISION

RONALD BAUGHN, an individual;

Plaintiff,  
v.

JOHNSON & JOHNSON; JANSSEN RESEARCH &  
DEVELOPMENT, LLC; JANSSEN  
PHARMACEUTICALS, INC.; and MCKESSON  
CORPORATION;

Defendants.

Case No.: 3:15-cv-1498

**COMPLAINT FOR DAMAGES  
AND  
DEMAND FOR JURY TRIAL**

- 1. Strict Liability**
- 2. Product Liability - Failure to Warn**
- 3. Negligence**
- 4. Breach of Express Warranty**
- 5. Breach of Implied Warranty**
- 6. Fraud**
- 7. Negligent Representation**
- 8. Fraudulent Concealment**

Plaintiff, by and through the undersigned counsel, hereby brings this Complaint for damages against the Defendants, and alleges the following:

**INTRODUCTION**

1. This is an action for damages suffered by Plaintiff as a direct and proximate result of Defendants' negligent and wrongful conduct in connection with the design, development, manufacture, testing, packaging, promoting, marketing, advertising, distribution,

1 labeling, and/or sale of the pharmaceutical drug Levaquin® (also known as levofloxacin).  
2 Levaquin® in any of its forms shall herein be referred to as “Levaquin.” Plaintiff maintains that  
3 Levaquin is defective, dangerous to human health, unfit and unsuitable to be marketed and sold  
4 in commerce, and lacked proper warnings and directions as to the dangers associated with its  
5 use.

### 6 **PARTIES**

7 2. Plaintiff Ronald Baughn is a natural person and at all relevant times a resident  
8 and citizen of Yelm, Washington. Plaintiff brings this action for personal injuries sustained  
9 by the use of Levaquin. As a direct and proximate result of being prescribed and ingesting  
10 Levaquin, Plaintiff developed peripheral neuropathy and/or symptoms of peripheral neuropathy.

11 3. Defendant Johnson & Johnson is a New Jersey corporation that has its principal  
12 place of business at One Johnson & Johnson Plaza, New Brunswick, Middlesex County, New  
13 Jersey 08933.

14 4. Defendant Johnson & Johnson has transacted and conducted business within the  
15 State of California.

16 5. Defendant Johnson & Johnson has derived substantial revenue from goods and  
17 products used in the State of California.

18 6. Defendant Johnson & Johnson expected or should have expected its acts to have  
19 consequences within the State of California, and derived substantial revenue from interstate  
20 commerce.

21 7. Defendant Johnson & Johnson was engaged in the business of designing,  
22 developing, manufacturing, testing, packaging, promoting, marketing, distributing, labeling,  
23 and/or selling Levaquin.

24 8. Defendant Janssen Research & Development, LLC is a limited liability company  
25 organized under the laws of New Jersey, which has its principal place of business at 920 Route  
26 202 South, P.O. Box 300, Mail Stop 2628, Raritan, New Jersey 08869.

27 9. Defendant Janssen Research & Development, LLC has transacted and conducted  
28 business within the State of California.

1           10. Defendant Janssen Research & Development, LLC has derived substantial  
2 revenue from goods and products used in the State of California.

3           11. Defendant Janssen Research & Development, LLC expected or should have  
4 expected their acts to have consequences within the State of California, and derived substantial  
5 revenue from interstate commerce.

6           12. At all times material hereto, Defendant Janssen Research & Development, LLC  
7 was engaged in the business of designing, developing, manufacturing, testing, packaging,  
8 promoting, marketing, distributing, labeling, and/or selling Levaquin.

9           13. Defendant Janssen Research & Development, LLC is part of the Defendant  
10 Johnson & Johnson's "Family of Companies."

11           14. Defendant Janssen Pharmaceuticals, Inc. is a Delaware corporation which has its  
12 principal place of business at 1000 Route 202 South, P.O. Box 300, Raritan, New Jersey 08869.

13           15. Defendant Janssen Pharmaceuticals, Inc. has transacted and conducted business  
14 within the State of California.

15           16. Defendant Janssen Pharmaceuticals, Inc. has derived substantial revenue from  
16 goods and products used in the State of California.

17           17. Defendant Janssen Pharmaceuticals, Inc. expected or should have expected their  
18 acts to have consequences within the State of New Jersey, and derived substantial revenue from  
19 interstate commerce.

20           18. At all times material hereto, Defendant Janssen Pharmaceuticals, Inc. was  
21 engaged in the business of designing, developing, manufacturing, testing, packaging, promoting,  
22 marketing, distributing, labeling, and/or selling Levaquin.

23           19. Defendant Janssen Pharmaceuticals, Inc. is a wholly owned subsidiary of  
24 Defendant Johnson & Johnson.

25           20. Defendant McKesson Corporation (hereinafter "McKesson") is a Delaware  
26 corporation with its principal place of business at One Post Street, San Francisco, California  
27 94104. At all relevant times, McKesson was in the business of manufacturing, labeling, selling,  
28 marketing, packaging, re-packaging and/or distributing Levaquin, including, on information and

1 belief, the Levaquin used by Plaintiff.

2 21. McKesson touts itself as, among other things: (1) the largest pharmaceutical  
3 distributor in North America distributing one-third of the medications used daily in North  
4 America, (2) the nation's leading health care information technology company, and (3) a  
5 provider of "decision support" software to help physicians determine the best possible clinical  
6 diagnosis and treatment plans for patients.

7 22. At all times herein mentioned, McKesson was the largest single distributor of  
8 Johnson & Johnson's pharmaceutical products.

9 23. At all times herein mentioned, McKesson provided research services to  
10 pharmaceutical companies such as Johnson & Johnson. For example, on its website, McKesson  
11 offered "bio-pharmaceutical manufacturers an unsurpassed suite of services to accelerate the  
12 approval and successful commercialization of specialty pharmaceuticals across the product life  
13 cycle." Through its Risk Evaluation and Mitigation Strategies (REMS) Services, McKesson  
14 provided pharmaceutical manufacturers like Johnson & Johnson with a wide range of risk-based  
15 services, including consultation on FDA submissions, strategic program designs, data  
16 management, and assistance with drug launch.

17 24. At all times herein mentioned, McKesson conducted regular and sustained  
18 business in California by selling and/or distributing its products and services, including  
19 Levaquin, in California.

20 25. Plaintiff is informed and believes, and on this basis alleges that, at all times  
21 herein mentioned, DOES 1 through 50, were the officers, employees, servants, agents,  
22 contractors, subsidiaries, divisions, and other affiliated individuals or entities, of each other, and  
23 were acting within the scope and purpose of such agency or employment, and with the power  
24 and authority vested in them as officers, employees, or servants, or ratification, endorsement or  
25 approval of the conduct of each other with respect to the events and happenings alleged herein.  
26 All Defendants herein named may be referred to collectively as "Defendants."

27 26. The true names and capacities of Defendants DOES 51 through 100 inclusive are  
28 unknown to Plaintiff, who therefore sue said Defendants by such fictitious names. Plaintiff is

1 informed and believes and alleges thereon that each of the Defendants herein designated as DOE  
2 is responsible in some manner for the events and happenings herein referred to and caused the  
3 injuries and damages legally thereby as hereinafter alleged.

4 27. As used herein, "Defendants" includes all named Defendants.

5 28. Defendants are authorized to do business in California and derive substantial  
6 income from doing business in this state.

7 29. Upon information and belief, Defendants purposefully availed themselves of the  
8 privilege of conducting activities with California, thus invoking the benefits and protections of  
9 its laws.

10 30. Upon information and belief, Defendants did act together to design, sell,  
11 advertise, manufacture and/or distribute Levaquin, with full knowledge of its dangerous and  
12 defective nature.

### 13 **JURISDICTION AND VENUE**

14 31. This Court has jurisdiction over this action pursuant to 28 U.S.C. § 1332 because  
15 the amount in controversy exceeds \$75,000, exclusive of interest and costs, and because  
16 Defendants are all either incorporated and have their principal place outside of the state in which  
17 the Plaintiff resides.

18 32. The Court also has supplemental jurisdiction pursuant to 28 U.S.C. § 1367.

19 33. Venue is proper in this Court pursuant to 28 U.S.C. § 1391 in that Defendants  
20 conduct business here and are subject to personal jurisdiction in this District. Furthermore,  
21 Defendants sell, market and/or distribute Levaquin within California and this District.

### 22 **FACTUAL ALLEGATIONS**

23 34. At all relevant times, Defendants were in the business of and did design, research,  
24 manufacture, test, advertise, promote, market, sell, distribute, and/or have acquired and are  
25 responsible for Defendants who have designed, researched, manufactured, tested, advertised,  
26 promoted, marketed, sold and distributed the pharmaceutical drug Levaquin.

27 35. Plaintiff was prescribed Levaquin and used it as directed.

28 36. Upon information and belief, McKesson distributed the Levaquin that Plaintiff

1 ingested. Plaintiff was administered Levaquin in pill form in Yelm, Washington.

2 37. Upon information and belief, McKesson distributed the Levaquin that Plaintiff  
3 ingested.

4 38. Levaquin was approved by the United States Food and Drug Administration  
5 (hereinafter "FDA") on December 20, 1996, for use in the United States, and is the brand name  
6 for the antibiotic levofloxacin.

7 39. Levaquin is a broad-spectrum fluoroquinolone antibiotic used to treat lung, sinus,  
8 skin, and urinary tract infections caused by certain germs called bacteria.

9 40. In 2003, after generic versions of Cipro (a competing fluoroquinolone antibiotic)  
10 went on the market, Levaquin became the number one prescribed fluoroquinolone in the United  
11 States.

12 41. In 2006, after generic versions of Zithromax, a highly popular macrolide  
13 antibiotic, went on the market, Levaquin became the number one prescribed antibiotic in the  
14 world.

15 42. In 2007, Levaquin was ranked 37 of the top 200 drugs that were prescribed in the  
16 United States.

17 43. In 2007, Levaquin was ranked 19th in world sales of prescribed drugs.

18 44. In 2007, Levaquin accounted for 6.5% of Johnson & Johnson's total revenue,  
19 generating \$1.6 billion in revenue, an 8% increase over the previous year.

20 45. Defendant Janssen Pharmaceuticals, Inc. indicates on its website that "[i]n a large  
21 number of clinical trials, Levaquin has been shown to have a proven safety and efficacy profile  
22 for the treatment of many bacterial infections."

23 46. However, the scientific evidence has established a clear association between  
24 Levaquin and an increased risk of long-term and sometimes irreversible peripheral neuropathy.

25 47. Defendants knew or should have known that Levaquin is associated with an  
26 increased risk of developing irreversible peripheral neuropathy.

27 48. Defendants failed to appropriately and adequately inform and warn Plaintiff and  
28 Plaintiff's prescribing physicians of the serious and dangerous risks associated with the use of

1 Levaquin concerning peripheral neuropathy, as well as other severe and personal injuries, which  
2 are permanent and/or long-lasting in nature, cause significant physical pain and mental anguish,  
3 diminished enjoyment of life, and the need for medical treatment, monitoring and/or  
4 medications.

5 49. The warning label for Levaquin during the period from September 2004 through  
6 August 2013 misled Plaintiff and his treating physician by incorrectly advising patients and  
7 physicians that peripheral neuropathy associated with Levaquin was “rare” and in any case could  
8 be avoided by discontinuing the drug upon the onset of certain symptoms. The truth, however,  
9 is that the onset of irreversible peripheral neuropathy is often rapid and discontinuation of the  
10 drug will not ensure that the peripheral neuropathy is reversible.

11 50. Though this injury can be significant and debilitating, the language regarding the  
12 “rare” risk of peripheral neuropathy was buried at the bottom of a long list of adverse reactions  
13 that were included on the Levaquin label; the language was in no way highlighted for the benefit  
14 of prescribing physicians and patients.

15 51. Additionally, Defendants failed to disseminate a “Dear Doctor” letter to  
16 physicians concerning the label change or the risk of irreversible peripheral neuropathy, and  
17 Defendants failed to disclose this serious and dangerous effect when promoting Levaquin to  
18 physicians.

19 52. Despite their knowledge that Levaquin was associated with an elevated risk of  
20 permanent nerve damage, Defendants’ promotional campaign was focused on Levaquin’s  
21 purported “safety profile.”

22 53. As early as 1992, there was evidence of the association between fluoroquinolone  
23 antibiotics and peripheral neuropathy. Dr. Aoun from the Infectious Diseases Clinic and  
24 Microbiology Laboratory at the Institut Jules Bordet in Belgium, along with others, wrote a  
25 letter to the editor of the Lancet raising concerns about a 37-year old patient who developed  
26 peripheral neuropathy after taking fluoroquinolones.

27 54. Four years later, Karin Hedenmalm and Olav Spigset published “Peripheral  
28 sensory disturbances related to treatment with fluoroquinolones” based on a review of 37

1 separate reports of symptoms of peripheral nerve damage, highlighting concerns about  
2 numbness, pain, and muscle weakness.

3 55. One of the first studies in the United States that included the post market  
4 experience concerning Levaquin and neuropathy was “Peripheral Neuropathy Associated with  
5 Fluoroquinolones” written by Jay S. Cohen.

6 56. The Cohen paper was published in December 2001 and revealed that adverse  
7 events reported by forty-five patients suggested a possible association between fluoroquinolones  
8 and long-term peripheral nervous system damage. The study noted in particular the presence of  
9 severe and/or persistent nerve problems. Over one-half of the patients surveyed said their  
10 symptoms lasted for more than a year, and eighty percent characterized their symptoms as  
11 severe. The Cohen paper recommended further investigation of the association between  
12 fluoroquinolones and peripheral neuropathy. The study concluded with the following advisory:  
13 “If the occurrence of fluoroquinolone-associated ADEs of this severity and duration is  
14 confirmed, physicians need to be informed and warnings might be considered for these drugs’  
15 product information.”

16 57. In 2002 and 2003 Defendants were put on notice that numerous reports had been  
17 submitted to the FDA’s Adverse Event Reporting System that identified fluoroquinolone users  
18 who had developed disabling peripheral neuropathy that persisted long after the drug had been  
19 discontinued.

20 58. A scientific review by the FDA of the adverse events in the FDA Adverse Event  
21 database in 2003 concerning Levaquin and other fluoroquinolones revealed numerous reports of  
22 long-term peripheral neuropathy.

23 59. In September 2004, an amended Levaquin label concerning peripheral nerve  
24 damage was approved by the FDA. The amended label included the following statement in the  
25 Warnings section:

26 Peripheral Neuropathy: Rare cases of sensory or sensorimotor axonal  
27 polyneuropathy affecting small and/or large axons resulting in paresthesias,  
28 hypoesthesias, dysesthesias and weakness have been reported in patients

1 receiving quinolones, including levofloxacin. Levofloxacin should be  
2 discontinued if the patient experiences symptoms of neuropathy including pain,  
3 burning, tingling, numbness, and/or weakness or other alterations of sensation  
4 including light touch, pain, temperature, position sense, and vibratory sensation  
5 in order to prevent the development of an irreversible condition.

6 60. Thus, rather than warning patients and physician that the use of Levaquin may  
7 result in permanent nerve damage, Defendants instead adopted a warning that misleadingly  
8 indicated such damage was rare and in any event could be avoided by simply discontinuing the  
9 drug upon the onset of certain symptoms.

10 61. Defendants' failure to adequately warn physicians resulted in (1) patients  
11 receiving Levaquin instead of another acceptable and adequate non-fluoroquinolone antibiotic,  
12 sufficient to treat the illness for which Plaintiff presented to the provider; (2) and physicians  
13 failing to warn and instruct consumers about the risk of peripheral nervous system injuries  
14 associated with Levaquin.

15 62. The failure of Defendants to include appropriate warnings in the label as  
16 published to the medical community also resulted in an absence of adequate warnings in patient  
17 information presented directly to consumers, either as part of samples packages or as part of the  
18 prescription they received from retail pharmacies.

19 63. Despite Defendants' knowledge and failure to adequately warn Plaintiff and  
20 physicians of the above, Defendants continue to market Levaquin as a first line therapy for  
21 common bronchitis, sinusitis and other non-life threatening bacterial infections, conditions for  
22 which many other safer antibiotics are available.

23 64. In August of 2013, after mounting evidence of the relationship between  
24 fluoroquinolones and severe, long-term peripheral neuropathy, the FDA determined that the  
25 existing warning regarding peripheral nerve damage was inadequate. On August 15, 2013, an  
26 updated warning was issued in which the risk of rapid onset of irreversible peripheral  
27 neuropathy was finally included. The updated warning also removed the statement that nerve  
28 damage occurred only in rare cases.

65. In January of 2014, Ayad Ali published “Peripheral neuropathy and Guillain-Barré syndrome risks associated with exposure to systemic fluoroquinolones: a pharmacovigilance analysis” which reemphasized the link between fluoroquinolones and peripheral neuropathy and called for increased scrutiny of the risk-benefit of fluoroquinolone prescriptions. The Ali paper also detailed the presence of strong safety signals dating back to at least 2005 regarding the potential for Levaquin and other fluoroquinolones to cause long-term, disabling peripheral neuropathy.

#### **EQUITABLE TOLLING OF APPLICABLE STATUTE OF LIMITATIONS**

66. Plaintiff incorporates by reference all prior paragraphs of this Complaint as if fully set forth herein.

67. The running of any statute of limitations has been tolled by reason of Defendants’ fraudulent concealment. Defendants, through their affirmative misrepresentations and omissions, actively concealed from Plaintiff and Plaintiff’s treating physicians the true risks associated with Levaquin.

68. As a result of Defendants’ actions, Plaintiff and, upon information and belief, Plaintiff’s treating physicians were unaware, and could not reasonably know or have learned through reasonable diligence that Plaintiff had been exposed to the risks alleged herein and that those risks were the direct and proximate result of Defendants’ acts and omissions.

69. Furthermore, Defendants are estopped from relying on any statute of limitations because of their fraudulent concealment of the true character, quality and nature of Levaquin. Defendants were under a duty to disclose the true character, quality, and nature of Levaquin because this was non-public information over which Defendants had and continues to have exclusive control, and because Defendants knew that this information was not available to the Plaintiff, medical providers and/or to their facilities. In addition, Defendants are estopped from relying on any statute of limitations because of their intentional concealment of these facts.

70. The Plaintiff had no knowledge that Defendants were engaged in the wrongdoing alleged herein. Because of the fraudulent acts of concealment of wrongdoing by Defendants, the Plaintiff could not have reasonably discovered the wrongdoing at any time prior. Also, the

1 economics of this fraud should be considered. Defendants had the ability to and did spend  
 2 enormous amounts of money in furtherance of their purpose of marketing, promoting and/or  
 3 distributing a profitable drug, notwithstanding the known or reasonably known risks. Plaintiff  
 4 and medical professionals could not have afforded and could not have possibly conducted  
 5 studies to determine the nature, extent and identity of related health risks, and were forced to  
 6 rely on only the Defendants' representations. Accordingly, Defendants are precluded by the  
 7 discovery rule and/or the doctrine of fraudulent concealment from relying upon any statute of  
 8 limitations.

9 71. For each Count hereinafter alleged and averred, the above and following  
 10 Paragraphs should be considered re-alleged as if fully rewritten.

### 11 **FIRST CAUSE OF ACTION**

#### 12 **[Strict Liability]**

13 72. Levaquin was defective at the time of its manufacture, development, production,  
 14 testing, inspection, endorsement, prescription, sale and distribution in that warnings, instructions  
 15 and directions accompanying Levaquin failed to warn of the dangerous risks posed by Levaquin,  
 16 including the risk of developing irreversible peripheral neuropathy.

17 73. At all times alleged herein, Levaquin was defective and Defendants knew that  
 18 Levaquin was to be used by consumers without inspection for defects. Moreover, Plaintiff, his  
 19 prescribing physicians, and his health care providers neither knew nor had reason to know at the  
 20 time of Plaintiff's use of Levaquin of the aforementioned defects. Ordinary consumers would  
 21 not have recognized the potential risks for which Defendants failed to include the appropriate  
 22 warnings.

23 74. At all times alleged herein, Levaquin was prescribed to and used by Plaintiff as  
 24 intended by Defendants and in a manner reasonably foreseeable to Defendants.

25 75. The design of Levaquin was defective in that the risks associated with using  
 26 Levaquin outweighed any benefits of the design. Any benefits associated with the use of  
 27 Levaquin were either relatively minor or nonexistent and could have been obtained by the use of  
 28

1 other, alternative treatments and products that could equally or more effectively reach similar  
2 results.

3 76. The defect in design existed when the product left Defendants' possession.

4 77. At the time Levaquin left the control of Defendants, Defendants knew or should  
5 have known of the risks associated with ingesting Levaquin.

6 78. As a result of Levaquin's defective condition, Plaintiff suffered the injuries and  
7 damages alleged herein.

8 WHEREFORE, Plaintiff respectfully requests that this Court enter judgment in his  
9 favor for compensatory and punitive damages, together with interest, costs herein incurred,  
10 attorneys' fees, and all such other and further relief as this Court deems just and proper.  
11 Plaintiff also demands that the issues herein contained be tried by a jury.

12 **SECOND CAUSE OF ACTION**

13 **[Product Liability – Failure to Warn]**

14 79. Plaintiff re-alleges all prior paragraphs of the Complaint as if set out here in full.

15 80. Defendants have engaged in the business of selling, distributing, supplying,  
16 manufacturing, marketing, and/or promoting Levaquin, and through that conduct have  
17 knowingly and intentionally placed Levaquin into the stream of commerce with full  
18 knowledge that it reaches consumers such as Plaintiff who ingested it.

19 81. Defendants did in fact sell, distribute, supply, manufacture, and/or promote  
20 Levaquin to Plaintiff and to his prescribing physicians. Additionally, Defendants expected the  
21 Levaquin that they were selling, distributing, supplying, manufacturing, and/or promoting to  
22 reach – and Levaquin did in fact reach – prescribing physicians and consumers, including  
23 Plaintiff and his prescribing physicians, without any substantial change in the condition of  
24 the product from when it was initially distributed by Defendants.

25 82. At all times herein mentioned, the aforesaid product was defective and unsafe  
26 in manufacture such that it was unreasonably dangerous to the user, and was so at the time it  
27 was distributed by Defendants and ingested by Plaintiff. The defective condition of Levaquin  
28 was due in part to the fact that it was not accompanied by proper warnings regarding the

1 possible side effect of developing long-term and potentially irreversible peripheral neuropathy  
2 as a result of its use.

3 83. This defect caused serious injury to Plaintiff, who used Levaquin in its  
4 intended and foreseeable manner.

5 84. At all times herein mentioned, Defendants had a duty to properly design,  
6 manufacture, compound, test, inspect, package, label, distribute, market, examine, maintain  
7 supply, provide proper warnings, and take such steps to assure that the product did not  
8 cause users to suffer from unreasonable and dangerous side effects.

9 85. Defendants so negligently and recklessly labeled, distributed, and promoted the  
10 aforesaid product that it was dangerous and unsafe for the use and purpose for which it was  
11 intended.

12 86. Defendants negligently and recklessly failed to warn of the nature and scope of  
13 the side effects associated with Levaquin, namely irreversible peripheral neuropathy.

14 87. Defendants were aware of the probable consequences of the aforesaid conduct.  
15 Despite the fact that Defendants knew or should have known that Levaquin caused serious  
16 injuries, they failed to exercise reasonable care to warn of the dangerous side effect of  
17 developing irreversible peripheral neuropathy from Levaquin use, even though this side effect  
18 was known or reasonably scientifically knowable at the time of distribution. Defendants  
19 willfully and deliberately failed to avoid the consequences associated with their failure to warn,  
20 and in doing so, Defendants acted with a conscious disregard for the safety of Plaintiff.

21 88. Plaintiff could not have discovered any defect in the subject product through  
22 the exercise of reasonable care.

23 89. Defendants, as the manufacturers and/or distributors of the subject product, are  
24 held to the level of knowledge of an expert in the field.

25 90. Plaintiff reasonably relied upon the skill, superior knowledge, and judgment  
26 of Defendants.

27 91. Had Defendants properly disclosed the risks associated with Levaquin,  
28 Plaintiff would have avoided the risk of irreversible peripheral neuropathy by not using

1 Levaquin.

2 92. As a direct and proximate result of the carelessness, negligence, recklessness,  
3 and gross negligence of Defendants alleged herein, and in such other ways to be later  
4 shown, the subject product caused Plaintiff to sustain injuries as herein alleged.

5 WHEREFORE, Plaintiff respectfully requests that this Court enter judgment in his  
6 favor for compensatory and punitive damages, together with interest, costs herein incurred,  
7 attorneys' fees, and all such other and further relief as this Court deems just and proper.  
8 Plaintiff also demands that the issues herein contained be tried by a jury.

### 9 **THIRD CAUSE OF ACTION**

#### 10 **[Negligence]**

11 93. Plaintiff re-alleges all prior paragraphs of the Complaint as if set out here in full.

12 94. At all times material hereto, Defendants had a duty to exercise reasonable care  
13 to consumers, including Plaintiff herein, in the design, development, manufacture, testing,  
14 inspection, packaging, promotion, marketing, distribution, labeling, and/or sale of Levaquin.

15 95. Defendants breached their duty of reasonable care to Plaintiff in that they  
16 negligently promoted, marketed, distributed, and/or labeled the subject product.

17 96. Plaintiff's injuries and damages alleged herein were and are the direct and  
18 proximate result of the carelessness and negligence of Defendants, including, but not limited  
19 to, one or more of the following particulars:

- 20 a) In the design, development, research, manufacture, testing, packaging,  
21 promotion, marketing, sale, and/or distribution of Levaquin;
- 22 b) In failing to warn or instruct, and/or adequately warn or adequately  
23 instruct, users of the subject product, including Plaintiff herein, of  
24 Levaquin's dangerous and defective characteristics;
- 25 c) In the design, development, implementation, administration,  
26 supervision, and/or monitoring of clinical trials for the subject product;
- 27 d) In promoting the subject product in an overly aggressive, deceitful, and  
28 fraudulent manner, despite evidence as to the product's defective and

1 dangerous characteristics due to its propensity to cause irreversible  
2 peripheral neuropathy;

3 e) In representing that the subject product was safe for its intended use  
4 when, in fact, the product was unsafe for its intended use;

5 f) In failing to perform appropriate pre-market testing of the subject  
6 product;

7 g) In failing to perform appropriate post-market surveillance of the  
8 subject product;

9 h) In failing to adequately and properly test Levaquin before and after  
10 placing it on the market;

11 i) In failing to conduct sufficient testing on Levaquin which, if properly  
12 performed, would have shown that Levaquin had the serious side effect  
13 of causing irreversible peripheral neuropathy;

14 j) In failing to adequately warn Plaintiff and his healthcare providers that  
15 the use of Levaquin carried a risk of developing irreversible peripheral  
16 neuropathy;

17 k) In failing to provide adequate post-marketing warnings or instructions  
18 after Defendant knew or should have known of the significant risk of  
19 irreversible peripheral neuropathy associated with the use of Levaquin;  
20 and

21 l) In failing to adequately and timely inform Plaintiff and the healthcare  
22 industry of the risk of serious personal injury, namely irreversible  
23 peripheral neuropathy, from Levaquin ingestion as described herein.

24 97. Defendants knew or should have known that consumers, such as Plaintiff  
25 herein, would foreseeably suffer injury as a result of Defendants' failure to exercise reasonable  
26 and ordinary care.

27 98. As a direct and proximate result of Defendants' carelessness and negligence,  
28 Plaintiff suffered severe and permanent physical and emotional injuries, including, but not

1 limited to, irreversible peripheral neuropathy. Plaintiff have endured pain and suffering, have  
 2 suffered economic loss, including incurring significant expenses for medical care and  
 3 treatment, and will continue to incur such expenses in the future. Plaintiff seeks actual and  
 4 punitive damages from Defendants as alleged herein.

5 WHEREFORE, Plaintiff respectfully requests that this Court enter judgment in his  
 6 favor for compensatory and punitive damages, together with interest, costs herein incurred,  
 7 attorneys' fees, and all such other and further relief as this Court deems just and proper.  
 8 Plaintiff also demands that the issues herein contained be tried by a jury.

#### 9 **FOURTH CAUSE OF ACTION**

##### 10 **[Breach of Express Warranty]**

11 99. Plaintiff re-alleges all prior paragraphs of the Complaint as if set out here in full.

12 100. Before Plaintiff was first prescribed Levaquin and during the period in which he  
 13 used Levaquin, Defendants expressly warranted that Levaquin was safe.

14 101. Levaquin did not conform to these express representations because Levaquin was  
 15 not safe and had an increased risk of serious side effects, including irreversible peripheral  
 16 neuropathy, whether taken individually or in conjunction with other therapies.

17 102. As a direct and proximate result of this wrongful conduct, Plaintiff was injured as  
 18 described above.

19 WHEREFORE, Plaintiff respectfully requests that this Court enter judgment in his  
 20 favor for compensatory and punitive damages, together with interest, costs herein incurred,  
 21 attorneys' fees, and all such other and further relief as this Court deems just and proper.  
 22 Plaintiff also demands that the issues herein contained be tried by a jury.

#### 23 **FIFTH CAUSE OF ACTION**

##### 24 **[Breach of Implied Warranty]**

25 103. Plaintiff re-alleges all prior paragraphs of the Complaint as if set out here in full.

26 104. At all times mentioned herein, Defendants manufactured, compounded,  
 27 packaged, distributed, recommended, merchandised, advertised, promoted, supplied, and/or  
 28 sold Levaquin, and prior to the time that it was prescribed to Plaintiff, Defendants impliedly

1 warranted to Plaintiff that the subject product was of merchantable quality and safe and fit  
2 for the use for which it was intended.

3 105. Plaintiff, individually and through his prescribing physicians, reasonably  
4 relied upon the skill, superior knowledge, and judgment of Defendants.

5 106. Plaintiff was prescribed, purchased, and used the subject product for its  
6 intended purpose.

7 107. Due to Defendants' wrongful conduct as alleged herein, Plaintiff could not  
8 have known about the nature of the risks and side effects associated with the subject product  
9 until after he used it.

10 108. Contrary to the implied warranty for the subject product, Levaquin was not of  
11 merchantable quality, and it was neither safe nor fit for its intended uses and purposes, as  
12 alleged herein.

13 109. As a direct and proximate result of Defendants' breach of implied warranty,  
14 Plaintiff suffered severe and permanent physical and emotional injuries, including, but not  
15 limited to, irreversible peripheral neuropathy. Plaintiff have endured pain and suffering, has  
16 suffered economic loss, including incurring significant expenses for medical care and  
17 treatment, and will continue to incur such expenses in the future. Plaintiff has actual and  
18 punitive damages from Defendant as alleged herein.

19 WHEREFORE, Plaintiff respectfully requests that this Court enter judgment in his  
20 favor for compensatory and punitive damages, together with interest, costs herein incurred,  
21 attorneys' fees, and all such other and further relief as this Court deems just and proper.  
22 Plaintiff also demands that the issues herein contained be tried by a jury.

23 **SIXTH CAUSE OF ACTION**

24 **[Fraud]**

25 110. Plaintiff re-alleges all prior paragraphs of the Complaint as if set out here in full.

26 111. Defendants misrepresented to Plaintiff, his prescribing physicians, and the  
27 healthcare industry the safety and effectiveness of Levaquin and/or fraudulently, intentionally,  
28 and/or negligently concealed material information, including adverse information, regarding the

1 safety and effectiveness of Levaquin.

2 112. Defendants made misrepresentations and actively concealed adverse  
3 information when Defendants knew, or should have known, that Levaquin had defects, dangers,  
4 and characteristics that were other than what Defendants had represented to Plaintiff, Plaintiff's  
5 physicians, and the healthcare industry generally. Specifically, Defendants actively concealed  
6 from Plaintiff, his prescribing physicians, the health care industry, and the consuming public  
7 that:

- 8 (a) Since at least 1996 Defendant Johnson & Johnson and/or its  
9 predecessors were in possession of data demonstrating that Levaquin  
10 increases the risk of irreversible peripheral neuropathy;
- 11 (b) There had been insufficient studies by Defendants and/or their  
12 predecessors regarding the safety and efficacy of Levaquin before and  
13 after its product launch;
- 14 (c) Levaquin was not fully and adequately tested by Defendants and/or their  
15 predecessor for the risk of developing irreversible peripheral neuropathy;  
16 and
- 17 (d) Testing and studies by other entities as reported in the scientific  
18 literature has shown that the use of Levaquin increases the risk of  
19 irreversible peripheral neuropathy.

20 113. These misrepresentations and/or active concealment alleged were perpetuated  
21 directly and/or indirectly by Defendants.

22 114. Defendants knew or should have known that these representations were false,  
23 and they made the representations with the intent or purpose of deceiving Plaintiff, his  
24 prescribing physicians, and the healthcare industry.

25 115. Defendants made these false representations with the intent or purpose that  
26 Plaintiff, his prescribing physicians, and the healthcare industry would rely on them, leading  
27 to the use of Levaquin by Plaintiff as well as the general public.

28 116. At all times herein mentioned, neither Plaintiff nor his physicians were aware

1 of the falsity or incompleteness of the statements being made by Defendants and believed  
2 them to be true. Had they been aware of said facts, his physicians would not have prescribed  
3 and Plaintiff would not have utilized the subject product.

4 117. Plaintiff, his prescribing physicians, and the healthcare industry justifiably relied  
5 on and/or were induced by Defendants' misrepresentations and/or active concealment and relied  
6 on the absence of information regarding the dangers of Levaquin that Defendants did suppress,  
7 conceal, or fail to disclose to Plaintiff's detriment. Plaintiff justifiably relied, directly or  
8 indirectly, on Defendants' misrepresentations and/or active concealment regarding the true  
9 dangers of Levaquin. Based on the nature of the physician-patient relationship, Defendants had  
10 reason to expect that Plaintiff would indirectly rely on Defendants' misrepresentations and/or  
11 active concealment.

12 118. Defendants had a post-sale duty to warn Plaintiff, his prescribing physicians,  
13 and the general public about the potential risks and complications associated with Levaquin  
14 in a timely manner.

15 119. Defendants made the representations and actively concealed information about  
16 the defects and dangers of Levaquin with the intent and specific desire that Plaintiff's  
17 prescribing physicians and the consuming public would rely on such information, or the  
18 absence of information, in selecting Levaquin as a treatment.

19 120. As a result of the concealment and/or suppression of the material facts set  
20 forth above, Plaintiff ingested Levaquin and suffered injuries as set forth herein.

21 WHEREFORE, Plaintiff respectfully requests that this Court enter judgment in his  
22 favor for compensatory and punitive damages, together with interest, costs herein incurred,  
23 attorneys' fees, and all such other and further relief as this Court deems just and proper.  
24 Plaintiff also demands that the issues herein contained be tried by a jury.

25 **SEVENTH CAUSE OF ACTION**

26 **[Negligent Misrepresentation]**

27 121. Plaintiff re-alleges all prior paragraphs of the Complaint as if set out here in full.

28 122. Defendants negligently and/or recklessly misrepresented to Plaintiff, his

1 prescribing physicians, and the healthcare industry the safety and effectiveness of Levaquin  
2 and/or recklessly and/or negligently concealed material information, including adverse  
3 information, regarding the safety, effectiveness, and dangers posed by Levaquin.

4 123. Defendants made reckless or negligent misrepresentations and negligently or  
5 recklessly concealed adverse information when Defendants knew, or should have known, that  
6 Levaquin had defects, dangers, and characteristics that were other than what Defendants had  
7 represented to Plaintiff, Plaintiff's physician(s) and the healthcare industry generally.  
8 Specifically, Defendants negligently or recklessly concealed from Plaintiff, his prescribing  
9 physicians, the health care industry, and the consuming public that:

10 (a) Since at least 1996 Defendant Johnson & Johnson and/or its  
11 predecessors were in possession of data demonstrating that Levaquin  
12 increases the risk of irreversible peripheral neuropathy;

13 (b) There had been insufficient studies by Defendants and/or their  
14 predecessors regarding the safety and efficacy of Levaquin before and  
15 after its product launch;

16 (c) Levaquin was not fully and adequately tested by Defendants and/or their  
17 predecessor for the risk of developing irreversible peripheral neuropathy;  
18 and

19 (d) Testing and studies by other entities as reported in the scientific  
20 literature has shown that the use of Levaquin increases the risk of  
21 irreversible peripheral neuropathy.

22 124. These negligent or reckless misrepresentations and/or negligent or reckless  
23 failures to disclose were perpetuated directly and/or indirectly by Defendants.

24 125. Defendants should have known through the exercise of due care that these  
25 representations were false, and they made the representations without the exercise of due care  
26 leading to the deception of Plaintiff, his prescribing physicians, and the healthcare industry.

27 126. Defendants made these false representations without the exercise of due care  
28 knowing that it was reasonable and foreseeable that Plaintiff, his prescribing physicians, and

1 the healthcare industry would rely on them, leading to the use of Levaquin by Plaintiff as well  
2 as the general public.

3 127. At all times herein mentioned, neither Plaintiff nor his physicians were aware  
4 of the falsity or incompleteness of the statements being made by Defendants and believed  
5 them to be true. Had they been aware of said facts, his physicians would not have prescribed  
6 and Plaintiff would not have utilized the subject product.

7 128. Plaintiff justifiably relied on and/or was induced by Defendants' negligent or  
8 reckless misrepresentations and/or negligent or reckless failure to disclose the dangers of  
9 Levaquin and relied on the absence of information regarding the dangers of Levaquin which  
10 Defendants negligently or recklessly suppressed, concealed, or failed to disclose to Plaintiff's  
11 detriment.

12 129. Defendants had a post-sale duty to warn Plaintiff, his prescribing physicians,  
13 and the general public about the potential risks and complications associated with Levaquin  
14 in a timely manner.

15 130. Defendants made the representations and actively concealed information about  
16 the defects and dangers of Levaquin with the absence of due care such that Plaintiff's  
17 prescribing physicians and the consuming public would rely on such information, or the  
18 absence of information, in selecting Levaquin as a treatment.

19 131. As a result of the negligent or reckless concealment and/or the negligent or  
20 reckless failure to provide materials facts set forth above, Plaintiff ingested Levaquin and  
21 suffered injuries as set forth herein.

22 WHEREFORE, Plaintiff respectfully requests that this Court enter judgment in his  
23 favor for compensatory and punitive damages, together with interest, costs herein incurred,  
24 attorneys' fees, and all such other and further relief as this Court deems just and proper.  
25 Plaintiff also demands that the issues herein contained be tried by a jury.

26 **EIGHTH CAUSE OF ACTION**

27 **[Fraudulent Concealment]**

28 132. Plaintiff re-alleges all prior paragraphs of the Complaint as if set out here in full.

1           133. Defendants committed actual fraud by making material representations that were  
2 false, knowing that such material representations were false, and/or with reckless disregard  
3 for the truth or falsity of such material representations with the intent that Plaintiff and his  
4 prescribing physicians would rely on such material representations.

5           134. Plaintiff and his prescribing physicians were unaware of the falsity of these  
6 representations, they acted in actual and justifiable reliance on such material misrepresentations,  
7 and Plaintiff was injured as a direct and proximate result.

8           135. Additionally, Defendants knowingly omitted material information and  
9 remained silent regarding said misrepresentations despite the fact that they had a duty to  
10 inform Plaintiff, his prescribing physicians, and the general public of the inaccuracy of said  
11 misrepresentations, which omission constitutes a positive misrepresentation of material fact,  
12 with the intent that Plaintiff and his prescribing physicians would rely on Defendants'  
13 misrepresentations. Plaintiff and his prescribing physicians did, in fact, act in actual and  
14 justifiable reliance on Defendants' representations, and Plaintiff was injured as a result.

15           136. At all times herein mentioned, Defendants had a duty to Plaintiff, his  
16 prescribing physicians, and the general public to accurately inform them of risks associated with  
17 Levaquin because Defendants, as the manufacturer and/or distributor of the subject product,  
18 were in a position of superior knowledge and judgment regarding any potential risks associated  
19 with Levaquin.

20           137. Defendants committed constructive fraud by breaching one or more legal or  
21 equitable duties owed to Plaintiff relating to the Levaquin at issue in this lawsuit, said breach or  
22 breaches constituting fraud because of his propensity to deceive others or constitute an injury to  
23 public interests or public policy.

24           138. In breaching their duties to Plaintiff, Defendants used their position of trust as  
25 the manufacturer and/or distributor of Levaquin to increase sales of the drug at the expense of  
26 informing Plaintiff that, by ingesting Levaquin, he was placing himself at a significantly-  
27 increased risk of developing irreversible peripheral neuropathy.

28           WHEREFORE, Plaintiff respectfully requests that this Court enter judgment in his

1 favor for compensatory and punitive damages, together with interest, costs herein incurred,  
2 attorneys' fees, and all such other and further relief as this Court deems just and proper.  
3 Plaintiff also demands that the issues herein contained be tried by a jury.

4 **PUNITIVE DAMAGES**

5 139. Plaintiff re-alleges all prior paragraphs of the Complaint as if set out here in full.

6 140. At all times material hereto, Defendants knew or should have known that  
7 Levaquin was inherently dangerous with respect to the risk of irreversible peripheral  
8 neuropathy.

9 141. At all times material hereto, Defendants attempted to misrepresent and did  
10 misrepresent facts concerning the safety of Levaquin.

11 142. Defendants' misrepresentations included knowingly withholding material  
12 information from the medical community and the public, including Plaintiff, concerning the  
13 safety of the subject product.

14 143. At all times material hereto, Defendants knew and recklessly disregarded the  
15 fact that Levaquin causes the chronic illness irreversible peripheral neuropathy.

16 144. Notwithstanding the foregoing, Defendants continued to aggressively market the  
17 subject product to consumers, including Plaintiff herein, without disclosing the aforesaid side  
18 effect.

19 145. Defendants knew of the subject product's lack of warnings regarding the risk  
20 of irreversible peripheral neuropathy, but they intentionally concealed and/or recklessly failed  
21 to disclose that risk and continued to market, distribute, and/or sell Levaquin without said  
22 warnings so as to maximize sales and profits at the expense of the health and safety of the  
23 public, including Plaintiff herein, in conscious and/or negligent disregard of the foreseeable  
24 harm caused by Levaquin.

25 146. Defendants' intentional and/or reckless failure to disclose information deprived  
26 Plaintiff of necessary information to enable them to weigh the true risks of using Levaquin  
27 against its benefits.

28 147. As a direct and proximate result of Defendants' willful, wanton, careless,

1 reckless, conscious, and deliberate disregard for the rights and safety of their consumers,  
2 Plaintiff suffered severe and permanent physical and emotional injuries, including, but not  
3 limited to, irreversible peripheral neuropathy. Plaintiff have endured pain and suffering, has  
4 suffered economic loss, including incurring significant expenses for medical care and treatment,  
5 and will continue to incur such expenses in the future. Plaintiff' injuries and damages are  
6 permanent and will continue into the future.

7 148. Defendants' aforesaid conduct was committed with knowing, conscious,  
8 careless, reckless, willful, wanton, and deliberate disregard for the rights and safety of  
9 consumers, including Plaintiff, thereby entitling Plaintiff to punitive damages in an amount  
10 appropriate to punish Defendants and deter them from similar conduct in the future.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiff prays for relief and judgment against Defendants as follows:

- (a) For general (non-economic) and special (economic) damages in a sum in excess of the jurisdictional minimum of this Court;
- (b) For medical, incidental, and hospital expenses according to proof;
- (c) For pre-judgment and post-judgment interest as provided by law;
- (d) For full refund of all purchase costs Plaintiff paid for Levaquin;
- (e) For compensatory damages in excess of the jurisdictional minimum of this Court;
- (f) For consequential damages in excess of the jurisdictional minimum of this Court;
- (g) For punitive damages in an amount in excess of any jurisdictional minimum of this Court and in an amount sufficient to impress upon Defendants the seriousness of their conduct and to deter similar conduct in the future;
- (h) For attorneys' fees, expenses, and costs of this action; and
- (i) For such further relief as this Court deems necessary, just, and proper.

**INSTRUCTIONS FOR ATTORNEYS COMPLETING CIVIL COVER SHEET FORM JS 44**

## Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

- I.(a) Plaintiffs-Defendants.** Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.
  - (b) County of Residence.** For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)
  - (c) Attorneys.** Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".
- II. Jurisdiction.** The basis of jurisdiction is set forth under Rule 8(a), F.R.Cv.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.
- United States plaintiff. (1) Jurisdiction based on 28 U.S.C. 1345 and 1348. Suits by agencies and officers of the United States are included here.
- United States defendant. (2) When the plaintiff is suing the United States, its officers or agencies, place an "X" in this box.
- Federal question. (3) This refers to suits under 28 U.S.C. 1331, where jurisdiction arises under the Constitution of the United States, an amendment to the Constitution, an act of Congress or a treaty of the United States. In cases where the U.S. is a party, the U.S. plaintiff or defendant code takes precedence, and box 1 or 2 should be marked.
- Diversity of citizenship. (4) This refers to suits under 28 U.S.C. 1332, where parties are citizens of different states. When Box 4 is checked, the citizenship of the different parties must be checked. (See Section III below; **NOTE: federal question actions take precedence over diversity cases.**)
- III. Residence (citizenship) of Principal Parties.** This section of the JS 44 is to be completed if diversity of citizenship was indicated above. Mark this section for each principal party.
- IV. Nature of Suit.** Place an "X" in the appropriate box. If the nature of suit cannot be determined, be sure the cause of action, in Section VI below, is sufficient to enable the deputy clerk or the statistical clerk(s) in the Administrative Office to determine the nature of suit. If the cause fits more than one nature of suit, select the most definitive.
- V. Origin.** Place an "X" in one of the six boxes.
- Original Proceedings. (1) Cases which originate in the United States district courts.
- Removed from State Court. (2) Proceedings initiated in state courts may be removed to the district courts under Title 28 U.S.C., Section 1441. When the petition for removal is granted, check this box.
- Remanded from Appellate Court. (3) Check this box for cases remanded to the district court for further action. Use the date of remand as the filing date.
- Reinstated or Reopened. (4) Check this box for cases reinstated or reopened in the district court. Use the reopening date as the filing date.
- Transferred from Another District. (5) For cases transferred under Title 28 U.S.C. Section 1404(a). Do not use this for within district transfers or multidistrict litigation transfers.
- Multidistrict Litigation. (6) Check this box when a multidistrict case is transferred into the district under authority of Title 28 U.S.C. Section 1407. When this box is checked, do not check (5) above.
- VI. Cause of Action.** Report the civil statute directly related to the cause of action and give a brief description of the cause. **Do not cite jurisdictional statutes unless diversity.** Example: U.S. Civil Statute: 47 USC 553 Brief Description: Unauthorized reception of cable service
- VII. Requested in Complaint.** Class Action. Place an "X" in this box if you are filing a class action under Rule 23, F.R.Cv.P.
- Demand. In this space enter the actual dollar amount being demanded or indicate other demand, such as a preliminary injunction.
- Jury Demand. Check the appropriate box to indicate whether or not a jury is being demanded.
- VIII. Related Cases.** This section of the JS 44 is used to reference related pending cases, if any. If there are related pending cases, insert the docket numbers and the corresponding judge names for such cases.

**Date and Attorney Signature.** Date and sign the civil cover sheet.
