

IN THE UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF LOUISIANA
LAFAYETTE DIVISION

**KENNETH J. BATISTE, Individually
and as Personal Representative of the
Estate of DEIADRIA BATISTE,
Deceased.**

Plaintiff,

v.

**JOHNSON & JOHNSON, and
JOHNSON & JOHNSON CONSUMER
COMPANIES, INC.,**

Defendants.

Case Number:

JURY TRIAL DEMANDED

COMPLAINT

COMES NOW Plaintiff, Kenneth J. Batiste, individually and as the personal representative of the estate of Deiadria Batiste, deceased, by and through undersigned counsel, who brings this action against Defendants Johnson & Johnson (“J&J”) and Johnson & Johnson Consumer Companies, Inc. (“J&J Consumer”) as follows:

INTRODUCTION

1. This action arises out of Deiadria Batiste’s diagnosis of ovarian cancer and her subsequent death. Ms. Batiste’s cancer and death were directly and proximately caused by her regular and prolonged exposure to talcum powder, contained in Johnson

& Johnson Baby Powder (hereinafter "J&J Baby Powder) and Shower to Shower. Plaintiff Kenneth J. Batiste brings this cause of action against Defendants for claims arising from the direct and proximate result of Defendants' and/or their corporate predecessors' negligent, willful, and wrongful conduct in connection with the design, development, manufacture, testing, packaging, promoting, marketing, distribution, labeling, and/or sale of the products known as J&J Baby Powder and Shower to Shower (hereinafter collectively referred to as "Products").

PARTIES

2. Ms. Batiste was born in 1963, and used J&J Baby Powder and Shower to Shower, the "Products," for nearly her entire life. As a direct and proximate result of using the Products, Ms. Batiste was diagnosed with ovarian cancer in approximately 2011, and ultimately died of ovarian cancer on August 6, 2015. Ms. Batiste resided in Lafayette Parish, Louisiana at the time of her diagnosis and death, and she purchased and used the Products in Lafayette Parish, Louisiana.

3. Plaintiff Kenneth J. Batiste resides in Lafayette Parish, Louisiana, and is Ms. Batiste's biological son. On July 22, 2016, Mr. Kenneth J. Batiste was duly appointed as the Representative of the estate of his late mother in Lafayette Parish, Louisiana.

4. Defendant, Johnson & Johnson ("J&J"), is a New Jersey corporation with its principal place of business in the State of New Jersey.

5. At all pertinent times, Johnson & Johnson was engaged in the business of manufacturing, marketing, testing, promoting, selling, and/or distributing the Products. At all pertinent times, Johnson & Johnson regularly transacted, solicited, and conducted business in all States of the United States, including the State of Louisiana.

6. Defendant, Johnson & Johnson Consumer Companies, Inc. is a New Jersey corporation with its principal place of business in the State of New Jersey.

7. At all pertinent times, Johnson & Johnson Consumer Companies, Inc. was engaged in the business of manufacturing, marketing, testing, promoting, selling, and/or distributing the Products. At all pertinent times, Johnson & Johnson regularly transacted, solicited, and conducted business in all States of the United States, including the State of Louisiana.

8. At all pertinent times, all Defendants were engaged in the research, development, manufacture, design, testing, sale and marketing of the Products, and introduced such products into interstate commerce with knowledge and intent that such products be sold in the State of Louisiana.

JURISDICTION AND VENUE

9. This Court has original jurisdiction pursuant to 28 U.S.C. § 1332(d) because complete diversity exists between Plaintiff and Defendants, and the matter in controversy, exclusive of interest and costs, exceeds the sum or value of \$75,000.

10. This Court has personal jurisdiction over Defendants because Defendants are authorized to conduct and do conduct business in the State of Louisiana. Defendants have marketed, promoted, distributed, and sold the Products in the state of Louisiana and Defendants have sufficient minimum contacts with this State and/or sufficiently avail themselves of the markets in this State through their promotion, sales, distribution and marketing within this State to render the exercise of jurisdiction by this Court permissible.

11. Venue is proper in this Court pursuant to 28 U.S.C. §§ 1391(a) and (b) because a substantial part of the events or omissions giving rise to Plaintiff's claims occurred in this judicial district. Venue is also proper under 18 U.S.C. § 1965(a) because Defendants transact substantial business in this judicial district.

FACTS COMMON TO ALL COUNTS

A. Background: Talc as a Carcinogen and Defendants' Knowledge

12. Talc is a magnesium trisilicate and is mined from the earth. Talc is an inorganic mineral.

13. Talc is the main substance in talcum powders. The Johnson & Johnson Defendants manufactured the Products. The Products are composed almost entirely of talc.

14. At all pertinent times, a feasible alternative to the Products has existed. For example, cornstarch is an organic carbohydrate that is quickly broken down by the

body with no known health effects. Cornstarch powders have been sold and marketed for the same uses as the Products with nearly the same effectiveness.

15. Historically, "Johnson's Baby Powder" has been a symbol of freshness, cleanliness, and purity. During the time in question, the Johnson & Johnson Defendants advertised and marketed this product as the beacon of "freshness" and "comfort", eliminating friction on the skin, absorbing "excess wetness" helping keep skin feeling dry and comfortable, and "clinically proven gentle and mild." The Johnson & Johnson Defendants instructed women through advertisements to dust themselves with this product to mask odors. The bottle of "Johnson's Baby Powder" specifically targets women by stating, "For you, use every day to help feel soft, fresh, and comfortable."

16. During the time in question, the Johnson & Johnson Defendants advertised and marketed the product "Shower to Shower" as safe for use by women as evidenced in its slogan "A sprinkle a day keeps odor away", and through advertisements such as "Your body perspires in more places than just under your arms. Use SHOWER to SHOWER to feel dry, fresh, and comfortable throughout the day." And "SHOWER to SHOWER can be used all over your body."

17. In 1971, the first study was conducted that suggested an association between talc and ovarian cancer. This study was conducted by Dr. W.J. Henderson and others in Cardiff, Wales.

18. In 1982, the first epidemiologic study was performed on talc powder use in the female genital area. This study was conducted by Dr. Daniel Cramer and others. This study found a 92% increased risk in ovarian cancer with women who reported genital talc use. Shortly after this study was published, Dr. Bruce Semple of Johnson & Johnson came and visited Dr. Cramer about his study. Dr. Cramer advised Dr. Semple that Johnson & Johnson should place a warning on its talcum powders about the ovarian cancer risks so that women can make an informed decision about their health.

19. Since 1982, there have been approximately twenty-two (22) additional epidemiologic studies providing data regarding the association of talc and ovarian cancer. Nearly all of these studies have reported an elevated risk for ovarian cancer associated with genital talc use in women.

- a. In 1983, a case-control study found a 150% increased risk of ovarian cancer for women who use talcum powder in the genital area. Hartge, P., *et al.* Talc and Ovarian Cancer. *JAMA*. 1983; 250(14):1844.
- b. In 1988, a case control study of 188 women diagnosed with epithelial ovarian cancer and 539 control women found that 52% of the cancer patients habitually used talcum powder on the genital area before their cancer diagnosis. The study showed a 50% increase in risk of ovarian cancer in women that used talcum powder on their genital area and a positive dose-response relationship. Whittemore AS, *et al.* Personal and

environmental characteristics related to epithelial ovarian cancer. II. Exposures to talcum powder, tobacco, alcohol, and coffee. *Am. J. Epidemiol.* 1988 Dec; 128(6):1228-40.

- c. A 1989 study looked at 235 women diagnosed with epithelial ovarian cancer and 451 controls, and found a 29% increased risk in ovarian cancer with women who reported genital talcum powder use more than once each week. Booth, M., *et al.* Risk factors for ovarian cancer: a case-control study. *Br J Cancer.* 1989 Oct; 60(4):592-8.
- d. In 1992, a case-control study found a statistically significant 80% increased risk of ovarian cancer in women with more than 10,000 lifetime perineal applications of talc, demonstrating a positive dose-response relationship. Harlow BL, *et al.* Perineal exposure to talc and ovarian cancer risk. *Obstet Gynecol.* 1992 Jul; 80(1):19-26.
- e. Another 1992 case-control study reported a 70% increased risk from genital talc use and a 379% increased risk of ovarian cancer of women who used talc on sanitary napkins in their genital area. Rosenblatt, K.A. *et al.* Mineral fiber exposure and the development of ovarian cancer. *Gynecol Oncol.* 1992 Apr; 45(1):20-5.
- f. In 1995, the largest study of its kind to date found a statistically significant 27% increased risk in ovarian cancer for women who regularly

use talc in the abdominal or perineal area. Purdie, D., *et al.* Reproductive and other factors and risk of epithelial ovarian cancer: An Australian case-control study. Survey of Women's Health Study Group. *Int J Cancer*. 1995 Sep 15; 62(6):678-84.

- g. In 1996, a case-control study found a statistically significant 97% increased risk of ovarian cancer in women who used what they described as a "moderate" or higher use of talc-based powders in their genital area. See Shushan, A., *et al.* Human menopausal gonadotropin and the risk of epithelial ovarian cancer. *Fertil. Steril.* 1996 Jan; 65(1):13-8.
- h. In 1997, a case control study of 313 women with ovarian cancer and 422 without this disease found that the women with cancer were more likely to have applied talcum powder to their external genitalia area. Women using these products had a statistically significant 50% to 90% higher risk of developing ovarian cancer. Cook, LS, *et al.* Perineal powder exposure and the risk of ovarian cancer. *Am. J Epidemiol.* 1997 Mar 1; 145(5):459-65.
- i. In 1997, a case-control study involving over 1,000 women found a statistically significant increased risk of 42% for ovarian cancer for women who applied talc via sanitary napkins to their perineal area. Chang, S, *et al.* Perineal talc exposure and risk of ovarian carcinoma. *Cancer.* 1997 Jun 15; 79(12):2396-401.

- j. In 1998, a case-control study found a 149% increased risk of ovarian cancer in women who used talc-based powders on their perineal area. Godard, B., *et al.* Risk factors for familial and sporadic ovarian cancer among French Canadians: a case-control study. *Am J Obstet Gynecol.* 1998 Aug; 179(2):403-10.
- k. Dr. Daniel Cramer conducted another case-control study in 1999, observing 563 women newly diagnosed with epithelial ovarian cancer and 523 women in a control. The study found a statistically significant 60% increased risk of ovarian cancer in women that used talc-based body powders on their perineal area and an 80% increase in risk for women with over 10,000 lifetime applications. Cramer, DW, *et al.* Genital talc exposure and risk of ovarian cancer. *Int J Cancer.* 1999 May 5; 81(3):351-56.
- l. In 2000, a case-control study of over 2,000 women found a statistically significant 50% increased risk of ovarian cancer from genital talc use in women. Ness, RB, *et al.* Factors related to inflammation of the ovarian epithelium and risk of ovarian cancer. *Epidemiology.* 2000 Mar; 11(2):111-7.
- m. In 2004, a case-control study of nearly 1,400 women from 22 counties in Central California found a statistically significant 37% increased risk of

epithelial ovarian cancer from women's genital talc use, and a 77% increased risk of serous invasive ovarian cancer from women's genital talc use. Importantly, this study also examined at women's use of cornstarch powders as an alternative to talc, and found no increased risk in ovarian cancer in women in the cornstarch group, further supporting the causal connection between genital talc use and ovarian cancer. Mills, PK, *et al.* Perineal talc exposure and epithelial ovarian cancer risk in the Central Valley of California. *Int J Cancer*. 2004 Nov 10; 112(3):458-64.

- n. In 2008, a combined study of over 3,000 women from a New England-based case-control study found a general 36% statistically significant increased risk of epithelial ovarian cancer from genital talc use and a 60% increased risk of the serous invasive ovarian cancer subtype. The study also found a strong dose-response relationship between the cumulative talc exposure and incidence of ovarian cancer, adding further support to the causal relationship. Gates, MA, *et al.* Talc Use, Variants of the GSTM1, GSTT1, and NAT2 Genes, and Risk of Epithelial Ovarian Cancer. *Cancer Epidemiol Biomarkers Prev*. 2008 Sep; 17(9):2436-44.
- o. A 2009 case-control study of over 1,200 women found the risk of ovarian cancer increased significantly with increasing frequency and duration of talc use, with an overall statistically significant 53% increased risk of

ovarian cancer from genital talc use. That increased risk rose dramatically, to 108%, in women with the longest duration and most frequent talc use. Wu, AH, *et al.* Markers of inflammation and risk of ovarian cancer in Los Angeles County. *Int. J Cancer.* 2009 Mar 15; 124(6):1409-15.

p. In 2011, another case-control study of over 2,000 women found a 27% increased risk of ovarian cancer from genital talc use. Rosenblatt, KA, *et al.* Genital powder exposure and the risk of epithelial ovarian cancer. *Cancer Causes Control.* 2011 May; 22(5):737-42.

q. In June of 2013, a pooled analysis of over 18,000 women in eight case-control studies found a 20% to 30% increased risk of women developing epithelial ovarian cancer from genital powder use. The study concluded by stating, "Because there are few modifiable risk factors for ovarian cancer, avoidance of genital powders may be a possible strategy to reduce ovarian cancer incidence." Terry, KL, *et al.* Genital powder use and risk of ovarian cancer: a pooled analysis of 8,525 cases and 9,859 controls. *Cancer Prev Res (Phila).* 2013 Aug; 6(8):811-21.

20. In 1993, the United States National Toxicology Program published a study on the toxicity of non-asbestiform talc and found clear evidence of carcinogenic activity. Talc was found to be a carcinogen, with or without the presence of asbestos-like fibers.

21. In response to the United States National Toxicology Program's study, the Cosmetic Toiletry and Fragrance Association (CTFA) formed the Talc Interested Party Task Force (TIPTF). Johnson & Johnson, Inc., and Johnson & Johnson Consumer Companies, Inc. were members of the CTFA. The stated purpose of the TIPTF was to pool financial resources of these companies in an effort to collectively defend talc use at all costs and to prevent regulation of any type over this industry. The TIPTF hired scientists to perform biased research regarding the safety of talc, members of the TIPTF edited scientific reports of the scientists hired by this group prior to the submission of these scientific reports to governmental agencies, members of the TIPTF knowingly released false information about the safety of talc to the consuming public, and used political and economic influence on regulatory bodies regarding talc. All of these activities have been well coordinated and planned by these companies and organizations over the past four (4) decades in an effort to prevent regulation of talc and to create confusion to the consuming public about the true hazards of talc relative to cancer.

22. On November 10, 1994, the Cancer Prevention Coalition mailed a letter to then Johnson & Johnson C.E.O, Ralph Larson, informing his company that studies as far back as 1960's ". . . show[] conclusively that the frequent use of talcum powder in the genital area pose[] a serious health risk of ovarian cancer." The letter cited a recent study by Dr. Bernard Harlow from Harvard Medical School confirming this fact and

quoted a portion of the study where Dr. Harlow and his colleagues discouraged the use of talc in the female genital area. The letter further stated that 14,000 women per year die from ovarian cancer and that this type of cancer is very difficult to detect and has a low survival rate. The letter concluded by requesting that Johnson & Johnson withdraw talc products from the market because of the alternative of cornstarch powders, or at a minimum, place warning information on its talc-based body powders about ovarian cancer risk they pose.

23. In 1996, the condom industry stopped dusting condoms with talc due to the growing health concerns.

24. In February of 2006, the International Association for the Research of Cancer (IARC) part of the World Health Organization published a paper whereby they classified perineal use of talc based body powder as a "Group 2B" human carcinogen. IARC which is universally accepted as the international authority on cancer issues, concluded that studies from around the world consistently found an increased risk of ovarian cancer in women from perineal use of talc. IARC found that between 16-52% of women in the world were using talc to dust their perineum and found an increased risk of ovarian cancer in women talc users ranging from 30-60%. IARC concluded with this "Evaluation": "There is limited evidence in humans for the carcinogenicity of perineal use of talc-based body powder." By definition "Limited evidence of carcinogenicity" means "a positive association has been observed between exposure to the agent and

cancer for which a causal interpretation is considered by the Working Group to be credible, but chance, bias or confounding could not be ruled out with reasonable confidence.”

25. In approximately 2006, the Canadian government under The Hazardous Products Act and associated Controlled Products Regulations classified talc as a “D2A,” “very toxic,” 51 “cancer causing” substance under its Workplace Hazardous Materials Information System (WHMIS). Asbestos is also classified as “D2A”.

26. In 2006, Imerys Talc began placing a warning on the Material Safety Data Sheets (MSDS) it provided to the Johnson & Johnson Defendants regarding the talc it sold to them to be used in the Products. These MSDSs not only provided the warning information about the IARC classification but also included warning information regarding “States Rights to Know” and warning information about the Canadian Government’s “D2A” classification of talc as well.

27. Defendants had a duty to know and warn about the hazards associated with the use of the Products.

28. Defendants failed to inform customers and end users of the Products of a known catastrophic health hazard associated with the use of the Products.

29. In addition, Defendants procured and disseminated false, misleading, and biased information regarding the safety of the Products to the public and used influence over governmental and regulatory bodies regarding talc.

B. Ms. Batiste's Use of the Products

30. Ms. Batiste was born in 1963, and was a resident of Lafayette Parish, Louisiana.

31. Ms. Batiste began the practice of applying talcum powder based products, including Defendants' Products, to her perineal area as a teenager in the 1970s. She continued applying the Products to her perineal area on a daily basis for the rest of her life, exactly as instructed and advertised by the Johnson & Johnson Defendants.

32. There was never any indication, on the Products' packaging or otherwise, that this normal use could and would cause Ms. Batiste to develop ovarian cancer.

33. Ms. Batiste was diagnosed with ovarian cancer in or around 2011, and underwent a total hysterectomy and subsequent treatment.

34. Ms. Batiste died as a result of ovarian cancer on August 6, 2015. She was only 52 years old.

35. As noted above, Plaintiff Kenneth J. Batiste is Ms. Batiste's surviving son and the personal representative of her estate.

COUNT ONE - STRICT LIABILITY
(FAILURE TO WARN)

36. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

37. At all pertinent times, the Johnson & Johnson Defendants were manufacturing, marketing, testing, promoting, selling and/or distributing the Products in the regular course of business.

38. At all pertinent times, Ms. Batiste used the Products to powder her perineal area, which is a reasonably foreseeable use.

39. At all pertinent times, Defendants in this action knew or should have known that the use of talcum powder based products in the perineal area significantly increases the risk of cancer, including, but not limited to, ovarian cancer, based upon scientific knowledge dating back for decades.

40. At all pertinent times, including the time of sale and consumption, the Products, when put to the aforementioned reasonably foreseeable use, were in an unreasonably dangerous and defective condition because they failed to contain adequate and proper warnings and/or instructions regarding the increased risk of cancer, including, but not limited to, ovarian cancer, associated with the use of the Products by women to powder their perineal area. Defendants themselves failed to properly and adequately warn and instruct Ms. Batiste as to the risks and benefits of the Products given her need for this information.

41. Had Ms. Batiste received a warning that the use of the Products would significantly increase her risk of developing cancer, she would not have used them. As a proximate result of Defendants' design, manufacture, marketing, sale, and distribution

of the Products, Ms. Batiste was injured catastrophically, and was caused severe pain, suffering, disability, impairment, loss of enjoyment of life, loss of care, comfort, economic damages, and death.

42. The development of ovarian cancer by Ms. Batiste was the direct and proximate result of the unreasonably dangerous and defective condition of the Products at the time of sale and consumption, including their lack of warnings; Ms. Batiste suffered injuries and damages including, but not limited to, physical and mental pain and suffering, medical expenses, and death.

43. Defendants' products were defective because they failed to contain warnings and/or instructions, and breached express warranties and/or failed to conform to express factual representations upon which Ms. Batiste justifiably relied in electing to use the Products. The defect or defects made the Products unreasonably dangerous to persons, such as Ms. Batiste, who could reasonably be expected to use and rely upon such products. As a result, the defect or defects were a producing cause of Ms. Batiste's injuries and damages.

44. Defendants' products failed to contain, and continue to this day not to contain, adequate warnings and/or instructions regarding the increased risk of cancer, including, but not limited to, ovarian cancer, with the use of their products by women. Defendants continue to market, advertise, and expressly represent to the general public that it is safe for women to use their product regardless of application. These

Defendants continue with these marketing and advertising campaigns despite having scientific knowledge that dates back to the 1960's that their products increase the risk of ovarian cancer in women when used in the perineal area.

45. Ms. Batiste sustained the following damages as a foreseeable, direct, and proximate result of Defendants' acts and/or omissions:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future, and death.

COUNT TWO – STRICT LIABILITY
(DESIGN AND/OR MANUFACTURING DEFECT)

46. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

47. Defendants engaged in the design, development, manufacture, marketing, sale, and distribution of the Products in a defective and unreasonably dangerous condition to consumers, including Ms. Batiste.

48. Defendants caused the Products to enter the stream of commerce and to be sold through various retailers, where Ms. Batiste purchased the Products.

49. The Products were expected to, and did, reach consumers, including Ms. Batiste, without change in the condition in which it was manufactured and sold by

Defendants and/or otherwise released into the stream of commerce.

50. Ms. Batiste used the Products in a manner normally intended, recommended, promoted, and marketed by Defendants.

51. Products failed to perform safely when used by Ms. Batiste in a reasonably foreseeable manner, specifically increasing her of developing ovarian cancer.

52. The propensity of talc fibers to translocate into the female reproductive system, including, but not limited to, the ovaries, thereby substantially increasing the risk of cancer, including, but not limited to, ovarian cancer, renders the Products unreasonably dangerous when used in the manner it was intended and to an extent beyond that would be contemplated by the ordinary consumer.

53. Importantly, the Products are an inessential cosmetic product that do not treat or cure any serious disease. Further, safer alternatives, including corn-starch based powders, have been readily available for decades.

54. Defendants have known, or should have known, that the Products are unreasonably dangerous when used by a woman in her perineal area but have continued to design, manufacture, sell, distribute, market, promote, and supply the Products so as to maximize sales and profits at the expense of public health and safety in conscious disregard of the foreseeable harm to the consuming public, including Ms. Batiste.

55. As a direct and proximate result of Defendants' conduct, including actions, omissions, and misrepresentations, Ms. Batiste sustained the following damages:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future, and death.

COUNT THREE-NEGLIGENCE

56. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

57. The Johnson & Johnson Defendants were negligent in marketing, designing, manufacturing, producing, supplying, inspecting, testing, selling and/or distributing the Products in one or more of the following respects:

- In failing to warn Ms. Batiste of the hazards associated with the use of the Products;
- In failing to properly test their products to determine adequacy and effectiveness or safety measures, if any, prior to releasing the Products for consumer use;
- In failing to properly test their products to determine the increased risk of ovarian cancer during the normal and/or intended use of the Products;

- In failing to inform ultimate users, such as Ms. Batiste as to the safe and proper methods of handling and using the Products;
- In failing to remove the Products from the market when Defendants knew or should have known the Products were defective;
- In failing to instruct the ultimate users, such as Ms. Batiste, as to the methods for reducing the type of exposure to the Products which caused increased risk of cancer, including, but not limited to, ovarian cancer;
- In failing to inform the public in general and Ms. Batiste in particular of the known dangers of using the Products for dusting the perineum;
- In failing to advise users how to prevent or reduce exposure that caused increased risk for cancer, including, but not limited to, ovarian cancer;
- In marketing and labeling the Products as safe for all uses despite knowledge to the contrary.
- In failing to act like a reasonably prudent company under similar circumstances.

Each and all of these acts and omissions, taken singularly or in combination, were a proximate cause of the injuries and damages sustained by Ms. Batiste.

58. At all pertinent times, the Johnson & Johnson Defendants knew or should have known that the Products were unreasonably dangerous and defective when put to their reasonably anticipated use.

59. Ms. Batiste sustained the following damages as a foreseeable, direct, and proximate result of Defendants' acts and/or omissions:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, and loss of enjoyment and impairment of quality of life, past and future, and death.

COUNT FOUR- BREACH OF EXPRESS WARRANTY

60. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

61. The Johnson & Johnson Defendants expressly warranted, through direct-to-consumer marketing, advertisements, and labels, that the Products were safe and effective for reasonably anticipated uses, including use by women in the perineal area.

62. The Products did not conform to these express representations because they cause serious injury when used by women in the perineal area in the form of cancer, including, but not limited to, ovarian cancer.

63. Ms. Batiste sustained the following damages as a foreseeable, direct, and proximate result of Defendants' acts and/or omissions:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and

suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future, and death.

COUNT FIVE – BREACH OF IMPLIED WARRANTIES

64. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

65. At the time the Defendants manufactured, marketed, labeled, promoted, distributed and/or sold the Products, the Johnson & Johnson Defendants knew of the uses for which the Products were intended, including use by women in the perineal area, and impliedly warranted the Products to be of merchantable quality and safe for such use.

66. Defendants breached their implied warranties of the Products sold to Ms. Batiste because they were not fit for their common, ordinary and intended uses, including use by women in the perineal area.

67. Ms. Batiste sustained the following damages as a foreseeable, direct, and proximate result of Defendants' acts and/or omissions:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future, and death.

COUNT SIX – PUNITIVE DAMAGES

68. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

69. Defendants have acted willfully, wantonly, with an evil motive, and recklessly in one or more of the following ways:

- a. Defendants knew of the unreasonably high risk of cancer, including, but not limited to, ovarian cancer, posed by the Products before manufacturing, marketing, distributing and/or selling the Products, yet purposefully proceeded with such action;
- b. Despite their knowledge of the high risk of cancer, including, but not limited to, ovarian cancer, associated with the Products, Defendants affirmatively minimized this risk through marketing and promotional efforts and product labeling;
- c. Through the actions outlined above, Defendants expressed a reckless indifference to the safety of users of the Products, including Ms. Batiste. Defendants' conduct, as described herein, knowing the dangers and risks of the Products, yet concealing and/or omitting this information, in furtherance of their conspiracy and concerted action was outrageous because of Defendants' evil motive or a reckless indifference to the safety of users of the Products.

70. Ms. Batiste sustained the following damages as a foreseeable, direct, and proximate result of Defendants' acts and/or omissions:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future, and death.

COUNT SEVEN – NEGLIGENT MISREPRESENTATION

71. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

72. Defendants had a duty to accurately and truthfully represent to the medical and healthcare community, Ms. Batiste, and the public, that the Products had been tested and found to be safe and effective for use in the perineal area. The representations made by Defendants, in fact, were false.

73. Defendants failed to exercise ordinary care in the representations concerning the Products while they were involved in their manufacture, sale, testing, quality assurance, quality control, and distribution in interstate commerce, because Defendants negligently misrepresented the Products' high risk of unreasonable, dangerous, adverse side effects.

74. Defendants breached their duty in representing that the Products have no serious side effects.

75. As a foreseeable, direct and proximate result of the negligent misrepresentation of Defendants as set forth herein, Defendants knew, and had reason to know, that the Products had been insufficiently tested, or had not been tested at all, and that they lacked adequate and accurate warnings, and that it created a high risk, and/or higher than acceptable risk, and/or higher than reported and represented risk, of adverse side effects, including, but not limited to, ovarian cancer.

76. Ms. Batiste sustained the following damages as a foreseeable, direct, and proximate result of Defendants' acts and/or omissions:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future, and death.

COUNT EIGHT – FRAUDULENT CONCEALMENT

77. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

78. Defendants owed consumers, including Ms. Batiste, a duty to fully and accurately disclose all material facts regarding the Products, not to conceal material defects related thereto, not to place these defective products into the stream of commerce, and to fully and accurately label product packaging. To the contrary, Defendants explicitly and/or implicitly represented that the Products were safe and effective.

79. Defendants actively and intentionally concealed and/or suppressed material facts, in whole or in part, to induce consumers, including Ms. Batiste, to purchase and use the Products and did so at her expense. Specifically:

- a. Defendants have been aware of the positive association between feminine talc use and cancer demonstrated by epidemiology

studies since at least 1982 and more than a dozen such published studies, including meta- analyses, have been published demonstrating similar results;

- b. Defendants have been aware, for decades, of the propensity for talc particles to translocate from the perineum through the vaginal tract into the ovaries;
- c. IARC, the recognized world authority of agent carcinogenicity, has determined that there is a credible causal connection between feminine talc use and ovarian cancer; and
- d. Johnson & Johnson's own paid consultant, Dr. Alfred Wehner, advised the company on multiple occasions, by at least 1997, that Johnson & Johnson's denial of a positive association between feminine talc use and ovarian cancer was "technically and factually incorrect."

80. Defendants made the misrepresentations and/or omissions for the purpose of deceiving and defrauding Ms. Batiste and with the intention of having her act and rely on such misrepresentations and/or omissions.

81. Defendants knew that their concealments, misrepresentations and/or omissions were material, and that they were false, incomplete, misleading, deceptive, and deceitful when they were made. Alternatively, Defendants concealed information,

and/or made the representations with such reckless disregard for the truth that knowledge of the falsity can be imputed to them.

82. Defendants profited, significantly, from their unethical and illegal conduct that caused Ms. Batiste to purchase and habitually use a dangerous and defective product.

83. Defendants' actions, and Ms. Batiste's justifiable reliance thereon, were substantial contributing factors in causing injury and incurrence of substantial damages.

84. Ms. Batiste sustained the following damages as a foreseeable, direct, and proximate result of Defendants' acts and/or omissions:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future, death.

COUNT NINE – FRAUD
(INTENTIONAL MISREPRESENTATION)

85. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

86. Defendants, who engaged in the development, manufacture, marketing, sale and distribution of personal hygiene products, including the Products, owed a duty to provide accurate and complete information regarding said products.

87. Defendants fraudulently misrepresented the use of the Products as safe and effective, specifically:

- a. Johnson & Johnson's website calls it a "misconception" that talc in baby powder can be "absorbed into the body";
- b. Johnson & Johnson print advertisements directed at adult women asserted that, because Johnson & Johnson Baby Powder is used on babies, women can "trust" that Johnson & Johnson will take "just as much care" of their skin;
- c. Misleading consumers in advertisements that the talc in Johnson & Johnson Baby Powder is safe because it comes from "nature" and is "pure";
- d. Johnson & Johnson, on its website, claims that "30 years of research by independent scientists, review boards and global authorities [] have concluded that talc can be used safely in personal care products," failing to mention the dozens of studies demonstrating a relationship between feminine talc use and ovarian cancer, as well as the decision by IARC to label feminine

talc powder use as “possibly carcinogenic”; and

- e. On the Johnson & Johnson Baby Powder bottle, Defendants include a conspicuous warning to mothers to prevent babies from inhaling the powder and the inclusion of this lone warning implies to the consumer that Johnson & Johnson Baby Powder is safe in all other manners of use.

88. Defendants knew that these misrepresentations and/or omissions were material, and that they were false, incomplete, misleading, deceptive and deceitful when they were made.

89. Defendants made the misrepresentations and/or omissions for the purpose of deceiving and defrauding consumers, including Ms. Batiste, with the intention of having them act and rely on such misrepresentations and/or omissions.

90. Ms. Batiste relied, with reasonable justification, on the misrepresentations by Defendants, which induced her to purchase and use the Products on a regular basis for decades.

91. Defendants profited, significantly, from their unethical and illegal conduct that fraudulently induced Ms. Batiste, and millions of other consumers, to purchase a dangerous and defective product.

92. Defendants’ actions, and Ms. Batiste’s justifiable reliance thereon, were substantial contributing factors in causing injury and incurrence of substantial

damages.

93. As a foreseeable, direct, and proximate result of the aforementioned fraudulent misrepresentations by Defendants, Ms. Batiste sustained the following damages:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future, and death.

COUNT TEN – LOUISIANA PRODUCTS LIABILITY ACT (La. R.S. § 9:2800.51)

94. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

95. At all times material to this action, Defendants were engaged in the business of designing, developing, manufacturing, testing, packaging, promoting, marketing, distributing, labeling, and/or selling the Products.

96. At all times material to this action, the Products were expected to reach, and did reach, consumers in the State of Louisiana and throughout the United States, including Ms. Batiste without substantial change in the condition in which they were sold.

97. At all times material to this action, the Products were designed, developed, manufactured, tested, packaged, promoted, marketed, distributed, labeled,

and/or sold by Defendants in a defective and unreasonably dangerous condition at the time they were placed in the stream of commerce in ways which include, but are not limited to, one or more of the following particulars:

- a. When placed in the stream of commerce, the Products contained manufacturing/design defects which rendered the Products unreasonably dangerous;
- b. The Products' manufacturing/design defects occurred while the Products were in the possession and control of Defendants;
- c. The Products' manufacturing/design defects existed before they left the control of Defendants.

98. The Products manufactured and/or designed by Defendants were defective in construction or composition in that, when they left the hands of Defendants, they deviated in a material way from Defendants' manufacturing performance standards and/or it differed from otherwise identical products manufactured to the same design formula. In particular, the Products were not safe, have numerous and serious side effects and cause severe and permanent injuries. The Products are unreasonably dangerous in construction or composition as provided by La. R.S. 9:2800.55.

99. The Products manufactured and/or designed by Defendants were defective in design in that, an alternative design exists that would prevent serious side

effects and severe and permanent injury. For example, cornstarch is an organic carbohydrate that is quickly broken down by the body with no known health effects. Cornstarch-based powders have been sold and marketed for the same uses as the Products with nearly the same effectiveness. The Products are unreasonably dangerous in design as provided by La. R.S. 9:2800.56.

100. The Products manufactured and/or supplied by Defendants were unreasonably dangerous because Defendants did not provide an adequate warning about the Products. At the time the Products left Defendants' control, they possessed a characteristic that may cause damage, and Defendants failed to use reasonable care to provide an adequate warning of such characteristic and its danger to users and handlers of the product. The Products are not safe and have numerous and serious side effects including, but not limited to, causing ovarian cancer. The Products are unreasonably dangerous because of inadequate warning as provided by La. R.S. 9:2800.57.

101. The Products manufactured and/or designed by Defendants were unreasonably dangerous because they did not conform to an express warranty made by Defendants regarding the Products' safety and fitness for use. Defendants' express warranty regarding the Products induced Plaintiff to use the Products, and Plaintiff's damage was proximately caused because Defendants' express warranty was untrue.

The Products are unreasonably dangerous because of nonconformity to express warranty as provided by La. R.S. 9:2800:58.

102. Plaintiff sustained the following damages as a foreseeable, direct, and proximate result of Defendants' acts and/or omissions:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future.

**COUNT ELEVEN – VIOLATION OF LOUISIANA UNFAIR TRADE PRACTICES
AND CONSUMER PROTECTION LAW (La. R.S. § 51:1401 *et seq.*)**

103. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

104. Ms. Batiste purchased and used Defendants' Products primarily for personal use and thereby suffered ascertainable losses as a result of Defendants' actions in violation of the consumer protection laws.

105. Had Defendants not engaged in the deceptive conduct described herein, Ms. Batiste would not have purchased and/or paid for Defendants' product, and would not have incurred related injuries and damages.

106. Defendants engaged in wrongful conduct while at the same time obtaining, under false pretenses, monetary gain from Ms. Batiste for the Products that

would not have been paid had Defendants not engaged in unfair and deceptive conduct.

107. Defendants engaged in unfair methods of competition and deceptive acts or practices that were proscribed by law, including the following:

- a. Representing that goods or services have characteristics, ingredients, uses, benefits, or quantities that they do not have;
- b. Advertising goods or services with the intent not to sell them as advertised; and
- c. Engaging in fraudulent or deceptive conduct that creates a likelihood of confusion or misunderstanding.

108. Defendants intended for Ms. Batiste to rely on their representations and advertisements regarding the Products in order to achieve monetary gain from Ms. Batiste through her purchase of the Products.

109. Ms. Batiste was injured by the cumulative and indivisible nature of Defendants' conduct. The cumulative effect of Defendants' conduct directed at Ms. Batiste and other consumers was to create demand for and sell the Products. Each aspect of Defendants' conduct combined to artificially create sales of the product.

110. Defendants have a statutory duty to refrain from unfair or deceptive acts or trade practices in the design, labeling, development, manufacture, promotion, and sale of the Products.

111. Had Defendants not engaged in the deceptive conduct described above, Ms. Batiste would not have purchased and/or paid for the product, and would not have incurred related injuries and damages.

112. Defendants' intentional, deceptive, unconscionable, and fraudulent representations and material omissions to Ms. Batiste, physicians, and consumers, constituted unfair and deceptive acts and trade practices in violation of La. R.S. § 51:1401 *et seq.*

113. Defendants' actions, as complained of herein, constitute unfair competition or unfair, unconscionable, deceptive or fraudulent acts, or trade practices in violation of the Louisiana consumer protection statute.

114. Defendants have engaged in unfair competition or unfair or deceptive acts or trade practices, or have made false representations in violation of La. R.S. § 51:1401 *et seq.*

115. Under these statutes, Defendants are the suppliers, manufacturers, advertisers, and sellers, who are subject to liability under such legislation for unfair, deceptive, fraudulent and unconscionable consumer sales practices.

116. Defendants violated the statutes that were enacted in these states to protect consumers against unfair, deceptive, fraudulent and unconscionable trade and business practices and false advertising, by knowingly and falsely representing that Defendants' the Products were fit to be used for the purpose for which it was

intended, when in fact it was defective and dangerous, and by other acts alleged herein. These representations were made in marketing and promotional materials.

117. The actions and omissions of Defendants alleged herein are uncured or incurable deceptive acts under the statutes enacted in the states to protect consumers against unfair, deceptive, fraudulent and unconscionable trade and business practices and false advertising.

118. Defendants had actual knowledge of the defective and dangerous condition of Defendants' product and failed to take any action to cure such defective and dangerous conditions.

119. Ms. Batiste relied upon Defendants' misrepresentations and omissions in determining which product to use.

120. Defendants' deceptive, unconscionable or fraudulent representations and material omissions to Ms. Batiste and other consumers constituted deceptive acts and practices.

121. By reason of the unlawful acts engaged in by Defendants, and as a direct and proximate result thereof, Ms. Batiste, suffered ascertainable losses and damages.

122. As a direct and proximate result of Defendants' violations of the states' consumer protection laws, Ms. Batiste sustained the following damages:

- a. Economic losses including medical care and lost earnings; and
- b. Noneconomic losses including physical and mental pain and

suffering, emotional distress, inconvenience, loss of enjoyment and impairment of quality of life, past and future.

COUNT TWELVE –WRONGFUL DEATH ACTION (La. Civ. Code art. 2315.2)

123. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

124. As a direct and proximate result of the conduct of Defendants and the defective nature of the Products as described above, Ms. Batiste suffered bodily injuries resulting in pain and suffering, disability, disfigurement, mental anguish, loss of capacity of the enjoyment of life, shortened life expectancy, expenses for hospitalization, medical and nursing treatment, loss of earnings, loss of ability to earn, funeral expenses and death.

125. Plaintiff Kenneth J. Batiste brings this claim on his own behalf as the personal representative of the estate of Ms. Batiste pursuant to La. Civ. Code art. 2315.2

126. As a direct and proximate cause of the conduct of Defendants, Plaintiff Kenneth J. Batiste has incurred grief, sorrow, mental suffering, as well as hospital, nursing and medical expenses, funeral expenses, and estate administration expenses as a result of Ms. Batiste's death. Plaintiff brings this claim for these damages and for all pecuniary losses sustained.

COUNT THIRTEEN – SURVIVAL ACTION (La. Civ. Code art. 2315.1)

127. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

128. As a direct and proximate result of the aforementioned acts and omissions of Defendants and the defective nature of the Products, Ms. Batiste suffered serious injuries of a personal nature, including, but not limited to, great pain and suffering before her death, thereby subjecting Defendants to liability pursuant to La. Civ. Code art. 2315.1.

129. This claim is brought by Plaintiff Kenneth J. Batiste as the personal representative of the estate of Ms. Batiste.

TOLLING OF PRESCRIPTION

130. Plaintiff incorporates by reference each of the preceding paragraphs as if fully set forth herein.

131. Ms. Batiste suffered an illness that had a latency period and did not arise until many years after exposure. Ms. Batiste was not aware at the time of her diagnosis or death that her ovarian cancer and death were caused by her use of the Defendants' Products. Similarly, Plaintiff Kenneth J. Batiste was not aware at the time of Ms. Batiste's diagnosis or death that her ovarian cancer was caused by her use of the Defendants' Products. Consequently, the prescriptive period has been tolled until the day that Plaintiff knew or had reason to know that Ms. Batiste's ovarian cancer was linked to her use of Defendants' Products.

132. Furthermore, the running of any prescriptive period has been equitably tolled by reason of Defendants' fraudulent concealment and conduct. Through their affirmative misrepresentations and omissions, Defendants actively concealed from Plaintiff Kenneth J. Batiste and Ms. Batiste the true risks associated with the Products.

133. As a result of Defendants' actions, Ms. Batiste and her prescribing physicians were unaware, and could not reasonably know or have learned through reasonable diligence that she had been exposed to the risks alleged herein and that those risks were the direct and proximate result of Defendants' acts and omissions.

134. Furthermore, Defendants are estopped from relying on any prescriptive period because of their concealment of the truth, quality and nature of the Products. Defendants were under a duty to disclose the true character, quality and nature of the Products because this was non-public information over which the Defendants had and continue to have exclusive control, and because the Defendants knew that this information was not available to Ms. Batiste, her medical providers and/or her health facilities.

135. Defendants had the ability to and did spend enormous amounts of money in furtherance of their purpose of marketing and promoting a profitable product, notwithstanding the known or reasonably known risks. Ms. Batiste and medical professionals could not have afforded and could not have possibly conducted studies to

determine the nature, extent and identity of related health risks, and were forced to rely on Defendants' representations.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff demands judgment against Defendants on each of the above-referenced claims and causes of action, and as follows:

- a. Awarding compensatory damages in excess of \$75,000, including, but not limited to pain, suffering, emotional distress, loss of enjoyment of life, death and other non-economic damages in an amount to be determined at trial of this action;
- b. Awarding economic damages in the form of medical expenses, out of pocket expenses, lost earnings, funeral expenses, and other economic damages in an amount to be determined at trial of this action;
- c. Punitive and/or exemplary damages for the wanton, willful, fraudulent, reckless acts of the Defendants who demonstrated a complete disregard and reckless indifference for the safety and welfare of the general public and Ms. Batiste in an amount sufficient to punish Defendants and deter future similar conduct;
- d. Prejudgment interest;
- e. Postjudgment interest;
- f. Awarding Plaintiff's reasonable attorneys' fees;

- g. Awarding Plaintiff the costs of these proceedings; and
- h. Such other and further relief as this Court deems just and proper.

Dated: August 1, 2016

Respectfully submitted,

/s/Amanda K. Klevorn

INSTRUCTIONS FOR ATTORNEYS COMPLETING CIVIL COVER SHEET FORM JS 44

Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

- I.(a) Plaintiffs-Defendants.** Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.
- (b) County of Residence.** For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)
- (c) Attorneys.** Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".
- II. Jurisdiction.** The basis of jurisdiction is set forth under Rule 8(a), F.R.Cv.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.
 United States plaintiff. (1) Jurisdiction based on 28 U.S.C. 1345 and 1348. Suits by agencies and officers of the United States are included here. United States defendant. (2) When the plaintiff is suing the United States, its officers or agencies, place an "X" in this box.
 Federal question. (3) This refers to suits under 28 U.S.C. 1331, where jurisdiction arises under the Constitution of the United States, an amendment to the Constitution, an act of Congress or a treaty of the United States. In cases where the U.S. is a party, the U.S. plaintiff or defendant code takes precedence, and box 1 or 2 should be marked.
 Diversity of citizenship. (4) This refers to suits under 28 U.S.C. 1332, where parties are citizens of different states. When Box 4 is checked, the citizenship of the different parties must be checked. (See Section III below; **NOTE: federal question actions take precedence over diversity cases.**)
- III. Residence (citizenship) of Principal Parties.** This section of the JS 44 is to be completed if diversity of citizenship was indicated above. Mark this section for each principal party.
- IV. Nature of Suit.** Place an "X" in the appropriate box. If the nature of suit cannot be determined, be sure the cause of action, in Section VI below, is sufficient to enable the deputy clerk or the statistical clerk(s) in the Administrative Office to determine the nature of suit. If the cause fits more than one nature of suit, select the most definitive.
- V. Origin.** Place an "X" in one of the seven boxes.
 Original Proceedings. (1) Cases which originate in the United States district courts.
 Removed from State Court. (2) Proceedings initiated in state courts may be removed to the district courts under Title 28 U.S.C., Section 1441. When the petition for removal is granted, check this box.
 Remanded from Appellate Court. (3) Check this box for cases remanded to the district court for further action. Use the date of remand as the filing date.
 Reinstated or Reopened. (4) Check this box for cases reinstated or reopened in the district court. Use the reopening date as the filing date.
 Transferred from Another District. (5) For cases transferred under Title 28 U.S.C. Section 1404(a). Do not use this for within district transfers or multidistrict litigation transfers.
 Multidistrict Litigation – Transfer. (6) Check this box when a multidistrict case is transferred into the district under authority of Title 28 U.S.C. Section 1407.
 Multidistrict Litigation – Direct File. (8) Check this box when a multidistrict case is filed in the same district as the Master MDL docket.
PLEASE NOTE THAT THERE IS NOT AN ORIGIN CODE 7. Origin Code 7 was used for historical records and is no longer relevant due to changes in statute.
- VI. Cause of Action.** Report the civil statute directly related to the cause of action and give a brief description of the cause. **Do not cite jurisdictional statutes unless diversity.** Example: U.S. Civil Statute: 47 USC 553 Brief Description: Unauthorized reception of cable service
- VII. Requested in Complaint.** Class Action. Place an "X" in this box if you are filing a class action under Rule 23, F.R.Cv.P.
 Demand. In this space enter the actual dollar amount being demanded or indicate other demand, such as a preliminary injunction.
 Jury Demand. Check the appropriate box to indicate whether or not a jury is being demanded.
- VIII. Related Cases.** This section of the JS 44 is used to reference related pending cases, if any. If there are related pending cases, insert the docket numbers and the corresponding judge names for such cases.

Date and Attorney Signature. Date and sign the civil cover sheet.

AO 440 (Rev. 06/12) Summons in a Civil Action

UNITED STATES DISTRICT COURT

for the

Western District of Louisiana

Kenneth J. Batiste, Individually and as Personal Representative of the Estate of Deiadria Ann Batiste, Deceased.

Plaintiff(s)

v.

Johnson & Johnson, Johnson & Johnson Consumer Companies, Inc.

Defendant(s)

Civil Action No.

SUMMONS IN A CIVIL ACTION

To: (Defendant's name and address) Johnson & Johnson One Johnson & Johnson Plaza New Brunswick, NJ 08901-1241

A lawsuit has been filed against you.

Within 21 days after service of this summons on you (not counting the day you received it) — or 60 days if you are the United States or a United States agency, or an officer or employee of the United States described in Fed. R. Civ. P. 12 (a)(2) or (3) — you must serve on the plaintiff an answer to the attached complaint or a motion under Rule 12 of the Federal Rules of Civil Procedure. The answer or motion must be served on the plaintiff or plaintiff's attorney, whose name and address are:

Amanda K. Klevorn Burns Charest LLP 365 Canal Street, Suite 1170 New Orleans, LA 70130

If you fail to respond, judgment by default will be entered against you for the relief demanded in the complaint. You also must file your answer or motion with the court.
