

**IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF TEXAS
SHERMAN DIVISION**

CHONG EUN, STEPHANIE OWENS,
DAVID SIEGAL, GREGORY VASQUEZ,
MADELINE VASQUEZ, ENRIQUE
PABON, BRYAN FEINBERG, and LOIS
FELTS, on behalf of themselves and all others
similarly situated,

Plaintiffs,

v.

TOYOTA MOTOR CORPORATION;
TOYOTA MOTOR SALES, U.S.A., INC.;
and Does 1 through 50, inclusive,

Defendants.

Case No.:

CLASS ACTION COMPLAINT

DEMAND FOR JURY TRIAL

CLASS ACTION COMPLAINT

Plaintiffs Chong Eun, Stephanie Owens, Enrique Pabon, Bryan Feinberg, David Siegal, Gregory Vasquez, Madeline Vasquez, and Lois Felts (collectively, “Plaintiffs”), individuals, on behalf of themselves and a class of other similarly situated individuals, complain of and allege the following causes of action against Defendants Toyota Motor Corporation and Toyota Motor Sales, U.S.A., Inc., and Does 1 through 50, inclusive, as follows:

I. INTRODUCTION

1. This Complaint seeks damages against Defendants for breach of the manufacturer’s warranty and for unfair or deceptive acts or practices pertaining to their design and manufacture of 2010-2015 Prius and Prius PHV, 2012-2015 Prius V, 2012-2014 Camry Hybrid, and 2013-2015 Avalon Hybrid vehicles (the “Class Vehicles”).

2. Plaintiffs are informed and believe, and thereon allege, that Toyota and Does 1 through 50, manufacture and sell the Class Vehicles throughout the United States, including within the State of Texas.

3. The Class Vehicles contain a significant design and/or manufacturing defect in their braking systems (the “Toyota Brake Defect”). Plaintiffs are informed and believe, and thereon allege, that Defendants defectively designed and/or manufactured defective brake booster pump assemblies in the Class Vehicles, which cause their braking systems to fail. Plaintiffs are informed and believe, and thereon allege, that the Toyota Brake Defect directly affects Plaintiffs’ use, enjoyment, safety, and value of the Class Vehicles.

4. Indeed, this material and dangerous defect has been brought to light by no less than Mr. Roger Hogan, the owner and president of two Toyota dealerships located in Southern California. Like Defendants, Mr. Hogan is familiar with the Toyota Brake Defect and he has recently petitioned the National Highway Traffic Safety Administration (NHTSA) to open an investigation into Defendants’ failure to adequately address the Toyota Brake Defect. In that petition, Mr. Hogan states that the Toyota Brake Defect is “causing crashes that are injuring people—and Toyota is mishandling it.”

5. The Toyota Brake Defect poses an obvious and material safety risk to the operator and passengers of all Class Vehicles. The dangers of a defective brake system are manifest, including increased risk of injury or death. As discussed further herein, numerous owners and lessees of the Class Vehicles have experienced the Toyota Brake Defect already, and Defendants are gambling with the lives and safety of hundreds of thousands of additional drivers and passengers whose brakes are defective, and for whom their failure is only a matter of time.

6. For years, Defendants concealed the Toyota Brake Defect from owners and lessees of the Class Vehicles, withholding its knowledge because once known to those owners, the Toyota Brake Defect would diminish the Class Vehicles' intrinsic and resale value and cause Toyota automobile owners to demand immediate and costly repairs.

7. After several years of dodging, Defendants finally acquiesced to extend their warranties only to those vehicles where the Toyota Brake Defect became manifest by way of certain "diagnostic trouble codes" (or DTCs) registered by certain vehicles. But Defendants are aware that all of the Class Vehicles have been and are subject to the Toyota Brake Defect, and further knows that the defect will cause a material percentage of brake systems to fail. But as Mr. Hogan stated in his NHTSA petition, "Toyota is leaving the owners to helplessly experience the life-threatening brake failure or malfunction before Toyota will provide the replacement brake components needed to make the vehicle safe."

8. In other words, Defendants have determined that instead of proactively recalling and replacing the defective brake parts, it will gamble its drivers' lives and only fix vehicles that have already failed. This sort of risk may satisfy Defendants' accountants, but Defendants simply cannot ignore hundreds of thousands of vehicles still on the road with a known defect in their brake systems, any of which could fail at any moment with calamitous result.

9. The Toyota Brake Defect not only threatens every passenger in a Class Vehicle, it materially undermines the Class Vehicles' intrinsic value as well. Plaintiffs and other Toyota automobile owners would have been less likely to purchase their vehicles had they known about the Toyota Brake Defect prior to their purchases, or they would have paid substantially less for them.

10. Because of Defendants' unfair, deceptive, and/or fraudulent business practices, owners and/or lessees of the Class Vehicles, including Plaintiff, have suffered an ascertainable loss of money and/or property and/or loss in value. Defendants further conducted the unfair and deceptive trade practices described herein in a manner giving rise to substantial aggravating circumstances.

11. As a result of the Toyota Brake Defect, Plaintiffs and the Class Members have suffered injury in fact, incurred damages, and have otherwise been harmed by Defendants' conduct.

12. Accordingly, Plaintiffs bring this action to redress Defendants' violations of the consumer protection statutes, and also seek recovery for Defendants' breaches of express warranty, breaches of implied warranty, breaches of their duty of good faith and fair dealing, and their fraudulent concealment of the Toyota Brake Defect.

II. JURISDICTION AND VENUE

13. This Court has subject matter jurisdiction of this action pursuant to 28 U.S.C. § 1332 of the Class Action Fairness Act of 2005 because: (i) there are 100 or more Class members, (ii) there is an aggregate amount in controversy exceeding \$5,000,000, exclusive of interest and costs, and (iii) there is minimal diversity because at least one member of the class of plaintiffs and one defendant are citizens of different States. This Court has supplemental jurisdiction over the alleged state law claims pursuant to 28 U.S.C. § 1367.

14. This Court has specific personal jurisdiction over Defendants because Defendants have their United States headquarters in this District. Defendants also conduct business in Texas, have purposefully availed themselves of the benefits and protections of Texas by continuously and systematically conducting substantial business in this judicial district, directing

advertising and marketing materials to districts within Texas, and intentionally and purposefully placing Class Vehicles into the stream of commerce within the districts of Texas and throughout the United States with the expectation and intent that consumers would purchase them.

Thousands of Class Vehicles have been sold in Texas and are operated within the State and this judicial district.

15. Venue is proper in this judicial district pursuant to 28 U.S.C. § 1391 because Defendants have their United States headquarters in this district, transact business in this district, is subject to personal jurisdiction in this district, and therefore are deemed to be citizens of this district. Additionally, there are one or more authorized Toyota dealers within this district, Defendants have advertised in this district, and Defendants have received substantial revenue and profits from their sales and/or leasing of Class Vehicles in this district; therefore, a substantial and material part of the events and/or omissions giving rise to the claims occurred within this district.

III. PARTIES

A. Plaintiffs

1. California

a. Plaintiff Chong Eun

16. Plaintiff Chong Eun is a resident of Huntington Beach, California.

17. Plaintiff Eun owns a 2013 Toyota Prius (for purposes of this section, “the Vehicle”), which based on information and belief, was purchased from Toyota of Huntington Beach.

18. Plaintiff Eun uses the Vehicle for personal, family, and/or household uses.

19. Prior to purchasing the Vehicle, Plaintiff Eun reviewed the sticker Toyota placed on the window. The window sticker advertised the Vehicle's various features (such as the price, specifications, gas mileage, equipment and warranty details and crash test ratings) and Plaintiff Eun relied on the advertisements contained within the window sticker when deciding to purchase the Vehicle. The window sticker did not disclose that the Vehicle possessed any defects.

20. Neither Toyota, nor any of its agents, dealers, or other representatives informed Plaintiff Owens of the Toyota Brake Defect's existence prior to, or any time after, her purchase.

21. Plaintiff Eun has experienced the Toyota Brake Defect on numerous occasions since owning the Vehicle, one of which resulted in collision with another vehicle.

22. In 2016, Plaintiff Eun was driving the Vehicle at a low rate of speed nearby his residence when the brakes failed to engage, causing him to rear-end the vehicle stopped ahead. Following the incident, Plaintiff Eun complained to his local Toyota dealership about the brake defect, citing concerns over the decreased stopping distance of the Vehicle. The technicians at the dealership dismissed Plaintiff Eun's concerns and told him that nothing was wrong with the Vehicle's brakes. Since that time, Plaintiff Eun has driven the Vehicle minimally due to his fear that the brakes will malfunction and cause another accident.

23. In 2019, Plaintiff Eun received a received a "bulletin letter," confirming his previous concerns about the Vehicle's brakes. He contacted his local dealership to inquire further about the letter. At that time, the Toyota dealership informed Plaintiff Eun that his vehicle was ineligible for replacement of the brake booster pump and brake booster assembly under the Customer Support Program.

24. Plaintiff Eun has suffered an ascertainable loss as a result of Toyota's omissions and/or misrepresentations associated with the Toyota Brake Defect, including, but not limited to, out-of-pocket losses, diminished value to the Vehicle, and other consequential damages.

2. Colorado

a. Plaintiff Stephanie Owens

25. Plaintiff Stephanie Owens is a resident of Wheat Ridge, Colorado.

26. Plaintiff Owens owns a 2013 Toyota Prius (for purposes of this section, "the Vehicle"), which was purchased from Stevinson Toyota East in Aurora, Colorado on or around April 2015.

27. Plaintiff Owens uses the Vehicle for personal, family, and/or household uses.

28. Prior to purchasing the Vehicle, Plaintiff Owens reviewed the sticker Toyota placed on the window. The window sticker advertised the Vehicle's various features and Plaintiff Owens relied on the representations contained therein when deciding to purchase the Vehicle. Neither the window sticker nor any other representations regarding the Vehicle disclosed that it possessed any defects.

29. Neither Defendant, nor any of their agents, dealers, or other representatives informed Plaintiff Owens of the Toyota Brake Defect's existence prior to her purchase.

30. Since 2018, Plaintiff Owens has experienced the effects of the Toyota Brake Defect on numerous occasions since owning the Vehicle. On at least four occasions, the Toyota Brake Defect resulted in loss of braking power – with the brake pressing completely to the floor – and sudden loss of vehicle control. And on at least

31. In August 2019, Plaintiff Owens received a received a "bulletin letter" making her aware of a potential problem with the brakes, whereupon she contacted Toyota's customer

support line to inquire further about the letter and complain about her experiences with the Vehicle's brakes. At that time, Toyota's representatives asked Plaintiff Owens to contact her local Toyota dealership about the bulletin letter and the brake problems she was experiencing.

32. Soon thereafter, Plaintiff Owens presented the Vehicle to her local Toyota dealership—Mountain States Toyota in Twin Lakes, Colorado—for diagnostic testing. After performing the diagnostic tests, the dealership technicians told Plaintiff Owens that she was ineligible for the replacement of the brake booster assembly and the brake booster pump assembly. At that time, Plaintiff Owens expressed specific safety concerns regarding the performance of the brakes and requested repair recommendations, even if they were not covered under existing Toyota extended warranty programs. However, the dealership technicians stated they would need to duplicate the condition during a test drive or detect specific diagnostic trouble codes in order to recommend and perform any repairs.

33. After continuing to experience the performance in the following months, Plaintiff Owens presented the Vehicle to a different local Toyota dealership – Stevinson Toyota East in Lakewood, Colorado – for inspections related to overall brake system function and performance as well as specific diagnostic testing pursuant to the Customer Support Program. After performing diagnostic and field tests on the Vehicle, the dealership technicians told Plaintiff Owens that she was ineligible for the replacement of the brake booster assembly and the brake booster pump assembly.

34. Plaintiff Owens returned to Mountain States Toyota in Twin Lakes, Colorado and requested that the repairs described by the Customer Support Program be made to the Vehicle, despite having to pay out of pocket for them. According to the Mountain States Toyota: Those

repairs would cost an approximately \$3,100 and could not be completed until the parts became available due to being on national backorder.

35. Plaintiff Owens has suffered an ascertainable loss as a result of Toyota's omissions and/or misrepresentations associated with the Toyota Brake Defect, including, but not limited to, out-of-pocket losses, diminished value to the Vehicle, and other consequential damages.

3. Florida

a. Plaintiff David Siegal

36. Plaintiff David Siegal is a resident of Lake Worth, Florida.

37. Plaintiff Siegal owns a 2012 Toyota Prius ("the Vehicle") which was purchased used from a Florida Mercedes-Benz dealership in or around 2014.

38. Since owning the Vehicle, Plaintiff Siegal has experienced the Toyota Brake Defect on several occasions.

39. In January 2020, Plaintiff Siegal learned through a third-party internet source of Defendants' "Customer Support Program," under which Defendants were replacing the brake booster assembly and brake booster pump assembly on certain 2010-2015 Prius vehicles.

40. Plaintiff Siegal did not receive a "bulletin letter" informing owners of the Customer Support Program.

41. Plaintiff Siegal is fearful that the Toyota Brake Defect will at some point result in injuries and/or fatalities to himself and/or others.

42. Plaintiff Siegal has suffered an ascertainable loss as a result of Defendants' omissions and/or misrepresentations associated with the Toyota Brake Defect, including, but not

limited to, out-of-pocket losses, diminished value to the Vehicle, and other consequential damages.

b. Plaintiffs Gregory and Madeline Vasquez

43. Plaintiffs Madeline and Gregory Vasquez are residents of Winston Salem, North Carolina.

44. The Vasquez Plaintiffs co-own a 2011 Toyota Prius (for purposes of this section, “the Vehicle”) purchased new from an authorized Toyota dealership in, or around, Sunrise, Florida.

45. The Vasquez Plaintiffs use the Vehicle for personal, family, and/or household uses.

46. Prior to purchasing the Vehicle, the Vasquez Plaintiffs reviewed the sticker Toyota placed on the window. The window sticker advertised the Vehicle’s various features (such as the price, specifications, gas mileage, equipment and warranty details and crash test ratings) and the Vasquez Plaintiffs relied on the advertisements contained within the window sticker when deciding to purchase the Vehicle. The window sticker did not disclose that the Vehicle possessed any defects.

47. Neither Defendant, nor any of their agents, dealers, or other representatives informed the Vasquez Plaintiffs of the Toyota Brake Defect’s existence prior to, or any time after, their purchase.

48. In March 2019, the Vasquez Plaintiffs noticed an abnormal sound resonating from the Vehicle’s brakes. During this time, the Vasquez Plaintiffs also noticed that the Vehicle’s brakes felt “spongy”—requiring an unusual amount of force before they fully engaged. These problems became progressively worse over the course of the next eight to nine months.

49. In or around January 2020, the Vasquez Plaintiffs presented the Vehicle to Modern Toyota, located in Winston-Salem, North Carolina for routine maintenance. According to the technicians at the dealership, the issue stemmed from the brake module, which they replaced at that time.

50. Within weeks of presenting the Vehicle to Modern Toyota, the Vehicle's ABS warning light illuminated. The ABS light remained on until the brake pedal was pressed completely to the floor.

51. The Vasquez Plaintiffs presented the Vehicle again to Modern Toyota for inspection and repair. Technicians diagnosed the issue as a failure of the Vehicle's brake booster pump and brake booster pump assembly. Modern Toyota replaced these parts without cost to the Vasquez Plaintiffs, but failed to disclose the Toyota Brake Defect.

52. The Vasquez Plaintiffs learned through a third-party internet source of Toyota's "Customer Support Program," under which Toyota was replacing the brake booster assembly and brake booster pump assembly on certain 2010-2015 Toyota Prius vehicles.

53. The Vasquez Plaintiffs never received a "bulletin letter" informing owners of the Customer Support Program.

54. Had the Vasquez Plaintiffs known of the Toyota Brake Defect at the time they purchased the Vehicle, they would have not purchased it or would have paid substantially less for it.

55. The Vasquez Plaintiffs have suffered an ascertainable loss as a result of Toyota's omissions and/or misrepresentations associated with the Toyota Brake Defect, including, but not limited to, out-of-pocket losses, diminished value to the Vehicle, and other consequential damages.

4. New Jersey

a. Plaintiff Enrique Pabon

56. Plaintiff Enrique Pabon is a resident of Nanuet, New York.

57. Plaintiff Pabon owns a 2013 Avalon Hybrid, which he purchased new from Prestige Toyota in Ramsey, New Jersey.

58. Plaintiff Pabon has experienced the Toyota Brake Defect on several occasions since owning the Vehicle.

59. Prior to purchasing the Vehicle, Plaintiff Pabon reviewed the sticker Defendants placed on the window. The window sticker advertised the Vehicle's various features (such as the price, specifications, gas mileage, equipment and warranty details and crash test ratings) and Plaintiff Pabon relied on the advertisements contained within the window sticker when deciding to purchase the Vehicle. The window sticker did not disclose that the Vehicle possessed any defects.

60. Neither Defendant, nor any of their agents, dealers, or other representatives, informed Plaintiff Pabon of the Toyota Brake Defect's existence prior to his purchase.

61. Plaintiff Pabon learned of Defendants' "Customer Support Program" through Car-Fax's email notification, whereby he learned that Defendants were replacing the brake booster assembly and brake booster pump assembly on certain 2013-2015 Toyota Avalon Hybrid vehicles.

62. Plaintiff Pabon has taken the Vehicle to his local Toyota dealership numerous times for regular maintenance but has never been told that the Vehicle's brake booster assembly and brake pump were defective and/or eligible for replacement under the Customer Support Program.

63. Plaintiff Pabon did not receive a “bulletin letter” informing owners of the Customer Support Program.

64. Plaintiff Pabon has suffered an ascertainable loss as a result of Toyota’s omissions and/or misrepresentations associated with the Toyota Brake Defect, including, but not limited to, out-of-pocket losses, diminished value to the Vehicle, and other consequential damages.

b. Plaintiff Bryan Feinberg

65. Plaintiff Bryan Feinberg is a resident of Egg Harbor Township, New Jersey.

66. Plaintiff Feinberg owns a 2015 Toyota Avalon Hybrid (for purposes of this section “the Vehicle”), which he purchased new from Shore Toyota in Hamilton, New Jersey.

67. Prior to purchasing the Vehicle, Plaintiff Feinberg saw the sticker Toyota placed on the window. The window sticker advertised the Vehicle’s various features (such as the price, specifications, gas mileage, equipment, warranty details, and crash test ratings) and Plaintiff Feinberg relied on the advertisements contained within the window sticker when deciding to purchase the Vehicle. The window sticker did not disclose that the Vehicle possessed any defects.

68. Neither Defendant, nor any of their agents, dealers, or other representatives has given Plaintiff Feinberg any information about the Toyota Brake Defect’s existence prior to, or any time after, his purchase.

69. Plaintiff Feinberg has yet to experience the Toyota Brake Defect but is concerned about sudden brake loss after reading several online reports about the defect. Plaintiff Feinberg is fearful about continuing to drive the Vehicle without a replacement of its defective brake assembly and brake booster pump.

70. Plaintiff Feinberg has asked his local Toyota dealership about the Toyota Brake Defect on several occasions, but it has failed to provide any explanation, much less a remedy that alleviates his concerns about the Toyota Brake Defect.

71. Plaintiff Feinberg never received a “bulletin letter” informing owners of the Customer Support Program.

72. Plaintiff Feinberg has suffered an ascertainable loss as a result of Toyota’s omissions and/or misrepresentations associated with the Toyota Brake Defect, including but not limited to, out-of-pocket losses, diminished value of the Vehicle, and consequential damages.

5. North Carolina

a. Plaintiff Lois Felts

73. Plaintiff Lois Felts is a resident of Mocksville, North Carolina.

74. Plaintiff Felts owns a 2013 Toyota Camry Hybrid (for the purposes of this section “the Vehicle”) which she purchased new within the State of North Carolina.

75. Plaintiff Felts uses the Vehicle for personal, family, and/or household services.

76. Prior to purchasing the Vehicle, Plaintiff Felts saw the sticker Toyota placed on the window. The window sticker advertised the Vehicle’s various features (such as the price, specifications, gas mileage, equipment, warranty details , and crash test ratings) and Plaintiff Felts relied on the advertisements contained within the window sticker when deciding to purchase the Vehicle. The window sticker did not disclose that the Vehicle possessed any defects.

77. Neither Defendant, nor any of their agents, dealers, or other representatives has given Plaintiff Felts any information about the Toyota Brake Defect’s existence prior to, or any time after, her purchase.

78. On December 21, 2019, Plaintiff Felts was involved in a single vehicle auto-collision resulting from the Toyota Brake Defect. While driving at a low rate of speed, Plaintiff Felts attempted to engage the brakes, but this failed to stop the Vehicle. As a result, the Vehicle continued across a three-lane highway and crashed into a curb. Because of damage to the undercarriage, Plaintiff Felts's insurance carrier calculated a total loss of the Vehicle's value.

79. In January 2020, Plaintiff Felts learned through a third-party internet source of Toyota's "Customer Support Program," pursuant to which Toyota was replacing the brake booster assembly and brake booster pump assembly on certain 2012-2014 Camry Hybrid vehicles.

80. Plaintiff Felts never received a "bulletin letter" informing her of the Customer Support Program.

81. Plaintiff Felts has suffered an ascertainable loss as a result of Toyota's omissions and/or misrepresentations associated with the Toyota Brake Defect, including but not limited to, out-of-pocket losses, diminished value of the Vehicle, and consequential damages.

B. Defendants

1. Toyota Motor Corporation

82. Defendant Toyota Motor Corporation ("TMC") is a Japanese corporation with its principal place of business located at 1 Toyota-Cho, Toyota City, Aichi Prefecture, 471-8571, Japan. TMC is the parent corporation of Toyota Motor Sales, U.S.A., Inc. TMC, through its various entities, designs, manufactures, markets, distributes and sells Toyota, Lexus and Scion automobiles in California and multiple other locations in the United States and worldwide.

2. Toyota Motor Sales, U.S.A., Inc.

83. Defendant Toyota Motor Sales, U.S.A., Inc. (“TMS”) is incorporated and headquartered in Plano, Texas. TMS is TMC’s U.S. sales and marketing arm, which oversees sales and other operations in 49 states. TMS distributes Toyota, Lexus, and Scion vehicles in the United States and sells these vehicles through its network of dealers. Money received from the purchase of a Toyota vehicle from a dealer flows from the dealer to TMS. Money received by the dealer from a purchaser can be traced to TMS and TMC.

84. At all times herein mentioned, Defendants designed, engineered, developed, manufactured, fabricated, assembled, equipped, tested or failed to test, inspected or failed to inspect, repaired, retrofitted or failed to retrofit, failed to recall, labeled, advertised, promoted, marketed, supplied, distributed, wholesaled, and/or sold Toyota vehicles, including the vehicles operated by Plaintiffs.

85. TMS and TMC sell Toyota vehicles through a network of dealers who are agents of TMS and TMC.

86. TMS and TMC are collectively referred to in this complaint as “Toyota” or the “Defendants,” unless separately identified as TMS or TMC.

87. Toyota manufactured, sold, and warranted the Class Vehicles throughout the United States. Toyota and/or its agents, divisions, or subsidiaries designed, manufactured, and installed the defective braking system on the Class Vehicles.

88. The true names and capacities of the Defendants sued herein as DOES 1 through 50, inclusive, are currently unknown to Plaintiffs, who therefore sues such Defendants by such fictitious names. Each Defendant designated herein as a DOE is legally responsible in some manner for the unlawful acts referred to herein. Plaintiffs will seek leave of Court to amend this

Complaint to reflect the true names and capacities of any Defendants designated herein as DOES when such identities become known.

89. Based upon information and belief, Plaintiffs allege that at all times mentioned herein, each and every Defendant was acting as an agent and/or employee of each of the other Defendants, and at all times mentioned was acting within the course and scope of said agency and/or employment with the full knowledge, permission, and consent of each of the other Defendants. In addition, each of the acts and/or omissions of each Defendant alleged herein were made known to, and ratified by, each of the other Defendant.

IV. FACTUAL ALLEGATIONS

A. The Class Vehicles Suffer from a Dangerous Brake Defect

90. The Class Vehicles suffer from the Toyota Brake Defect, which is a significant and material brake defect capable of leading to complete failure of the Class Vehicles' braking systems. The Toyota Brake Defect materially threatens the health and safety of drivers and passengers who ride in the Class Vehicles.

91. Plaintiffs and numerous Class Vehicle owners and lessees have reported that the Toyota Brake Defect causes brake failures, effectively making their brakes inoperative under normal driving conditions.

92. Mr. Hogan explains the history of the Toyota Brake Defect, and how Toyota has put profits in front of public safety. In June 2013, Toyota undertook a "voluntary safety recall" to "address an issue with the brake booster pump assembly"—Toyota Safety Recall 13V-235. In the Defect Information Report that Toyota sent to the NHTSA, Toyota described the problem as one caused by "brake pressure accumulators consisting of a metal plunger containing brake fluid encased in a metal housing." Toyota explained that the "plunger is designed with metal pleated

bellows to allow for motion,” and that “nitrogen gas is sealed between the plunger and the housing.” The recall was issued because Toyota recognized the “possibility that a fatigue crack could develop in the bellows due to the vertical vibration of the plunger while driving.”

Toyota’s concern was that if this occurred, “nitrogen gas could lead into the brake fluid and gradually cause the brake pedal stroke to become longer, resulting in decreased hydraulic pressure.” The condition “could affect stopping distance and increase the risk of a crash.”

93. Toyota investigated this potential flaw from May 2010-October 2011, a period of nearly 18 months. Toyota determined that one potential cause of the cracking was that “location of the weld points . . . could create a tendency for cracks to develop near the weld points.”

Toyota did additional testing and ruled out that explanation, but determined that “some accumulators experienced larger impact forces despite the same test conditions.” What Toyota found was “variation in the amount of clearance between the metal housing and the bellows.”

Toyota confirmed that the amount of clearance was related to the variation in impact force being exerted onto the bellows. After additional testing, Toyota determined that “if the amount of clearance is large, large impact forces may be exerted onto the metal bellows, which could result in gradual damage to the bellows.”

94. While Toyota voluntarily undertook to recall vehicles with this problem, the recall was carefully limited only to certain 2010 Toyota Prius and Lexus HS250h vehicles. Toyota has not recalled any of the Class Vehicles. Instead, on September 4, 2019, Toyota issued Technical Service Bulletin (TSB) 0130-19 for 2012-2014 Camry Hybrids and 2013-2015 Avalon Hybrids. TSB 0130-19 states that the covered condition “may be caused by a small internal brake fluid leak in the brake booster assembly with master cylinder,” similar to the circumstances that triggered Toyota’s 2013 recall. This brake fluid leak results in certain DTCs that, when

triggered, Toyota will cover the cost of repair under an extended warranty program. A week after Toyota issued TSB 0130-19, Toyota explained that there had been “certain internal malfunctions of the Brake Booster Assembly” in 2012-2014 Camry hybrids and 2013-2015 Avalon hybrids.

95. Just recently, Toyota commenced another safety recall in July 2019 for certain Lexus vehicles with brake problems. In its report to the NHTSA on the recall, Toyota explained that a certain number of Lexus vehicles “had a brake booster pump containing a plastic brush holder produced with an improper shape.” Because of the brush holder’s improper shape, there was a “possibility that the plastic brush holder may have become stuck in the brush holder.” Should that occur, Toyota explained that “the brush would be unable to maintain an electrical connection within the motor and may cause the pump motor to stop operating.” And if that happened, Toyota explained, the result could be a “sudden and complete loss of braking assist,” increasing stopping distance and, ultimately, the risk of a crash. Toyota deemed this risk sufficient to engage in a prophylactic safety recall of these vehicles so as to avoid any such potential tragedy.

96. These recalls involved a relatively small number of vehicles, but the Toyota Brake Defect alleged herein affects hundreds of thousands of vehicles, and thus Toyota seeks to avoid the responsibility and expense of making these vehicles sound to drive. But there is very little, if any, difference between the circumstances of the Toyota Brake Defect and the defects that led to both of Toyota’s earlier brake system-related safety recalls. The primary distinguishing characteristic is the scope of the problem: It will be very expensive for Toyota to repair the defect in hundreds of thousands of vehicles.

97. Indeed, Mr. Hogan reports that the DTCs covered by Toyota's post-failure warranty enhancement plan for the Toyota Brake Defect are the same as those codes which present an unreasonable risk to safety under Toyota's earlier recalls. In particular, DTC C1256 is triggered when there is a "significant drop in accumulator pressure." This DTC is being stored at "alarmingly high rates in hybrids" that remain excluded from Toyota's safety recalls. Toyota knows that these defects implicate basic safety features of the vehicle, and that the defect puts lives at risk. Nevertheless, Toyota refuses to repair these defects until *after* a failure occurs, instead requiring unsuspecting consumers to bear this risk.

B. Toyota's Knowledge of the Toyota Brake Defect's Safety Implications

98. An important source of field data is the NHTSA's Consumer Complaint Database. This publicly available database contains all motor vehicle-related consumer complaints submitted to NHTSA since January 2000. Consumers submit what is called a "Vehicle Owner Questionnaire" in which they asked to provide information that includes, the make, model, and model year of the vehicle, the approximate incident date, the mileage at which the incident occurred, whether the incident involved a crash or a fire, whether any persons were injured or killed in the incident, the speed of the vehicle at the time of the incident, and a description of the incident along with a description of the vehicle components they believe were involved in the incident. The majority of consumer complaints are submitted online at www.safercar.gov where consumers can input this information directly into the database through their computer. They can also submit complaints by telephone through the Auto Safety Hotline, through submitting a paper Vehicle Owner Questionnaire form, and by mailing consumer letters to NHTSA. This information is then entered into NHTSA's ARTEMIS database where it can be searched and

reviewed by the general public and vehicle manufacturers alike, by make, model, model year, and component. NHTSA promotes this database as a valuable consumer information tool.

99. Excluding the Model Year 2010 Prius vehicles that were the subject of Toyota’s previous voluntary safety recall—there were a staggering 832 complaints in the category of “Service Brakes, Hydraulic” and 315 complaints in the category of “Service Brakes” submitted to NHTSA—there have been an additional combined 289 complaints relating to the Toyota Brake Defect submitted to the NHTSA for the Model Year 2011-2015 Prius and Prius PHV, 2012-2015 Prius V, 2012-2015 Toyota Camry Hybrid, and 2013-2015 Toyota Avalon Hybrid.

100. Of those 289 complaints of brake malfunction, 63 were reported to have resulted in crashes, injuring a combined 22 people. These accident and injury numbers do not include accidents and injuries involving the 2010 Prius and Prius PHV.

Toyota Brake Defect Complaints Submitted to NHTSA				
Model Year/Model	Prius/V/PHV	Camry Hybrid	Avalon Hybrid	Total
2011	114	N/A	N/A	114
2012	77	8	N/A	85
2013	30	6	2	38
2014	9	6	3	18
2015	8	24	2	34
Total	238	44	7	289

101. But even more alarming, and the primary reason why Toyota limits its Customer Support Program only to cases where the Toyota Brake Defect has already manifested in the vehicle, is that of these 289 complaints, 63 reportedly resulted in accidents, injuring 22 people.

1. NHTSA Consumer Complaints of Brake Defect Resulting in Crashes

102. The following are the consumer complaints submitted to NHTSA regarding the Toyota Brake Defect in the Class Vehicles that resulted in crashes:¹

October 9, 2019 **NHTSA ID NUMBER: 11267321**

MY BRAKES CONSISTENTLY LOCK AND THE CAR LUNGES FORWARD WHEN I HIT A POTHOLE WHILE BRAKING. THIS CAUSED A CRASH WHEN THE CAR WAS ONLY A COUPLE YEARS OLD WHEN THE BRAKES FAILED TO STOP THE VEHICLE AND IT LUNGED FORWARD INTO THE BACK OF A CAR. THIS IS EXTREMELY DANGEROUS AND I'VE SEEN THIS COMMENT OFTEN WITH THIS VEHICLE. I DON'T UNDERSTAND WHY TOYOTA HAS NOT ADDRESSED THIS ISSUE.

INJURIES0

DEATHS0

WHILE PULLING INTO A PARKING SLOT IN A PARKING LOT, WHICH WAS ON A SLOPE, I APPLIED THE FOOT BRAKE WITHOUT ANY RESPONSE WHATSOEVER. THE VEHICLE GAINED ENOUGH SPEED TO JUMP THE SMALL STOP-CURB AND HIT A CONCRETE WALL NEXT TO IT. THE DAMAGE TO THE FRONT OF THE CAR WAS JUST OVER \$4000. I THOUGHT I HAD MISSED THE PEDAL. ON JUNE 12TH AND 15TH, I HAD TWO MORE INCIDENTS OF THE BRAKE PEDAL GOING ALL THE WAY TO THE FLOOR WHILE EITHER AT SLOW SPEED OR STOPPED. MY DEALER SAYS IT WAS A PROBLEM ON THE 2010, BUT HE HAS NOT SEEN IT ON A 2011. MY WIFE NOW REFUSES TO DRIVE THE CAR. *TR

INJURIES0

DEATHS0

CAR LURCHES FORWARD WHEN BRAKES ARE APPLIED ON BUMPY OR UNEVEN SURFACES, AS WELL AS SLIPPERY SURFACES SUCH AS METAL PLATES THAT YOU SOMETIMES FIND COVERING CITY STREETS UNDER CONSTRUCTION. ON ICE, WHEN APPLIED FORCEFULLY, NO BRAKING ACTION OCCURS WHATSOEVER, EVEN WHEN PUMPED OR RELEASE AND REAPPLIED. IN JAN 2013, CAR SLID MORE THAN 150' ON A LIGHTLY SNOWY ROAD INTO A DITCH.

MY SENSE IS ANTI-LOCK BRAKES ARE DEFECTIVE, BUT IT COULD BE SOME OTHER COMPUTER OVERRIDE THAT KICKS IN. WHEN STOPPING FOR A TRAFFIC LIGHT ON A BUMPY ROAD, OR OVER ONE OF THOSE CONSTRUCTION PLATES, IT'S SCARY, AND I FEEL LUCKY I HAVEN'T HIT ANYONE. *TR

LOVE MY PRIUS UNTIL I STARTED TO BECOME SCARED DAILY BY THE UNSAFE DRIVING CONDITIONS DUE TO THE CAR'S TENDENCY TO LURCH FORWARD WHILE BRAKING OVER BUMPY GROUND OR POTHOLES WHEN COMING TO A STOP OR SLOWING DOWN TO TURN. IT'S RATHER STARTLING AND FORTUNATELY HAS NOT CAUSED AN ACCIDENT YET FOR NO OTHER CAR HAS BEEN AROUND WHEN THIS HAPPENS. A DIFFERENT STORY WITH THE OTHER MORE SERIOUS ISSUE WITH THE BRAKING SYSTEM WHEN NEEDING TO COME TO AN IMMEDIATE STOP DUE TO SUDDEN STOPPING OF THE CAR IN FRONT. ABOUT A MONTH AGO, I EXPERIENCED THE "NO BRAKE" ISSUE WHEN SUDDENLY NEEDING TO PRESS HARD ON THE BRAKE FOR A STOPPED CAR IN FRONT OF ME. I HAD PLENTY OF DISTANCE FOR STOPPING BUT BECAUSE OF THE "NO BRAKE" ISSUE HAD TO STEER OFF TO THE SIDE TO MISS THE CAR. SHOCKED AND CONFUSED AT WHAT HAPPENED, THOUGHT MAYBE I DID SOMETHING WRONG BY NOT PUMPING THE BRAKE. THEN TWO DAYS AGO, I

WAS SITTING AT A RED LIGHT WHEN IT TURNED GREEN, TRAFFIC STARTED MOVING BUT THEN SUDDENLY STOPPED FOR AN EMERGENCY VEHICLE TO GO THROUGH THE INTERCEPTION. I PRESSED ON THE BRAKE HARD AND JUST KEPT MOVING RIGHT INTO THE REAR OF THE TRUCK IN FRONT. I NOW HAVE ABOUT \$1,800 OF DAMAGES FOR THE TRUCK (NO DAMAGE CAUSED TO IT) HAD AN HITCH WHICH PUNCTURED MY BUMPER AND BENT THE AIR CONDENSER. I HAVE DECIDED NOT TO FIX IT FOR IT COULD HAPPEN AGAIN. WHEN I DECIDE WHAT'S MY NEXT SAFE CAR TO PURCHASE, I WILL HAVE IT FIXED AND TRADE IT IN FOR IT AS SOON AS POSSIBLE FOR I'M NOW SCARED TO DRIVE IT. THE DEALERSHIP REPLY TO MY CONCERN IS THE SAME AS WITH EVERYONE ELSE'S COMPLAINT AND REVIEW I HAVE READ, THIS IS HOW THE BRAKE SYSTEM WORKS AND NO ERROR. THEY DO NOT WANT TO TAKE RESPONSIBILITY OF THIS FAULTY BRAKE SYSTEM WHICH CREATES UNSAFE DRIVING CONDITIONS. FORTUNATELY IT WAS A TRUCK IN FRONT OF ME THIS TIME. BUT WHAT IF IT'S A PERSON WALKING ACROSS THE ROAD IN FRONT OF ME NEXT TIME?? *TR

INJURIES2**DEATHS0**

I AM AN EXCELLENT DRIVER. I PURCHASED THIS PRIUS IN THE SUMMER OF 2011. WE (MY WIFE AND YOUNG DAUGHTER) WERE PROCEEDING ON JUANITA DRIVE N.E. IN KIRKLAND, WA. MY WIFE AND I AGREE THAT OUR SPEED WAS APPROXIMATELY 30-33 MPH AND THAT THERE WERE APPROXIMATELY 3+ CAR LENGTHS BETWEEN US AND THE VEHICLE IN FRONT OF US. THE WEATHER WAS DRY AND SUNNY. SUDDENLY, A VEHICLE THREE VEHICLES AHEAD OF US STOPPED TO MAKE A LEFT TURN, AND THE TWO VEHICLES BEHIND IT WERE ABLE TO STOP. I IMMEDIATELY APPLIED MY BRAKES TO THE FLOOR AS SOON AS I OBSERVED THE STOPPED VEHICLE AHEAD. I FELT NO RESPONSE - NO GRIPPING OF THE BRAKES OR GRIPPING OF THE WHEELS TO THE ROAD, NO SQUEALING, NO SKIDDING, NO SENSE OF THE BRAKES SLOWING THE VEHICLE IN THE THREE SECONDS I APPLIED THEM. DUE TO VEHICLES IN THE OPPOSING LANE, A NARROW ROAD AND NO SHOULDER (A DITCH WITH TELEPHONE POLES ON THE RIGHT), I WAS FORCED TO DESIGN THE LEAST HARMFUL IMPACT - MY FRONT RIGHT CORNER TO THE REAR LEFT CORNER OF THE VEHICLE IN FRONT. THE IMPACT TORE OPEN THE RIGHT FRONT OF THE VEHICLE, SHATTERING THE WINDSHIELD NEXT TO MY WIFE AND CAUSING HER LEGS TO FLY UP AND STRIKE THE DASHBOARD, INJURING HER LEGS IN SEVERAL PLACES. HER AIRBAG DID NOT DEPLOY. MY 7-YEAR-OLD WAS IN HER CAR SEAT IN THE BACK SEAT. THE LARGER SPLIT BACK WAS BEHIND HER. THE BACK BECAME UNHINGED AT IMPACT AND FLIPPED FORWARD, FORCING MY DAUGHTER'S UPPER BODY FORWARD. SHE SUSTAINED MINOR FACIAL INJURIES. WHILE IT IS POSSIBLE THAT THE AIRBAG NON-DEPLOYMENT WAS APPROPRIATE (I AM NOT CERTAIN OF THIS), THERE IS NO QUESTION THAT THE BRAKING WAS SOFT, SQUISHY, NON-EXISTENT, AND THE BACK SEAT SHOULD NOT HAVE BECOME UNHINGED. *TR

FIRENo

INJURIES0

DEATHS0

WE PURCHASED A 10 MONTH OLD TOYOTA PRIUS ON MARCH 16ND 2012 WITH ONLY 1367 MILES.

THE PRIOR OWNER WHO WAS LEASING THIS CAR RETURNED THE CAR DUE TO MILEAGE INCONSISTENCY.....

ON OCT 5TH 2012, I WAS DRIVING ON SUNNY DRY DAY AT 22MPH THE VEHICLE IN FRONT OF ME SLOWED DOWN. I STEPPED ON THE BRAKE TO SLOWDOWN BUT THE CAR DID NOT STOP. WHEN I STEPPED ON THE BRAKE IT DID NOT RESPOND IMMEDIATELY, I APPLIED COMPLETE PRESSURE TO THE BRAKE HOWEVER THE CAR STILL DID NOT SLOW DOWN ENOUGH AND I HIT THE CAR IN FRONT OF ME. PER THE REPORT FROM TOYOTA THE SPEED WENT DOWN FROM 22MPH TO 5MPH AT THE TIME OF THE IMPACT. I DO NOT AGREE WITH THE TOYOTA REPORT THAT I ONLY STEPPED ON THE BRAKE FOR 2 SECONDS AS IT WAS MUCH MORE...

BEFORE THE ACCIDENT THE BRAKE WAS MUCH HARDER AND LESS FORCEFUL PRESSURE MADE THE CAR STOP AFTER THE ACCIDENT THE BRAKE FEELS SOFTER AND MORE PRESSURE IS NEEDED TO MAKE THE BRAKE WORK.

THIS IS AN ALMOST BRAND NEW CAR WITH 7K MILES ON IT HOWEVER I DO FEEL SAFE IN THIS CAR ANYMORE AFTER THIS ACCIDENT AND I FEAR FOR MY LIFE AND PUBLIC SAFETY. WHAT WILL HAPPEN I DRIVE ON A HIGHWAY AT 60MPH AND THE BRAKE WILL NOT WORK??

TOYOTA DENIES ANY TECHNICAL ERROR WITH THE CAR AND BLAMES THE

ACCIDENT ON ME. THERE ARE PLENTY OF REPORTS OF SIMILAR ACCIDENTS REPORTED BY CONSUMERS ON THIS SAME ISSUE HERE:

[HTTP://TOWNHALL-TALK.EDMUNDS.COM/DIRECT/VIEW/.F0DB60B](http://TOWNHALL-TALK.EDMUNDS.COM/DIRECT/VIEW/.F0DB60B). *TR

WHILE PULLING INTO A PARKING SPACE (SPEED LESS THAN 5 MPH) AND APPLYING THE BRAKES THE PEDAL WENT TO THE FLOOR AND THE CAR SEEMED TO SPEED UP. THE CAR JUMPED THE CURB AND STRUCK A TREE. A GOOD SAMARITAN ASSISTED AND ACTUALLY GOT IN THE CAR AND FOUND THE BRAKE PEDAL WENT TO THE FLOOR. SHORTLY AFTER THE ACCIDENT THE BRAKES RETURNED TO NORMAL OPERATION. THIS IS THE SECOND TIME THAT THE CAR HAS EXPERIENCED SIMILAR PROBLEMS. IN 2014 WHILE PULLING INTO THE DRIVEWAY THE BRAKE PEDAL WENT TO THE FLOOR AND STRUCK THE HOUSE. SHORTLY AFTER THE BRAKES RETURNED TO NORMAL OPERATIONS. TOYOTA WAS NOTIFIED AND INSPECTED THE CAR'S COMPUTER AND BRAKING SYSTEM PER CASE NUMBER 1410012557. AFTER THE INSPECTION TOYOTA SAID THAT THERE WERE NO BRAKE ISSUES FOUND WITH THE CAR AND STATED THAT IT WAS SAFE TO DRIVE. OBVIOUSLY THERE IS AN ISSUE WITH THE BRAKING SYSTEM IN THESE CARS.

INJURIES0

DEATHS0

NOVEMBER 4, 2017 - CAR WAS PARKED IN OUR DRIVEWAY. PUT THE CAR IN REVERSE TO BACK OUT OF OUR DRIVEWAY. THE BRAKES FAILED. NO MATTER HOW MANY TIMES THE BRAKE PEDAL WAS REPEATEDLY PUSHED DOWN, THE CAR JUST WOULD NOT STOP. IT ACTUALLY FELT LIKE THE CAR WAS ACCELERATING!

THE CAR RAN OVER OUR MAILBOX AT THE END OF OUR DRIVEWAY. THE MAILBOX GOT DRAGGED UNDER THE CAR AND THE CAR ROLLED OUT ONTO THE STREET. FINALLY, WE PUSHED IN THE POWER BUTTON AND THAT WAS HOW WE WERE ABLE TO GET THE CAR TO STOP.

OUR MAILBOX GOT TOTALED AND DAMAGE WAS DONE TO THE UNDERCARRIAGE OF OUR CAR, AS THERE IS TWISTED METAL HANGING DOWN SCRAPING THE GROUND. THE BRAKES STARTED TO WORK AGAIN A FEW

MINUTES LATER, AS I WAS ABLE TO PULL IT BACK INTO THE DRIVEWAY OFF OF THE STREET.

ON SEPTEMBER 19, 2017 – CAR WAS PARKED IN A PARKING LOT. WHEN REVERSING OUT OF THE PARKING SPACE, THE BRAKES DID NOT WORK. AFTER REPEATEDLY PUMPING THE BRAKES, THEY FINALLY ENGAGED JUST BEFORE IT HIT A CAR PARKED BEHIND US. WE THOUGHT THIS WAS A FREAK ONE-TYPE EVENT, SO WE DIDN'T REPORT IT.

INJURIES0

DEATHS0

ON JULY 28, 2017, I WAS DRIVING ALONG WITH MY THREE CHILDREN. I PULLED INTO A DRIVEWAY TO PARK MY VEHICLE BEHIND A PARKED VEHICLE. THERE WAS APPROXIMATELY A 2 FOOT SPAN BETWEEN THE BACK OF THE VEHICLE

AND THE FRONT OF MY 2012 TOYOTA PRIUS. TO THE RIGHT OF THE PARKED VEHICLE WAS A PARKED TRUCK. BEING THAT I WAS PULLING INTO A SPACE TO PARK MY VEHICLE, I WAS TRAVELING EXTREMELY SLOWLY. I BEGAN TO PRESS ON MY BRAKE TO PARK THE VEHICLE AND INSTANTLY KNEW THERE WAS A PROBLEM. UPON DEPRESSING THE BRAKE, SEVERAL LIGHTS BEGAN TO FLASH WITHIN THE DASH TO INCLUDE BUT NOT LIMITED TO THE ABS, WARNING LIGHT, AND THE LIGHT WITH VEHICLE SWERVE LINES. OTHER LIGHTS WERE ALSO FLASHING, BUT I DO NOT RECALL EACH ONE. THE BRAKE PAD INSTANTLY WENT STRAIGHT TO THE FLOOR WITH NO PRESSURE. THE VEHICLE WOULD NOT STOP AND CONTINUED TO TRAVEL FORWARD WITH ACCELERATION. TO AVOID HITTING THE VEHICLE IN FRONT OF ME I BEGAN TO TURN MY WHEEL TO THE RIGHT. THE VEHICLE CONTINUED TO ACCELERATE AND CAME INTO CONTACT WITH THE TRUCK THAT WAS TO MY FRONT-RIGHT. MY PRIUS FAILED TO SLOW OR STOP. IT CONTINUED TO ACCELERATE AND BEGAN PUSHING THE TRUCK UP THE DRIVEWAY AND INTO THE METAL GARAGE DOOR WITH THE BRAKE PEDAL BEING DEPRESSED THE ENTIRE TIME. EVENTUALLY, THE CAR CAME TO A STOP AND THE LIGHTS CONTINUED TO FLASH PRIOR, DURING, AND AFTER THE INCIDENT. AFTER THE CAR WAS TOWED TREAD WHEEL MARKS WERE FOUND ON THE DRIVEWAY WHERE THE WHEELS SPUN AND LEFT AN IMPRINT IN THE ASPHALT. I AND MY CHILDREN WERE UNINJURED HOWEVER, THE INCIDENT WAS INCREDIBLY TRAUMATIC. THE VEHICLE WAS DEEMED A TOTAL LOSS BY MY INSURANCE COMPANY AND AS OF YET TO BE PROCESSED FOR DIAGNOSTIC TESTING BY TOYOTA. THE TOYOTA CARE SERVICE WAS INFORMED OF THE ACCIDENT. TOYOTA BELIEVES IT TO BE ASSOCIATED WITH THE INTELLIGENCE COMPONENT OF THE VEHICLE, HOWEVER DETERMINATION IS CURRENTLY UNKNOWN UNTIL DIAGNOSTIC IS PERFORMED.

DEATHS0

I BOUGHT PRIUS V IN FEBRUARY 2012. I'VE NOTICED FEW TIMES ISSUES WITH BRAKES. WHILE DECELERATING WITH MY FOOT ON THE BRAKE PEDAL TO SLOW THE CAR TO A STOP AND IF THE CAR GOES OVER A POTHOLE OR SLIGHT BUMP ON THE ROAD THEN CAR ACCELERATES FORWARD BEFORE COMING TO A STOP. THIS IS SAFETY HAZARD SINCE IT ALMOST LED TO HITTING THE OTHER CAR'S REAR BUMPER.

ALSO, I'VE GOTTEN INTO AN ACCIDENT IN DECEMBER 2013 WHERE THERE WAS ANOTHER BRAKE ISSUE. I STOPPED MY CAR IN THE INCLINE ROAD BY PUTTING MY FOOT ON THE BRAKE PEDAL. THEN, I CHANGED THE GEAR SHIFT TO REAR AND SLOWLY TOOK MY FOOT OFF THE BRAKE PEDAL SO THAT I CAN BACK INTO THE STREET PARKING WHICH WAS ONLY ABOUT 4 TO 5 FEET AWAY. SUDDENLY, CAR SPED DOWN THE ROAD GOING REAR DIRECTION TO THE DIRECTLY OPPOSITE STREET AND HIT TWO PARKED CARS. I HAD PUT THE FOOT DOWN ON THE BRAKE PEDAL WHEN I NOTICED THE CAR GOING REAR FAST BUT IT WOULD NOT STOP THE CAR FROM GOING DOWN THE ROAD. I HAD NO CONTROL OVER THE CAR OR THE SPEED. THIS IS MAJOR SAFETY HAZARD SINCE SOMEONE COULD HAVE BEEN SERIOUSLY INJURED WITH LOSING CONTROL OF THE BRAKE AND ACCELERATION. I'VE OWNED OTHER TOYOTA CAR (CAMRY) BEFORE BUT NEVER HAD THIS ISSUE UNTIL THIS PRIUS V. MY CAR HAS BEEN IN BODY SHOP FOR OVER A MONTH WITH REPAIRS. I PLAN TO TAKE THE CAR TO THE TOYOTA DEALER TO CHECK OUT THIS BRAKE ISSUE.

AS I WAS APPROACHING A TURN I BEGAN TO BRAKE AND THE BRAKES FAILED. I TRIED PRESSING THE BRAKE PEDAL HARDER AND MAKING SURE THAT I HAD PROPER FOOT PLACEMENT AND IT FELT LIKE THE CAR ACCELERATED AT THAT POINT. SINCE THE CAR WAS NOT SLOWING DOWN I WAS UNABLE TO MAKE THE TURN AND ENDED UP CROSSING THE ROAD DIAGONALLY AND GOING UP ONTO THE CURB. ONCE THE CAR WAS OVER THE CURB AND IN THE GRASS THE BRAKES FINALLY ENGAGED AND THE VEHICLE CAME TO A STOP. *JS

SOMETHING STARTED BUZZING EVERY FEW SECONDS IN ENGINE COMPARTMENT TOWARD DRIVERS SIDE FIREWALL. AT SLOW SPEEDS, BRAKES PULSATED WITH UNEVEN BRAKING. AS TIME WENT ON, BUZZING WAS MORE FREQUENT. WARNING LIGHTS FLASHED ONCE BUT WENT OUT. AFTER THAT, WHEN PARKING CAR, THE BRAKES WENT ALL THE WAY TO THE FLOOR AND I HIT ANOTHER CAR AT PARKING SPEEDS. DEALER SAYS 'BRAKE ACTUATOR PUMP' AND WILL COST NEARLY \$3000 TO FIX. THIS PUMP ALSO WENT OUT ON MY 2005 PRIUS! BUT THAT WAS COVERED BY A 'HIDDEN' WARRANTY THAT I FOUND WHILE GOOGLING THE ISSUE. WOULD HAVE PAID FULL PRICE FOR THAT REPAIR IF I HAD NOT RUN ACROSS THAT TSB. THIS IS OBVIOUSLY A BIG MONEY MAKER FOR TOYOTA FIXING THESE BUT IS A HUGE DANGER TO THE MANY DRIVERS THIS HAS HAPPENED TO OVER THE YEARS. PLEASE DO SOMETHING ABOUT IT BEFORE SOMEONE GETS HURT. IT IS A RECURRING AND SUBSTANTIAL THREAT TO DRIVER SAFETY THAT MANY DRIVERS WILL OVERLOOK BECAUSE OF THE INFLATED COST OF THE PARTS. THANK YOU.

Summary of Complaint

CRASHYes

FIRE0**INJURIES**1**DEATHS**0

I WAS DRIVING STRAIGHT ON A CITY ROAD WITH THE FLOW OF HEAVY TRAFFIC AT ABOUT 40 MILES PER HOUR WHEN THE CAR IN FRONT OF ME CAME TO A SUDDEN STOP. I IMMEDIATELY SLAMMED ON MY BRAKES VERY HARD. AT THE TIME I DID THIS I HAD PLENTY OF SAFE DISTANCE BETWEEN US. BUT, THE BRAKES NEVER CAME ON AND I ENDED UP RUNNING INTO THE REAR END OF AN SUV AT APPARENTLY FULL SPEED WITHOUT ANY NOTICEABLE SLOWDOWN. THE BRAKES DID NOT COME ON. THEY DIDN'T GRAB, AND THEY DIDN'T MAKE ANY SCREECHING NOISE AND THERE WERE NO TIRE MARKS ON THE ROAD. ALSO ALL OF THE AIRBAGS DEPLOYED AND THIS WAS A FRONTAL IMPACT, WHICH WAS VERY SURPRISING AND SUFFOCATING. A CLOUD OF DUST FILLED THE CABIN OF THE CAR AND I COULD NOT BREATHE. I WAS LITERALLY SUFFOCATING UNTIL I WAS ABLE TO OPEN THE DOOR AND GET OUT OF THE VEHICLE. I DIDN'T EVEN FEEL THE SEAT BELT TIGHTEN UP BEFORE THE CRASH. THE BRAKES NEVER FELT LIKE THEY CAME ON AT ALL. *TR *JS

Summary of Complaint

CRASHYes**FIRE**No**INJURIES**0**DEATHS**0

I WAS TRAVELING LESS THAN 25 MPH ON A CITY STREET WHEN THE CAR IN FRONT SUDDENLY STOPPED. I PANIC STOPPED - MOVING MY FOOT OFF THE GAS PEDAL AND I BELIEVE THAT I HIT THE BRAKE PEDAL. THE BRAKES DID NOT APPLY, AND I REAR-ENDED THE CAR IN FRONT. I LEFT NO SKID MARKS. OBVIOUSLY I COULD HAVE NOT ACTUALLY PUSHED THE BRAKE PEDAL, BUT I SINCERELY BELIEVE THAT I DID. THE CAR BRAKES SEEM TO BE FINE, SO IF THE CAR FAILED TO STOP THE PROBLEM HAD TO BE IN THE COMPUTER. *TR

DEATHS0

WHEN THE DRIVER HAS TO SLAM ON THE BRAKES REALLY QUICKLY THE CAR DOES NOT SLOWDOWN AT ALL. THE SKID LIGHT COMES ON THE DASH BOARD, BUT OTHERWISE THE CAR DOES NOT STOP. THIS HAPPENS EVEN ON A DRY SURFACE, WITH NO MOISTURE ON THE SURFACE, AT SPEEDS AS LOW AS 20-30 MILES PER HOUR. IT ALMOST ALWAYS DOES IT. IF THE DRIVER LIGHTLY TAP THE BREAKS, THEN THE CAR WILL DECELERATE, BUT NOT IF THE DRIVER HAS TO ABRUPTLY STOPPED. THIS IS QUILT A PROBLEM GIVEN THAT SOMETIMES YOU NEED THE CAR TO STOP SUDDENLY IT IT SIMPLY WON'T AT SPEEDS OF 20 MORE. THE CAR JUST STARTS TO SKID. IT WILL NOT STOP OR GAIN TRACTION WITH THE SURFACE THAT IT IS ON. THIS MEANS THAT IN A SITUATION WHERE THE DRIVER NEEDS TO HIT THE BREAKS ALL THE WAY DOWN, THE CAR STILL WON'T STOP. THIS PROBLEM IS MUCH WORSE IF ON WET OR NEGATIVE SLOPING ROADS. HOWEVER, IT CAN HAPPEN EVEN ON COMPLETE DRY SURFACE.

INJURIES1**DEATHS0**

TL* THE CONTACT OWNS A 2013 TOYOTA PRIUS. WHILE DRIVING APPROXIMATELY 25 MPH ON A ROADWAY, THE BRAKE PEDAL WAS APPLIED AND MADE AN ABNORMAL NOISE. ANOTHER VEHICLE CRASHED INTO THE FRONT PASSENGER SIDE OF THE CONTACT'S VEHICLE WHILE THE CONTACT WAS MAKING A TURN. WHEN THE BRAKE PEDAL WAS APPLIED, THE VEHICLE SURGED FORWARD AT A HIGH RATE OF SPEED. THE FRONT AND REAR DRIVER SIDE AND THE REAR PASSENGER SIDE CURTAIN AIR BAGS DID NOT DEPLOY. THE FRONT AND REAR PASSENGER SIDE AIR BAGS DEPLOYED. THE VEHICLE WAS TOWED TO A YARD AND THEN TOWED TO A REPAIR SHOP FOR FURTHER INSPECTION BY THE INSURANCE COMPANY. THE MANUFACTURER WAS NOTIFIED OF THE FAILURE. THE CONTACT WAS WAITING TO DETERMINE IF AN INVESTIGATOR WOULD BE SENT. A POLICE REPORT WAS FILED. THE DRIVER SUSTAINED A HEAD INJURY THAT REQUIRED MEDICAL TREATMENT AND WAS HAVING DIFFICULTY WITH VISIBILITY DUE TO THE IMPACT OF THE CRASH AND NO AIR BAG DEPLOYMENT. THE APPROXIMATE FAILURE MILEAGE WAS 64,000.

INJURIES1

DEATHS0

I WAS DRIVING HOME IN MY 2013 TOYOTA PRIUS ON TUESDAY, DECEMBER 29, 2015, AT APPROXIMATELY 4:30P.M. WHILE TURNING RIGHT FROM THE STREET ON WHICH I LIVE INTO MY DRIVEWAY, THE CAR, AFTER I APPLIED THE BRAKES, SUDDENLY SURGED FORWARD. IN SPITE OF CONTINUOUSLY PUSHING DOWN ON THE BRAKES, THE CAR WOULD NOT STOP. THE DRIVEWAY SHOWS SKID MARKS FROM MY ATTEMPTS TO STOP THE CAR. THE CAR DID NOT STOP. THE BRAKES FAILED.

THE CAR SHOT FORWARD, CRASHING INTO THE CLOSED WOODEN GARAGE DOOR AND THE WALL TO THE LEFT OF THE GARAGE DOOR. THE GARAGE DOOR BROKE AND ONE HALF OF THE GARAGE DOOR SPLIT AND WAS PUSHED INTO THE GARAGE. THE GARAGE DOOR COLLAPSED ON MY CAR AS WELL AS ITEMS STORED IN THE GARAGE INCLUDING PARTS OF THE GARAGE STRUCTURE AND LARGE SECTIONS OF A STORAGE UNIT, WHICH WAS BOLTED TO THE WALL. APPROXIMATELY 90% OF MY CAR WAS INSIDE THE GARAGE. I TRIED TO EXIT THE CAR THROUGH THE DRIVER'S SIDE BUT THE DOOR WOULD NOT OPEN. I CRAWLED TO THE TRUNK AREA AND COULD NOT FIND A MECHANICAL RELEASE FOR THAT DOOR. FINALLY I FORCED OPENED THE DRIVER'S SIDE REAR DOOR AND EXITED THE CAR THROUGH THE BROKEN WALL.

IF THE BRAKES HAD NOT FAILED THIS WOULD HAVE NOT HAVE HAPPENED. AS A RESULT OF THE BRAKE FAILURE, I HAVE INCURRED SUBSTANTIAL LOSS, INCLUDING THE GARAGE DOOR (A TOTAL LOSS), DAMAGE TO STRUCTURAL SUPPORT TO THE GARAGE WALL, A BUILT-IN GARAGE STORAGE UNIT, CONTENTS STORED IN THE GARAGE AND SUBSTANTIAL DAMAGE TO THE CAR. FORTUNATELY, I DID NOT SUFFER ANY MAJOR PHYSICAL INJURIES, ALTHOUGH FOLLOWING THE COLLISION I EXPERIENCED AND CONTINUE TO EXPERIENCE MUSCLE, JOINT, HIP, NECK AND BACK PAIN AND DISCOMFORT. IN ADDITION, I CONTINUE TO EXPERIENCE EMOTIONAL DISTRESS FROM THIS INCIDENT.

I WANT TOYOTA TO PERFORM A COMPLETE DIAGNOSTIC SAFETY CHECK OF ALL SYSTEMS INCLUDING THE BRAKES AND ANY SOFTWARE THAT CONTROLS THE BRAKING SYSTEM.

INJURIES0

DEATHS0

THE RENTED 2013 TOYOTA PRIUS WITH ONE PASSENGER AND THE DRIVER, PULLED INTO A DIAGONAL PARKING SPACE IN FRONT OF A STRIP MALL STORE. TRAVELING AT MAYBE 5 MPH TO PARK, THE CAR'S BRAKE PEDAL GAVE WAY AND HIT THE FLOOR FLAT, PROVIDING NO BRAKING AT ALL. THE CAR KEPT ROLLING TOWARD THE CORNER OF THE BRICK BUILDING. THE CAR THEN SUDDENLY SURGED AHEAD, SMASHING INTO THE CORNER OF THE ENTRY TO THE BRICK BUILDING AT SUCH A SUDDEN FORCE THAT THE DOORS TO THE BUILDING WERE WEDGED SHUT. AFTER EMERGENCY VEHICLE TOOK THE DRIVER AND PASSENGER TO THE HOSPITAL, THE POLICEMAN ON THE JOB, AS WELL AS THE WRECKER SERVICE THAT CAME TO EXTRACT THE VEHICLE, COULD NOT MOVE THE CAR BECAUSE THERE WERE NO BRAKES, AS STATED IN THE POLICE REPORT. THE WRECKER DRIVER COULD NOT LOAD THE VEHICLE TO TOW USING THE CAR'S POWER BECAUSE THERE WERE NO BRAKES. NO AIRBAGS DEPLOYED, BUT THE CONDITION OF THE CORNER SHOWS DAMAGE THAT A VEHICLE MOVING FASTER THAN 5 MPH WOULD INCUR. THE POLICEMAN CAME TO THE HOSPITAL TO INFORM THE DRIVER THAT THERE

INDEED WERE NO BRAKES ON THE CAR AND THE DRIVER WAS NOT AT FAULT - THE VEHICLE'S BRAKING AND ACCELERATION SYSTEMS HAD FAILED.

INJURIES0

DEATHS0

2013 PRIUS C TWO, BOUGHT BRAND NEW WITH 15 MILES ON IT 5 WEEKS AGO. A FEW TIMES WHEN DRIVING, I NOTICED THE BRAKES SEEMED WEAK, LIKE THEY WEREN'T STOPPING THE CAR VERY WELL EVEN AT LOW SPEEDS. MY DRIVING IS MOSTLY IN TOWN ON RESIDENTIAL STREETS, SO I'M RARELY GOING OVER 35 MPH. EVEN SO, I'D HAVE TO REALLY MASH THE PEDAL ALL THE WAY TO THE FLOOR TO GET THE CAR TO COME TO A COMPLETE STOP, OTHERWISE IT WOULD KEEP MOVING FORWARD. SEVERAL TIMES I ENDED UP ABOUT 5-10 FEET PAST THE LINE, STICKING THE FRONT BUMPER INTO CROSS TRAFFIC. LUCKILY NO ONE HIT ME. I CHALKED IT UP TO THE QUIRKS OF A DIFFERENT CAR THAN THE ONE I WAS USED TO, AND FIGURED IF IT KEPT HAPPENING I'D TAKE IT TO THE DEALERSHIP.

ON MONDAY, MY WIFE WAS STOPPED AT A RED LIGHT. THE LIGHT TURNED GREEN AND THE CAR IN FRONT OF HER STARTED TO MOVE FORWARD. AFTER A FEW HUNDRED FEET, HE SUDDENLY SLAMMED ON HIS BRAKES. SHE SAID HER BRAKE PEDAL WENT ALL THE WAY TO THE FLOOR, AND THE PRIUS DIDN'T

SLOW DOWN AT ALL. SHE HIT HIM GOING ABOUT 25 MPH AND TOTALED THE PRIUS. SHE'S AN EXCELLENT DRIVER AND I'VE BEEN WITH HER BEFORE WHEN SHE'S HAD TO PANIC-STOP. SHE'S NEVER DRIVEN A CAR WITHOUT ABS, SO SHE IS USED TO PUSHING THE PEDAL HARD AND KEEPING HER FOOT ON IT. SHE WOULDN'T EVEN KNOW HOW TO "PUMP" THE PEDAL. SHE SWEARS THE PEDAL JUST WENT ALL THE WAY TO THE FLOOR AND THE CAR DIDN'T SLOW DOWN AT ALL. THANKFULLY, SHE'S OKAY AND NO ONE WAS INJURED. *TR

FIRENo

INJURIES0

DEATHS0

THE CAR BRAKES FAILED AT LOW SPEEDS (10-15 MPH) AND BUMPED INTO THE CAR IN FRONT IN A STOP-AND-GO TRAFFIC ON THE WET FREEWAY AFTER A RECENT RAIN. THE BRAKE PEDAL WENT ALL THE WAY DOWN TO TOUCH THE FLOOR, AS IF THE BRAKE PEDAL WAS DISENGAGED FROM THE BRAKING SYSTEM AND THE ABS LIGHT DID NOT TURN ON AT THE TIME OF BRAKING. THE CAR WAS DRIVING IN THE STRAIGHT LINE AND IMMEDIATELY BEFORE THIS I WAS ABLE TO SUCCESSFULLY BRAKE THE CAR ON THE VERY SAME TRIP. SO THE PROBLEM IS INTERMITTENT. THIS IS THE SECOND TIME WITH THIS CAR, AS MY SPOUSE ALSO EXPERIENCED THE SIMILAR BRAKE FAILURE AT EVEN LOWER SPEEDS (<10 MPH) RESULTING IN TOUCHING THE CAR IN FRONT AND MINOR SCRATCH ON THE BUMPER. IT WAS A DRY DAY THEN AND ALMOST SIMILAR CIRCUMSTANCES. ASSOCIATED GEICO CLAIM NUMBER IS

0423477190101054. WE OPENED A CASE WITH TOYOTA TO CHECK THE DATA RECORDER. ASSOCIATED TOYOTA CASE NUMBER IS 181112370.

FIRENo

INJURIES0

DEATHS0

I PULLED MY 2014 TOYOTA PRIUS SLOWLY OUT OF A PARKING SLOT IN A SMALL PARKING LOT TURNING IT THE DIRECTION I WANTED TO GO ON A VERY SLIGHT SLANT DOWNHILL. BEFORE I COULD PUT IT IN DRIVE FROM REVERSE IT STARTED ROLLING DOWNWARD ON ITS OWN. WHEN I WENT TO APPLY THE BRAKES, THEY WERE SQUISHY AND DID NOT ENGAGE. I TRIED SEVERAL TIMES TO GET THEM TO ENGAGE BUT THEY NEVER DID. I WENT TO PUT THE EMERGENCY BRAKE ON BUT IT IS LOCATED SO HIGH UP IT WAS DIFFICULT TO GET MY FOOT UP THERE QUICKLY. MEANWHILE THERE WAS A TRUCK PARKED ACROSS THE END OF THE PARKING LOT LANE SO MY CAR ROLLED INTO THE TRUCK CREATING DENTS IN THE FRONT DOOR PANEL AND REAR DOOR PANEL. THIS WAS OBVIOUS BRAKE FAILURE. I WENT TO THE LOCAL TOYOTA REPAIR AND DEALERSHIP AND SPOKE WITH A SHOP EMPLOYEE. HE TOLD ME THAT THIS CAN ACTUALLY HAPPEN WHERE YOU CAN BACK A CAR UP AND TURN IT AND IT WILL GO ON ITS OWN (BUT IT SEEMS HE IMPLIED THAT THE "READY" LIGHT MIGHT NOT HAVE ENGAGED) AND THAT HE "HAD SEEN IT HAPPEN HIMSELF". IF THE TRUCK HAD NOT BEEN THERE, MY CAR WOULD HAVE

ROLLED DIRECTLY OUT INTO ONCOMING TRAFFIC ON THE MAIN THOROUGHFARE THROUGH TOWN WHICH HAD THE HUGE POTENTIAL OF CAUSING A MAJOR ACCIDENT WITH INJURIES. I DID TRY TO RECREATE THE EVENT IN A NONPOPULATED AREA IN A VERY SAFE MANNER AND WAS UNABLE TO DO SO. THAT EVEN SCARES ME MORE!!! AS YOU HAVE NO IDEA IF IT CAN OR WILL HAPPEN AGAIN. I SPENT \$20,000 PLUS FOR A NEW CAR THAT I AM ALWAYS HYPER-CAUTIOUS IN BECAUSE NO ONE WILL FESS UP TO PROBLEMS. IF I SELL THE CAR IT WILL BE AT A GREAT LOSS WHICH I CANNOT AFFORD! IN THE INTERNET I NOTE THAT THERE WERE SIMILAR PROBLEMS WITH THE BRAKES, ESPECIALLY AROUND 2007 - MANY WERE DOCUMENTED BUT TOYOTA WAS NEVER TAKEN TO TASK RE: THESE CONSUMER COMPLAINTS AS I SUPPOSE THE CONSUMERS JUST COULDN'T "PROVE" THEM. AS USUAL MONEY TRUMPS HUMAN LIVES AND SAFETY. TOYOTA SHOULD BE ASHAMED OF THEMSELVES. *TR

INJURIES0

DEATHS0

I WAS IN MY GYM'S PARKING LOT AND HAD JUST TURNED LEFT INTO A PARKING SPACE. I PLACED MY FOOT ON THE BRAKE TO SLOW THE CAR TO A STOP AS IT MOVED FORWARD INTO THE PARKING SPACE. HOWEVER, THE BRAKE PEDAL DID NOT RESPOND. INSTEAD, THE CAR CONTINUED DRIVING FORWARD ON ITS OWN, AND THEN I HEARD A SOUND OF ACCELERATION, AS IF THE CAR WAS REVVING ITSELF UP TO A HIGHER SPEED. THINKING THAT THE BRAKE HAD NOT ENGAGED, I TOOK MY FOOT OFF THE PEDAL AND PLACED IT BACK ON THE BRAKE PEDAL, STEPPING HARDER, BUT THERE WAS NO RESPONSE.

AT THIS POINT, WITH MY FOOT STILL ON THE BRAKE PEDAL, THE CAR JUMPED UP ONTO THE CURB WHILE STILL ACCELERATING ON ITS OWN, RAN OVER THE SIDEWALK. ROLLED UP AND OVER A TWO-FOOT HEDGE THAT RAN PARALLEL TO THE SIDEWALK, THEN CRASHED INTO THE BRICK ENFORCED CONCRETE COLUMN AT THE CORNER OF THE GYM BUILDING. THE BRICK COLUMN STOPPED THE FORWARD MOMENTUM OF THE CAR, BUT LEFT A LARGE DENT IN THE RIGHT SIDE OF THE CAR'S BUMPER THAT WAS EMBEDDED WITH CHUNKS OF CONCRETE. IT ALSO DENTED THE HOOD OF THE CAR, PUSHING IT OUT OF ALIGNMENT. THE AIRBAGS IN THE CAR DID NOT DEPLOY.

I HAD THE CAR TOWED TO THE LOCAL TOYOTA DEALER AND HAVE REPORTED MY ACCIDENT TO TOYOTA HEADQUARTERS. I AUTHORIZED THEIR REVIEW OF MY CAR'S EVENT DATA RECORDER AND AM AWAITING THEIR INVESTIGATION REPORT.

THIS FRIGHTENING ACCIDENT LEFT ME VERY SHAKEN. IT FELT AS IF I HAD NO CONTROL OVER THE CAR AT ALL. IT SEEMED AS IF SOMETHING HAD TAKEN CONTROL OF THE ACCELERATION OF THE CAR AND MY ATTEMPTS TO STOP THE CAR'S FORWARD MOMENTUM BY STEPPING ON THE BRAKE HAD ZERO IMPACT. THANK GOD NO ONE WAS ON THE SIDEWALK OR I WOULD HAVE KILLED THEM. THESE CARS NEED TO BE RECALLED TO FIND OUT WHAT IS CAUSING THIS POTENTIALLY DEADLY MALFUNCTION. THEY ARE LETHAL WEAPONS ON OUR CITY STREETS!

AROUND 11:30 AM, I WAS DRIVING SOUTH ON A TWO LANE ROAD, AT APPROX. 25 MPH. THE BLACK VEHICLE IN FRONT OF ME APPLIED THE BRAKES AND STOPPED. I WAS ABOUT 4 CAR LENGTHS BEHIND THE BLACK VEHICLE WHEN I QUICKLY APPLIED THE BRAKE PEDAL. THE BRAKE PEDAL WENT TO THE FLOOR AND MY CAR DID NOT STOP NOR EVEN SLOWED DOWN. I PUMPED THE BRAKE PEDAL TWO MORE TIMES, AGAIN, AND THE CAR DID NOT STOP NOR SLOWED DOWN UNTIL I HIT THE BLACK VEHICLE IN FRONT OF ME.

I PULLED UP TO A FAST FOOD DRIVE THRU AND APPLIED MY BRAKES. THE BRAKE PEDAL WENT TO THE FLOOR AND IN DESPERATION I PUT THE VEHICLE IN PARK ONLY TO HEAR 5-6 LOUD CLICKS AS I BUMPED THE CAR IN FRONT OF ME. THIS WAS A 1 OR 2 MPH COLLISION RESULTING IN VERY LITTLE DAMAGE TO BOTH VEHICLES. HOWEVER, THIS IS THE THIRD TIME THIS HAS HAPPENED TO ME IN THIS NEW CAMRY WITH 7200 MILES ON IT. THE FIRST TIME WAS WHEN I WAS BACKING OUT OF MY DRIVEWAY TWO MONTHS AGO. THIS TIME THE BRAKE PEDAL WENT TO THE FLOOR AND I BACKED OVER A CEMENT RETAINING WALL IN MY NEIGHBOR'S YARD. I CALLED A TOW TRUCK TO PULL ME OUT BECAUSE THE REAR WHEELS WERE HANGING IN MID AIR AND IT WAS IMPOSSIBLE TO GET ENOUGH TRACTION TO GET MY CAR RIGHTED UP. THE OTHER TIME WAS ANOTHER LOW SPEED EVENT AT ANOTHER DRIVE THROUGH. NO ONE WAS IN FRONT OF ME AND ALL WAS OKAY . I FILED A CASE WITH TOYOTA CORPORATE WILL NOT PAY FOR TOWING OR RENTAL AND THE DEALERSHIP HAS NOT RETURNED ANY OF MY PHONE CALLS

2. NHTSA Consumer Complaints of Brake Defect in the Prius V

103. Based on information and belief, Plaintiffs allege, in addition to Toyota's Customer Support Program being inadequate based on Toyota's refusal to replace defective brake parts unless and until the Vehicle's braking system registers a malfunction, it is insufficient because it does not extend to Prius V vehicles.

104. It is evident from the complaints submitted to the NHTSA by Prius owners, that the Toyota Brake Defect extends to Prius V vehicles. Of the 238 NHTSA brake system complaints submitted by Prius owners, 28 of the complaints—12% of all Prius complaints—related to Prius V vehicles. Based on information and belief, Plaintiffs allege that this complaint rate is roughly consistent with the percentage of overall Prius U.S. sales comprised of Prius V sales during that same time period.

105. The following are the consumer complaints submitted to NHTSA regarding the Toyota Brake Defect in Prius V vehicles:²

December 4, 2019 NHTSA ID NUMBER: 11286843

11/15/19 ORIGINALLY THE CAR SHOWED BRAKE, ABS, ANTISKID AND ENGINE IDIOT LIGHTS WENT TO THE DEALER WITH A CODE C1391. THEY SAID I NEED TO REPLACE THE MASTER CYLINDER AND THE POWER BOOSTER FOR \$2600. THEN THEY SAID IT WAS POLICY TO ALSO REPLACE THE BRAKE BOOSTER PUMP ASSEMBLY FOR AN ADDITIONAL \$2,000 OR A TOTAL OF \$4600. AFTER I COMPLAINED THAT THEY HAD RECALLED 972,000 OTHER PRIUS BUT DIDN'T INCLUDE THE PRIUS V THEY SAID I ONLY NEEDED TO REPLACE THE MASTER CYLINDER AND POWER BOOSTER AND SAID THEY WOULD DO IT FOR \$1,516.89. SO THEN I GO TO TAKE THE CAR TO THE SERVICE DEPARTMENT TODAY 12/4/19 AND WHILE SITTING THERE THE IDIOT LIGHTS ALL TURN OFF AND THE BRAKE START TO FUNCTION NORMALLY OWN ITS OWN... I ASK THE SERVICE REPRESENTATIVE WHAT HIS THOUGHTS WERE AND HE SAID I SHOULD STILL MAKE THE REPAIRS, BUT HE COULDN'T SAY WHAT THEY WOULD DO IT CAME BACK. SO I'M GOING TO DRIVE THE CAR FOR A WEEK TO SEE. WHILE I'M WAITING CAN YOU PLEASE DO A RECALL ON THE BRAKE PUMP ASSEMBLY SINCE THESE FOLKS DONT EVEN KNOW WHAT THE HECK IS GOING ON WITH THIS CAR. IT APPEARS ITS NOT EITHER DEVICE AND ITS A COMPUTER GLITCH THAT THEY HAVEN'T RESOLVED...HELP US PRIUS OWNERS PLEASE!!!

INJURIES0

DEATHS0

MY ENTIRE BREAKING SYSTEM WENT OUT WHILE DRIVING TO WORK ON A BUSY ROAD, WHERE I HAD TO PULL OVER TO THE SIDE TO SEE WHAT WAS WRONG, AS I HAD NEVER SEEN THOSE FIVE LIGHTS LIGHT UP EVER, AS THIS IS NOT A TYPICAL ISSUE THAT WOULD EVER BREAK WITHOUT A MANUFACTURING ISSUE. I WAS NEVER NOTIFIED OF A SPECIFIC ISSUE WITH CERTAIN 2011-2015 PRIUS VEHICLES THAT ARE INVOLVED IN A CUSTOMER SUPPORT PROGRAM ZJB. I HAVE NOW PAID \$100 TO TOYOTA TO DIAGNOSE THIS PROBLEM, WHICH WAS NOT NECESSARY, AS IT IS OBVIOUSLY THE EXACT ISSUE (5 LIGHTS LUMINATED) FROM THE CUSTOMER SUPPORT PROGRAM, AND THEY HAVE TOLD ME THAT I WAS NOT NOTIFIED OF THE ISSUE BECAUSE MY VIN IS NOT INCLUDED IN THE PROGRAM. IT HAS BEEN DIAGNOSED WITH THE EXACT BREAK BOOSTER ISSUE LISTED IN THE LETTER SENT TO OTHER VIN NUMBERS. I DRIVE CHILDREN AROUND IN THIS CAR, AND THIS ISSUE IS SEVERE AND SHOULD CLEARLY BE FOR A LARGER NUMBER OF CARS THAN THEY ARE

ADMITTING. I HAVE NOW BEEN TOLD THAT THEY WILL NOT PAY FOR THE \$3,000 IN REPAIRS BECAUSE IT IS NOT INCLUDED. THIS IS UNACCEPTABLE. THIS IS A SAFETY HAZARD ON THE ROAD AND UNBELIEVABLE THAT I WOULD PAY EXTRA MONEY FOR A TOYOTA BECAUSE IT IS SUPPOSED TO BE A SAFE AND RELIABLE CAR, ONLY TO FIND OUT THEY WILL NOT ADMIT WHEN THEY HAVE A WIDESPREAD BREAK MANUFACTURING ISSUE WITH THEIR VEHICLES. MY ONLY RECOURSE THOUGH TOYOTA I AM TOLD IS TO MAKE A CASE NUMBER AND IF MY VIN HAPPENS TO BE ADDED TO THE LIST, THEY MAY REIMBURSE ME. THIS IS UNACCEPTABLE. TOYOTA NEEDS TO RECALL ALL VINS FOR THIS ISSUE, SO CONSUMERS ARE AWARE THAT THEIR BREAKS MAY FAIL AT ANY MOMENT.

INJURIES0

DEATHS0

MY 2012 PRIUS V IS ONLY 90K MILES. STARTING FROM ABOUT 2 WEEKS AGO, THE WARNING LIGHTS INCLUDING BRAKE SYSTEM WARNING LIGHT, ABS WARNING LIGHT AND SLIP INDICATOR LIGHT WERE SUDDENLY LIT ON WHEN I WAS DRIVING, THEN I FOUND THE REGENERATE BRAKE BECOME VERY HARD AND DIFFICULT TO STOP WHICH WAS MALFUNCTIONING. THESE WARNING LIGHTS WERE KEPT ON ALL THE TIME WHEN I DRIVE THE CAR. THE CAR THREW OUT CODE C1391 WHEN GIVEN A DIAGNOSIS. AFTER SOME ONLINE WORK, I FOUND THIS IS A VERY COMMON PROBLEM FOR PRIUS V. I WENT TO THE DEALERSHIP HOWEVER THE DEALERSHIP STATES THAT MY CAR, BASED ON ITS VIN, IS NOT IN ONE OF THE CERTAIN CARS COVERED BY ZJB PHASE 2 WHICH COVERS BRAKE BOOSTER AND BRAKE BOOSTER PUMP ASSEMBLIES FOR CERTAIN 2011-2015 MODEL YEAR PRIUS VEHICLES.

THE FAILURE OF THE BRAKE COULD BE A DEADLY DEFICIENCY TO ALL THE PEOPLE IN THE CAR WHEN DRIVING. NOW I HAVE TO THINK TO STOP USING THIS CAR BECAUSE OF THE SEVERE SECURITY RISK. TOYOTA SHOULD TAKE

ACTION TO SOLVE ALL THIS PROBLEM FOR ALL INVOLVED CARS, NOT CERTAIN CARS. MY CAR IS MADE IN 2012, THE DIAGNOSIS CODE C1391 GIVEN BY MY CAR ARE FALLING INTO ONE OF THE FOUR CODES ASSOCIATED WITH THE BRAKE PROBLEM COVERED BY ZJB PHASE 2. IT IS RIDICULOUS THAT MY CAR WAS NOT ISSUED THIS EXTENDED WARRANTY.

CAR EXPERIENCED GREATLY DIMINISHED BRAKING POWER ON INTERSTATE 75 PRIOR TO APPROACHING HEAVY TRAFFIC BACKED UP TO EXIT. MANY WARNING LIGHTS ILLUMINATED ON THE DASH: BRAKE, ABS, ETC. TOYOTA HAS ALREADY ISSUED A WARRANTY EXTENSION FOR THIS ISSUE FOR THE STANDARD MODEL PRIUS, AND I BELIEVE THIS IS A SAFETY HAZARD ON THE PRIUS V WAGON AS WELL.

WHILE PULLING INTO A PARKING SPACE (SPEED LESS THAN 5 MPH) AND APPLYING THE BRAKES THE PEDAL WENT TO THE FLOOR AND THE CAR SEEMED TO SPEED UP. THE CAR JUMPED THE CURB AND STRUCK A TREE. A GOOD SAMARITAN ASSISTED AND ACTUALLY GOT IN THE CAR AND FOUND THE BRAKE PEDAL WENT TO THE FLOOR. SHORTLY AFTER THE ACCIDENT THE BRAKES RETURNED TO NORMAL OPERATION. THIS IS THE SECOND TIME THAT THE CAR HAS EXPERIENCED SIMILAR PROBLEMS. IN 2014 WHILE PULLING INTO THE DRIVEWAY THE BRAKE PEDAL WENT TO THE FLOOR AND STRUCK THE HOUSE. SHORTLY AFTER THE BRAKES RETURNED TO NORMAL OPERATIONS. TOYOTA WAS NOTIFIED AND INSPECTED THE CAR'S COMPUTER AND BRAKING SYSTEM PER CASE NUMBER 1410012557. AFTER THE INSPECTION TOYOTA SAID THAT THERE WERE NO BRAKE ISSUES FOUND WITH THE CAR AND STATED THAT IT WAS SAFE TO DRIVE. OBVIOUSLY THERE IS AN ISSUE WITH THE BRAKING SYSTEM IN THESE CARS.

ON JAN. 3, 2018 WHILE MOVING AT A MINIMUM SPEED (LESS THAN 15 MPH) I APPLIED THE BRAKES AND SEVERAL WARNING LIGHTS ILLUMINATED (BRAKES, ABS, TRACTION CONTROL) ALONG WITH A WARNING SOUND. THIS WAS ON A CITY STREET, DRIVING IN A STRAIGHT LINE. I WAS ABLE TO BRAKE TO A STOP. I THEN ATTEMPTED TO CONTINUE TO DRIVE AT A VERY LOW SPEED BUT SOON LOST ALL ABILITY TO BRAKE THE VEHICLE AND I COASTED TO A STOP. I HAD THE VEHICLE TOWED TO A LOCAL TOYOTA DEALER. I WAS TOLD THE BRAKE ACTUATOR HAD FAILED AND WAS CHARGED \$3288 PLUS TAX FOR THE REPAIR. I RECEIVED THE CAR ON JAN. 9, 2018 FROM THE DEALER. ON JAN. 12, 2018 THE CAR FAILED ONCE AGAIN IN THE EXACT SAME MANNER. THE DEALER KEPT THE CAR UNTIL FEB. 1, 2018 AT WHICH TIME THEY RETURNED THE CAR TO ME AT NO CHARGE, STATING THEY HAD CHANGED THE SAME EXACT PART AS BEFORE. THE CAR HAS 84,000 MILES AND I PURCHASED IT NEW. I UNDERSTAND TOYOTA HAS ISSUED RECALLS FOR THIS ISSUE ON OTHER MODELS BUT NOT ON MY VEHICLE. I HAVE RETAINED MY REPAIR INVOICES BUT AM UNABLE TO UPLOAD THEM AT THIS TIME.

INJURIES0

DEATHS0

ON SUNDAY DECEMBER 17, 2017 AT ABOUT 3:00 PM I WAS DRIVING WITH MY FAMILY (WIFE AND TWO KIDS) IN SOUTH FLORIDA ON US HIGHWAY 1. THE WEATHER WAS CLEAR AND I WAS TRAVELING ABOUT 55 MPH. THEN WITHOUT ANY WARNING A NUMBER OF TROUBLE INDICATOR LIGHT ILLUMINATED ON THE DASH. WHEN THE LIGHTS CAME ON I WAS DRIVING IN A STRAIGHT LINE WITH JUST ENOUGH GAS PEDAL INPUT TO MAINTAIN MY 55 MPH SPEED. STARTLED BY THE LIGHTS I LIFTED MY FOOT OFF THE THROTTLE AND ATTEMPTED TO APPLY THE BRAKES. WHEN I ATTEMPTED TO APPLY THE BRAKE PEDAL I HAD LITTLE TO NO BRAKES AND I HAD TO "STAND ON THE BRAKE PEDAL" (PRESS IT AS HARD AS I COULD) TO GET THE CAR TO SLOW AND EVENTUALLY STOP WHILE PULLING ONTO THE SHOULDER OF THE ROAD. I WAS SCARED AND SHOCKED AT THE SAME TIME. I TURNED THE CAR OFF AND BACK ON THINKING IT MIGHT FIX THE PROBLEM. IT DID NOT. I WAS ABLE TO

GET THE CAR HOME AND THE VERY NEXT MORNING TOOK IT TO SOUTH DADE TOYOTA. I WAS ABLE TO GET IT HOME AND TO THE DEALER BY DRIVING VERY SLOW KEEPING A VERY LARGE SPACE CUSHION AND STANDING ON THE BRAKE PEDAL WHEN I NEEDED TO STOP. WHILE I DID NOT CRASH UNDERSTANDABLY I WAS SCARED BECAUSE YOU SHOULD NOT JUST LOSE BRAKES OUT OF THE BLUE. AT THE DEALER THEY INFORMED ME THAT THE BRAKE ACTUATOR FAILED AND NEEDED REPLACEMENT COSTING \$5734.94. I DID RESEARCH AND FOUND THAT TOYOTA ISSUED A WARRANTY EXTENSION ZG1 FOR THIS EXACT PROBLEM BUT WAS TOLD BY THE DEALER THAT MY VIN WAS NOT PART OF THE PROGRAM EVEN THOUGH MY VEHICLE EXPERIENCED THE EXACT PROBLEM. I REACHED OUT TO TOYOTA COOPERATE AND WHILE THEY AGREED THAT YES I HAD THE SAME PROBLEM MY VIN WAS NOT PART OF THE PROGRAM (THEY GAVE ME A CASE # 1712180647). HOWEVER THEY DID OFFER \$2207.57 AS A GOOD WILL GESTURE TOWARDS THE REPAIR. I PAID \$3527.37. TOYOTA KNOWS OF A LIFE SAFETY PROBLEM AND HAS CHOSEN TO LIMIT THE PROGRAM. MY MILEAGE WAS 106,451 AND UNDER THE PROGRAM WOULD HAVE BEEN COVERED.

NOVEMBER 4, 2017 - CAR WAS PARKED IN OUR DRIVEWAY. PUT THE CAR IN REVERSE TO BACK OUT OF OUR DRIVEWAY. THE BRAKES FAILED. NO MATTER HOW MANY TIMES THE BRAKE PEDAL WAS REPEATEDLY PUSHED DOWN, THE CAR JUST WOULD NOT STOP. IT ACTUALLY FELT LIKE THE CAR WAS ACCELERATING!

THE CAR RAN OVER OUR MAILBOX AT THE END OF OUR DRIVEWAY. THE MAILBOX GOT DRAGGED UNDER THE CAR AND THE CAR ROLLED OUT ONTO THE STREET. FINALLY, WE PUSHED IN THE POWER BUTTON AND THAT WAS HOW WE WERE ABLE TO GET THE CAR TO STOP.

OUR MAILBOX GOT TOTALED AND DAMAGE WAS DONE TO THE UNDERCARRIAGE OF OUR CAR, AS THERE IS TWISTED METAL HANGING DOWN SCRAPING THE GROUND. THE BRAKES STARTED TO WORK AGAIN A FEW MINUTES LATER, AS I WAS ABLE TO PULL IT BACK INTO THE DRIVEWAY OFF OF THE STREET.

ON SEPTEMBER 19, 2017 – CAR WAS PARKED IN A PARKING LOT. WHEN REVERSING OUT OF THE PARKING SPACE, THE BRAKES DID NOT WORK. AFTER REPEATEDLY PUMPING THE BRAKES, THEY FINALLY ENGAGED JUST BEFORE IT HIT A CAR PARKED BEHIND US. WE THOUGHT THIS WAS A FREAK ONE-TYPE EVENT, SO WE DIDN'T REPORT IT.

WHEN DRIVING ON UNEVEN GROUND, LIKE POT HOLES, THE BRAKES FAIL. LITERALLY IF YOU HAVE YOUR FOOT ON BRAKE WHEN DRIVING OVER A POT HOLE, YOU CAN FEEL THE BRAKES RELEASE AND THE CAR WON'T STOP. I'VE HAD SIMILAR ISSUES ON BUMPY GROUND. THE CAR HAS ALWAYS HAD THE PROBLEM SINCE I PURCHASED IT, PROBABLY ON A WEEKLY BASIS, AND I'VE WONDERED ABOUT THE SAFETY AND WHETHER IT'S JUST RELATED TO ABS. I'VE ALSO INQUIRED AT THE DEALERSHIP. LUCKILY, I'VE NEVER BEEN IN AN ACCIDENT BECAUSE OF THE PROBLEM. BUT, THIS WEEKEND MY FRIEND WITH A PRIUS HAD AN ACCIDENT BECAUSE OF THE PROBLEM, SO I DECIDED TO REPORT MY COMPLAINT.

I OWNED THIS VEHICLE SINCE BRAND NEW. IT HAD HAPPENED MORE THAN A DOZEN TIMES. WHEN GOING OVER BUMPS OR UNEVEN SURFACES, WITH THE

SAME PRESSURE APPLIED TO THE BREAK, THE 2012 PRIVUS FAILED TO STOP AND LURCHED SEVERAL FEET BEFORE STOPPING.

WE HAD AN INCIDENT THAT WE ALMOST RAN INTO PEDESTRIAN YESTERDAY WHEN THIS ISSUE OCCURS. THIS IS VERY CONCERNED TO MY FAMILY. WE BOUGHT THIS VEHICAL BACK TO THE DEALER SHIP WHERE WE PURCHASED IT.(EXPRESSWAY DORCHESTER TOYOTA IN MASSCHUSETTES) THEY SAID THEY COULD NOT FIX IT BECAUSE THEY COULD NOT REPRODUCED AT THE DEALSHIP. THE SERVICE OF MANAGER CLAIMED THIS IS WORKING AS DESIGNED FROM THE (TRACKING CONTROL). I FEEL THIS IS A FALSE STATEMENT, THIS DOES NOT HAPPENED TO MY OTHER CARS THAT HAS TRACTION CONTROL. TOYOTA SHOULD REALLY STARTING FIXING IT BEFORE SOMEONE GETS KILLED! *TR

I BEGAN EXPERIENCING WHAT I DESCRIBED TO THE DEALER AS A "HICCUP" IN MY BRAKES. I COMPLAINED OF THIS PROBLEM THE TWO TIMES I TOOK THE CAR IN FOR ROUTINE MAINTENANCE (FIRST AND NEXT SIX MONTHS), AND EACH TIME THEY FOUND "NO PROBLEM" WITH THE BRAKES. IT WAS NOT UNTIL THIS SNOWY ROUGH WINTER WITH ALL THE ATTENDANT POT HOLES IN THE STREET THAT I CORRELATED THIS BRAKING PROBLEM WITH UNEVEN PAVEMENT. I KNOW THIS HAPPENS WHEN MY RIGHT FRONT TIRE HITS A POT

HOLE, AND IT MAY HAPPEN WHEN ANY TIRE DOES, BUT IF I'M APPLY THE BRAKES - ESPECIALLY HITTING THE BRAKES AT THE MOMENT ONE TIRE DIPS INTO THE HOLE -THEY DO NOT ENGAGE AND IN FACT THERE'S A SLIGHT LURCH FORWARD, ALMOST AN ACCELERATION. THE CAR IS GOING TO THE SERVICE DEPARTMENT TOMORROW WITH THE HOPES THAT THE PROBLEM CAN BE LOCATED. THIS TRULY FEELS DANGEROUS TO DRIVE. *TR

INJURIES0

DEATHS0

I BOUGHT PRIUS V IN FEBRUARY 2012. I'VE NOTICED FEW TIMES ISSUES WITH BRAKES. WHILE DECELERATING WITH MY FOOT ON THE BRAKE PEDAL TO SLOW THE CAR TO A STOP AND IF THE CAR GOES OVER A POTHOLE OR SLIGHT BUMP ON THE ROAD THEN CAR ACCELERATES FORWARD BEFORE COMING TO A STOP. THIS IS SAFETY HAZARD SINCE IT ALMOST LED TO HITTING THE OTHER CAR'S REAR BUMPER.

ALSO, I'VE GOTTEN INTO AN ACCIDENT IN DECEMBER 2013 WHERE THERE WAS ANOTHER BRAKE ISSUE. I STOPPED MY CAR IN THE INCLINE ROAD BY PUTTING MY FOOT ON THE BRAKE PEDAL. THEN, I CHANGED THE GEAR SHIFT TO REAR AND SLOWLY TOOK MY FOOT OFF THE BRAKE PEDAL SO THAT I CAN BACK INTO THE STREET PARKING WHICH WAS ONLY ABOUT 4 TO 5 FEET AWAY. SUDDENLY, CAR SPED DOWN THE ROAD GOING REAR DIRECTION TO THE DIRECTLY OPPOSITE STREET AND HIT TWO PARKED CARS. I HAD PUT THE FOOT DOWN ON THE BRAKE PEDAL WHEN I NOTICED THE CAR GOING REAR FAST BUT IT WOULD NOT STOP THE CAR FROM GOING DOWN THE ROAD. I HAD NO CONTROL OVER THE CAR OR THE SPEED. THIS IS MAJOR SAFETY HAZARD SINCE SOMEONE COULD HAVE BEEN SERIOUSLY INJURED WITH LOSING CONTROL OF THE BRAKE AND ACCELERATION. I'VE OWNED OTHER TOYOTA CAR (CAMRY) BEFORE BUT NEVER HAD THIS ISSUE UNTIL THIS PRIUS V. MY CAR HAS BEEN IN BODY SHOP FOR OVER A MONTH WITH REPAIRS. I PLAN TO TAKE THE CAR TO THE TOYOTA DEALER TO CHECK OUT THIS BRAKE ISSUE.

MY CAR HAS AN ISSUE I FIRST NOTICED SOON AFTER I BOUGHT IT, AND THAT NOW HAPPENS AT LEAST TWICE A WEEK. THE DATE I'VE ENTERED IS THE APPROXIMATE FIRST DATE I NOTICED THE PROBLEM OCCUR. I DESCRIBE BELOW A MORE RECENT INSTANCE OF THE SAME BEHAVIOR, THE TIME WHEN IT FELT THE LEAST SAFE. /// THE RECURRING BEHAVIOR IS THAT WHILE DECELERATING WITH MY FOOT ON THE BRAKE PEDAL, IF THE CAR GOES OVER AN OBSTRUCTION LIKE A ROCK, A ROUGH PATCH OF ROAD, OR A POTHOLE, IT

SOMETIMES LURCHES FORWARD BEFORE RESUMING DECELERATION. THE SENSATION IS OF ACCELERATING, BUT EVEN IF IT'S ONLY THAT THE CAR MOMENTARILY STOPS DECELERATING IT'S DISCONCERTING AND IN A FEW INSTANCES HAS GOTTEN ME CLOSE TO AN ACCIDENT. /// THE TIME IT CAME CLOSEST TO CAUSING AN ACCIDENT WAS ON 3/21/13, WHEN I FEARED THE CAR WAS GOING TO ROLL INTO A CROSSWALK AS PEOPLE CROSSED. WITH MY FOOT ON THE BRAKE, COMING TO A STOP AT A STOP SIGN, WE WENT OVER UNEVEN PAVEMENT AND THE CAR LURCHED FORWARD WHILE ONLY A FEW FEET FROM THE CROSSWALK. SEVERAL PEOPLE WAITED CLOSE TO THE EDGE OF THE SIDEWALK AT A BUS STOP. ONE OF THEM SEEMED READY TO STEP OUT TO CROSS THE STREET, AND I BRACED FOR THE WORST. /// ULTIMATELY I STOPPED A FEW FEET BEFORE THE CROSSWALK, BUT THE SITUATION FELT COMPLETELY UNSAFE SINCE IT INVOLVED LOSING STOPPING POWER WHILE COMING TO A STOP SIGN WITH PEDESTRIANS PRESENT. *TR

1 Affected Product**Vehicle**

MAKE	MODEL	YEAR
TOYOTA	PRIUS V	2012

106. Toyota has long-standing and material knowledge of the Toyota Brake Defect. Upon information and belief, Toyota through (1) its own records of customers' complaints, (2) dealership repair records, (3) records from the National Highway Traffic Safety Administration ("NHTSA"), (4) warranty and post-warranty claims, (5) pre-sale durability testing and part sales, and (6) its earlier investigation of Prius automobile braking problems, was aware of the Toyota Brake Defect. In his NHTSA Petition, Mr. Hogan also reports having notified Toyota of the Toyota Brake Defect.

107. Toyota routinely monitors the internet for complaints similar in substance to those quoted below. Its customer relations department routinely monitors the internet for customer complaints, and it retains the services of third parties to do the same. Further, Toyota's customer relations division regularly receives and responds to customer calls concerning, *inter alia*,

product defects. Through these sources, Toyota knew about the defect. The NHTSA complaints also indicate Toyota's knowledge of the defect and the potential danger it poses to passengers and the general public.

108. Moreover, Toyota should have known about the Toyota Brake Defect because its customer relations department, which interacts with Toyota-authorized service technicians in order to identify potentially widespread vehicle problems and assist in diagnosing vehicle issues, has received numerous reports that the Toyota Brake Defect causes a sudden loss of braking power. Toyota's customer relations department also collects and analyzes field data including, but not limited to, repair requests made at dealerships and service centers, technical reports prepared by engineers that have reviewed vehicles for which warranty coverage is requested, parts sales reports, and warranty claims data.

109. Toyota's warranty department similarly reviews and analyzes warranty data submitted by its dealerships and authorized technicians in order to identify defect trends in its vehicles. Toyota dictates that when a repair is made under warranty (or warranty coverage is requested), service centers must provide Toyota with detailed documentation. Toyota also requires service centers to save the broken parts in case Toyota audits the dealership, or otherwise acts to verify the warranty repair. For their part, service centers are meticulous about providing this detailed information about in-warranty repairs because Toyota withholds payment for the repair if the complaint, cause, and correction are not sufficiently described.

110. Mr. Hogan further explains that "Toyota gets real-time transmissions of DTCs and freeze frame data from hybrids with failed brakes through the Techstream tool at its franchise dealerships." Toyota is well-aware of the scope of the problem, which is why it has refused to commence the necessary safety recall as it did in other, similar circumstances.

111. Toyota's knowledge can also be inferred because several NHTSA complaints reference that the manufacturer—Toyota—has been notified of consumers' concerns regarding the brake systems in the Class Vehicles.

112. Toyota's acts and omissions have unnecessarily put the safety of Class Members and the public in jeopardy. An operative brake system is necessary for safely operating the Class Vehicles.

113. Further, because of Toyota's unfair, deceptive, and/or fraudulent business practices, owners, and/or lessees of the Class Vehicles, including Plaintiffs, have suffered an ascertainable loss of money and/or property and/or loss in value. Toyota undertook these unfair and deceptive trade practices in a manner giving rise to substantial aggravating circumstances.

114. Had Plaintiffs known of the Toyota Brake Defect at the time of purchase or lease, they would not have bought the Vehicles, or they would have paid substantially less for the Vehicles.

115. As a result of the Toyota Brake Defect and the monetary costs associated with attempting to repair it, Plaintiffs and the other Class members have suffered injury in fact, incurred damages, and have otherwise been harmed by Toyota's conduct. Accordingly, Plaintiffs bring this action to redress Toyota's violations of the consumer protection statutes of Plaintiffs' states of residence, and also seek recovery for Toyota's breaches of express and implied warranty, breaches of the duty of good faith and fair dealing, and fraudulent concealment of material information about the Class Vehicles.

3. Toyota's Warranty-Related Practices

116. Toyota issued a Limited New Vehicle Warranty with each Class Vehicle.

117. Under the Limited New Vehicle Warranty, Toyota agreed to repair reported defects within the earlier of 3 years or 36,000 miles. The warranty manual provides that:

This warranty covers repairs and adjustments needed to correct defects in materials or workmanship of any part supplied by Toyota, subject to the exceptions indicated under “What Is Not Covered” on pages 14-15.

Coverage is for 36 months or 36,000 miles, whichever occurs first, with the exception of wheel alignment and wheel balancing, which are covered for 12 months or 20,000 miles, whichever occurs first.

118. Toyota instructs vehicle owners and lessees to bring their vehicles to a certified dealership for warranty repairs. Many owners and lessees have presented Class Vehicles to Toyota-certified dealerships with complaints related to the Toyota Brake Defect.

119. Toyota has evaded its warranty obligations by (1) failing to tell consumers that the Class Vehicles are defective and (2) refusing to perform repairs to correct the Toyota Brake Defect unless and until the Class vehicle has actually registered a DTC indicating a failure caused by the Toyota Brake Defect.

120. Indeed, Toyota acknowledged the Toyota Brake Defect when, on August 9, 2018, Toyota initiated Customer Support Program ZJB, covering 2010-2015 Toyota Prius and Prius HPV vehicles. Under this program, Toyota instructed its dealers to replace the brake booster and brake booster pump assemblies at no charge to the customer, regardless of age or mileage through November 30, 2019 (for 2010 Prius and Prius HPV vehicles) and through August 31, 2021 (for 2011-2015 Prius and 2012-2015 Prius HPV vehicles), and thereafter until 10 years from the date of first use or 150,000 miles, whichever occurs first, **BUT ONLY IF** one of four specific DTCs was stored in a vehicle’s memory, i.e. the brake system had experienced a malfunction during operation.

121. Remarkably, even though the Customer Support Program and the associated Technical Service Bulletin instructed dealers to replace the brake booster assembly with master cylinder and the brake booster pump assembly with new parts designated with new and different part numbers than the parts being replaced, Toyota explicitly instructed its dealers that if Toyota Prius owners had not experienced a brake system malfunction resulting from the Toyota Brake Defect, they were not to replace these parts. Instead, they were to instruct the customer to return for the necessary repairs *after* they experienced a malfunction.

122. Toyota even provided its dealers with a list of “Frequently Asked Questions” together with suggested answers, such as the following:

Q6: What if an owner HAS NOT experienced this condition but would like to have the repair completed?

A7: This Customer Support Program only applies to vehicles that have exhibited the condition described above. If an owner has not experienced the condition, he/she is asked to place the notification tear off slip in the Owners Manual for future reference.

123. More than a year later, Toyota initiated a second similar Customer Support Program ZKK, which expanded the brake booster and brake booster pump assembly repairs to 2012-2014 Toyota Camry Hybrid and 2013-2015 Toyota Avalon Hybrid vehicles. Just as with Customer Support Program ZJB, Toyota instructed its dealers to only replace the brake system parts if the vehicle had already experienced a malfunction of the brake system as indicated by the presence of one of the four DTCs stored in the vehicle’s memory.

124. Even more troubling, Toyota instructed dealers to inform owners they must contact a local authorized Toyota dealer for appropriate diagnosis and repair, but also make owners aware that “if the condition is not covered by this Customer Support Program, the customer may be responsible for the initial diagnostic fees.” Toyota included this warning in the Customer Support Program Notification it sent to all owners, stating, “Please be aware that, if the

condition is not covered by this Customer Support Program, you may be responsible for the initial diagnostic fees and any other repairs you may decide to have performed. Any authorized Toyota Dealership can determine if a condition is covered by this Customer Support Program.”

125. Finally, Toyota expressly warned its authorized dealers not to directly market these customer support programs, stating in its notice to dealers that “Direct marketing of this Customer Support Program is strictly prohibited pursuant to the Toyota Warranty Policy 5.21, ‘Warranty Solicitation.’ Non-compliance of this policy may result in a claim debit.”

126. According to Toyota’s own documents, there are 1,120,400 vehicles with brake boosters and brake booster assemblies covered by these two Customer Support Programs. That number represents 1,120,400 vehicle owners and lessees whom Defendants are requiring to wait to experience an *on-road brake malfunction* before Toyota will agree to replace the defective parts. And that number does not include owners and lessees of Prius vehicles, such as the Prius V, that are excluded from the Customer Support Program even today, despite the presence of a similar defect in their vehicles.

V. TOLLING OF STATUTES OF LIMITATIONS

127. Toyota’s knowing and active concealment and denial of the facts alleged herein act to toll any applicable statute(s) of limitations. Plaintiffs and other Class members could not have reasonably discovered the true, latent nature of the Toyota Brake Defect until shortly before commencing this class-action litigation.

128. In addition, even after Plaintiffs and other Class members contacted Toyota and/or its authorized dealers to repair the Toyota Brake Defect, Toyota and/or its dealers repeatedly and consistently told them the Class Vehicles were not defective.

129. Toyota has had, and continues to have, a duty to disclose to Plaintiffs and the other Class members the true character, quality, and nature of the Class Vehicles, including the facts that the Class Vehicles require costly repairs, pose safety concerns, and have a diminished resale value. As a result of Toyota's active concealment, any and all applicable statutes of limitations otherwise applicable to the allegations herein have been tolled.

VI. CLASS ALLEGATIONS

130. Plaintiffs bring this action on their own behalf, and on behalf of a nationwide class pursuant to Federal Rules of Civil Procedure, Rules 23(a), 23(b)(2), and/or 23(b)(3).

Nationwide Class:

All persons or entities in the United States who are current or former owners and/or lessees of a Class Vehicle.

131. In the alternative to the Nationwide Class, and pursuant to Federal Rules of Civil Procedure, Rule 23(c)(5), Plaintiffs seek to represent the following individual State Classes:

California Class

All persons or entities in the state of California who purchased or leased a Class Vehicle.

Colorado Class

All persons or entities in the state of Colorado who purchased or leased a Class Vehicle.

Florida Class

All persons or entities in the state of Florida who purchased or leased a Class Vehicle.

New Jersey Class

All persons or entities in the state of New Jersey who purchased or leased a Class Vehicle.

North Carolina Class:

All persons or entities in the state of North Carolina who purchased or leased a Class Vehicle.

132. Together, the Nationwide Class, and the State Classes shall be collectively referred to herein as the “Class.” Excluded from the Class are Toyota, its affiliates, employees, officers and directors, persons or entities that purchased the Class Vehicles for resale, and the Judge(s) assigned to this case. Plaintiffs reserve the right to modify, change, or expand the Class definitions based on discovery and further investigation.

133. **Numerosity:** Upon information and belief, the Class is so numerous that joinder of all members is impracticable. While the exact number and identities of individual members of the Class are unknown at this time, such information being in the Toyota’s sole possession and obtainable by Plaintiffs only through the discovery process, Plaintiffs believe, and on that basis allege, that hundreds of thousands of Class Vehicles have been sold and leased in states that are the subject of the Class.

134. **Existence and Predominance of Common Questions of Fact and Law:** Common questions of law and fact exist as to all members of the Class. These questions predominate over the questions affecting individual Class members. These common legal and factual questions include, but are not limited to, whether:

- a) The Class Vehicles were sold with the Toyota Brake Defect, and any and all related defects;
- b) Toyota knew about the Toyota Brake Defect but failed to disclose it and its consequences to its customers;
- c) A reasonable consumer would consider the Toyota Brake Defect or its consequences to be material;
- d) Toyota should be required to disclose the Toyota Brake Defect’s existence and its consequences; and

- e) Toyota's conduct violates the statutory and common-law provisions set forth in this Complaint.

135. **Typicality:** All of Plaintiffs' claims are typical of the claims of the Class because Plaintiffs purchased the Vehicles with the same brake system defect and defective vehicle design as other Class members. Furthermore, Plaintiffs and all Class members sustained monetary and economic injuries including, but not limited to, ascertainable losses arising out of Toyota's wrongful conduct. Plaintiffs advance the same claims and legal theories on behalf of themselves and all absent Class Members.

136. **Adequacy:** Plaintiffs adequately represent the Class because their interests do not conflict with the interests of the Class they seek to represent, they have retained counsel who are competent and highly experienced in complex class action litigation, and Plaintiffs intend to prosecute this action vigorously. Plaintiffs and their counsel are well-suited to fairly and adequately protect the interests of the Class.

137. **Superiority:** A class action is superior to all other available means of fairly and efficiently adjudicating the claims brought by Plaintiffs and the Class. The injury suffered by each individual Class member is relatively small in comparison to the burden and expense of individual prosecution of the complex and extensive litigation necessitated by Toyota's conduct. It would be virtually impossible for Class members on an individual basis to effectively redress the wrongs done to them. Even if Class members could afford such individual litigation, the courts cannot. Individualized litigation presents a potential for inconsistent or contradictory judgments. Individualized litigation also increases the delay and expense to all parties and to the court system, particularly where the subject matter of the case may be technically complex. By contrast, the class action device presents far fewer management difficulties, and provides the benefits of single adjudication, an economy of scale, and comprehensive supervision by a single

court. Upon information and belief, individual Class members can be readily identified and notified based on, *inter alia*, Toyota's vehicle identification numbers, warranty claims, registration records, and database of complaints.

138. Toyota has acted, and/or refused to act, on grounds generally applicable to the Class, thereby making appropriate final equitable relief with respect to the Class as a whole.

VII. CAUSES OF ACTION

A. Claims Brought on Behalf of the Nationwide Class, or alternatively, the State Classes

COUNT I

VIOLATIONS OF THE MAGNUSON-MOSS WARRANTY ACT

(15 U.S.C. § 2301, *et seq.*)

139. Plaintiffs and the Class incorporate by reference each preceding and succeeding paragraph as though fully set forth at length herein.

140. Plaintiffs bring this claim on behalf of themselves and on behalf of the Nationwide Class or, alternatively, on behalf of the State Classes.

141. Plaintiffs and the Class members are "consumers" within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. § 2301(3).

142. Toyota is a supplier and warrantor within the meaning of 15 U.S.C. §§ 2301(4)-(5).

143. The Class Vehicles, including Plaintiffs' vehicles, are "consumer products" within the meaning of 15 U.S.C. § 2301(1).

144. Toyota's 3 year/36,000 mile limited warranty is a "written warranty" within the meaning of 15 U.S.C. § 2301(6).

145. Toyota breached its express warranties by:

- a) Selling and leasing Class Vehicles with braking systems that are defective in materials and/or workmanship, requiring repair or replacement within the warranty period; and
- b) Refusing and/or failing to honor Plaintiffs' express warranties by repairing or replacing, free of charge, the brake booster pump assembly and/or other parts causing failure of the brake system in the Class Vehicles.

146. Plaintiffs and the other Class members relied on the existence and length of the express warranties in deciding whether to purchase or lease the Class Vehicles.

147. Toyota's breach of the express warranties has deprived Plaintiffs and the other Class Members of the benefit of their bargain.

148. The amount in controversy of each Plaintiff's individual claim meets or exceeds the sum or value of \$25.00. In addition, the amount in controversy meets or exceeds the sum or value of \$50,000 (exclusive of interests and costs) computed on the basis of all claims to be determined in this suit.

149. Toyota has been given reasonable opportunity to cure its breach of the written warranties. Alternatively, Plaintiffs and the other Class members are not required to do so because affording Toyota a reasonable opportunity to cure its breach of written warranties was, and is, futile. Toyota has long been on notice of the alleged defect from complaints and service requests it has received from Class members, as well as from their own warranty claims, customer complaint data, and/or parts sales data, and has made clear from its actions it has no intention of resolving the defect.

150. As a direct and proximate cause of Toyota's breach of its written warranties, Plaintiffs and Class members sustained damages and other losses in an amount to be determined at trial. Toyota's conduct damaged Plaintiffs and Class members, who are entitled to recover actual damages, consequential damages, specific performance, diminution in value, costs, including statutory attorney fees and/or other relief as deemed appropriate.

B. Claims Brought on Behalf of the California Class

COUNT II

VIOLATIONS OF THE CONSUMER LEGAL REMEDIES ACT ("CLRA")

(Cal. Civ. Code § 1750, *et seq.*)

151. Plaintiff Eun and the California Class incorporate by reference each preceding and succeeding paragraph as though fully set forth at length herein.

152. Toyota is a "person" as that term is defined in California Civil Code § 1761(c).

153. Plaintiff Eun and the California Class members are "consumers" as that term is defined in California Civil Code § 1761(d).

154. Toyota engaged in unfair and deceptive acts in violation of the CLRA by the practices described above, and by knowingly and intentionally concealing from Plaintiff Eun and California Class members that the Class Vehicles suffer from a defect(s) (and the costs, risks, and diminished value of the vehicles as a result of this problem). These acts and practices violate, at a minimum, the following sections of the CLRA:

- (a)(5) Representing that goods or services have sponsorships, characteristics, uses, benefits or quantities which they do not have, or that a person has a sponsorship, approval, status, affiliation or connection which he or she does not have;

- (a)(7) Representing that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another; and
- (a)(9) Advertising goods and services with the intent not to sell them as advertised.

155. Toyota's unfair or deceptive acts or practices occurred repeatedly in its trade or business, were capable of deceiving a substantial portion of the purchasing public, and imposed a serious safety risk on the public.

156. Toyota knew that the Class Vehicles' brake systems were defectively designed or manufactured, would fail prematurely, and were not suitable for their intended use.

157. Toyota had the duty to Plaintiff Chong and the California Class members to disclose the Toyota Brake Defect and the defective nature of the Class Vehicles because:

- a) Toyota was in a superior position to know the true state of facts about the Toyota Brake Defect and associated repair costs in the Class Vehicles;
- b) Plaintiff Eun and the California Class members could not reasonably have been expected to learn or discover that the Class Vehicles had dangerous defects until manifestation of the defects;
- c) Toyota knew that Plaintiff Eun and the California Class members could not reasonably have been expected to learn about or discover the Defect and its associated repair costs; and
- d) Toyota actively concealed the Defect, its causes, and resulting effects, by asserting to Plaintiff Eun and California Class members that their brake systems failed for reasons other than the Toyota Brake Defect.

158. In failing to disclose the Toyota Brake Defect and the associated safety risks and repair costs resulting from it, Toyota has knowingly and intentionally concealed material facts and breached its duty to disclose.

159. The facts Toyota concealed or did not disclose to Plaintiff Eun and the California Class members are material in that a reasonable consumer would have considered them to be important in deciding whether to purchase the Class Vehicles or pay a lesser price. Had Plaintiff Eun and the California Class known the Class Vehicles were defective, they would not have purchased the Class Vehicles or would have paid less for them.

160. Plaintiff Eun provided Toyota with notice of its CLRA violations pursuant to California Civil Code § 1782(a) on February 24, 2020, and currently seek injunctive relief. After the 30-day notice period expires, Plaintiff Eun will amend this complaint to seek monetary damages under the CLRA.

161. Toyota's fraudulent and deceptive business practices proximately caused injuries to Plaintiff Eun and the other California Class members. Therefore, Plaintiff Eun and the California Class members seek equitable relief under the CLRA.

COUNT III

VIOLATIONS OF THE CALIFORNIA UNFAIR COMPETITION LAW

(Cal. Bus. & Prof. Code § 17200, *et seq.*)

162. Plaintiff Eun and the California Class incorporate by reference each preceding and succeeding paragraph as though fully set forth at length herein.

163. The California Unfair Competition Law ("UCL") prohibits acts of "unfair competition," including any "unlawful, unfair or fraudulent business act or practice" and "unfair, deceptive, untrue or misleading advertising." Cal. Bus. & Prof. Code § 17200.

164. Toyota has engaged in unfair competition and unfair, unlawful, or fraudulent business practices by the conduct, statements, and omissions described above, and by knowingly and intentionally concealing from Plaintiff Eun and the California Class members that the Class Vehicles suffer from the Toyota Brake Defect (and the costs, safety risks, and diminished value of the vehicles as a result of these problems). Toyota should have disclosed this information because it was in a superior position to know the true facts related to the Toyota Brake Defect, and Plaintiff Eun and California Class members could not have been reasonably expected to learn or discover these true facts.

165. The Toyota Brake Defect constitutes a safety issue triggering Toyota's duty to disclose.

166. By its acts and practices, Toyota has deceived Plaintiff Eun and is likely to have deceived the California Class members and the general public. In failing to disclose the Toyota Brake Defect and suppressing other material facts from Plaintiff Eun and other California Class members, Toyota breached its duty to disclose these facts, violated the UCL, and caused injuries to Plaintiff Eun and the California Class members. Toyota's omissions and acts of concealment pertained to information material to Plaintiff Eun and other California Class members, as it would have been to all reasonable consumers.

167. The injuries Plaintiff Eun and the California Class members suffered greatly outweigh any potential countervailing benefit to consumers or to competition, and they are not injuries that Plaintiff Eun and the Class members could or should have reasonably avoided.

168. Toyota's acts and practices are unlawful because they violate California Civil Code §§ 1668, 1709, 1710, and 1750 *et seq.*, and California Commercial Code § 2313.

169. Plaintiff Eun and the California Class members seek to enjoin Toyota from further unlawful, unfair, and/or fraudulent acts or practices, to obtain restitutionary disgorgement of all monies and revenues Toyota has generated as a result of such practices, and all other relief allowed under California Business & Professions Code § 17200.

COUNT IV

VIOLATION OF CALIFORNIA FALSE ADVERTISING LAW

(Cal. Bus. & Prof. Code § 17500, *et seq.*)

170. Plaintiff Eun and the California Class members incorporate by reference each preceding and succeeding paragraph as though fully set forth at length herein.

171. California Business & Professions Code § 17500 states: “It is unlawful for any . . . corporation . . . with intent directly or indirectly to dispose of real or personal property . . . to induce the public to enter into any obligation relating thereto, to make or disseminate or cause to be made or disseminated . . . from this state before the public in any state, in any newspaper or other publication, or any advertising device, . . . or in any other manner or means whatever, including over the Internet, any statement . . . which is untrue or misleading, and which is known, or which by the exercise of reasonable care should be known, to be untrue or misleading.

172. Toyota caused to be made or disseminated through California and the United States, through advertising, marketing, and other publications, statements that were untrue or misleading, and which were known, or which by the exercise of reasonable care Toyota should have known to be untrue and misleading to consumers, including Plaintiffs Eun and the California Class members.

173. Toyota has violated section 17500 because its misrepresentations and omissions regarding the safety, reliability, and functionality of the Class Vehicles were material and likely to deceive a reasonable consumer.

174. Plaintiff Eun and the California Class members have suffered injuries in fact, including the loss of money or property, resulting from Toyota's unfair, unlawful, and/or deceptive practices. In purchasing or leasing their Class Vehicles, Plaintiff Eun and the California Class members relied on Toyota's misrepresentations and/or omissions with respect to the Class Vehicles' safety and reliability. Toyota's representations were untrue because it distributed the Class Vehicles with the Toyota Brake Defect. Had Plaintiff Eun and the California Class members known this, they would not have purchased or leased the Class Vehicles, or would not have paid as much for them. Accordingly, Plaintiff Eun and the California Class members did not receive the benefit of their bargain.

175. All of the wrongful conduct alleged herein occurred, and continues to occur, in the conduct of Toyota's business. Toyota's wrongful conduct is part of a pattern or generalized course of conduct that is still perpetuated and repeated, both in the state of California and nationwide.

176. Plaintiff Eun, individually and on behalf of the California Class members, request that the Court enter such orders or judgments as may be necessary to enjoin Toyota from continuing its unfair, unlawful, and/or deceptive practices, and restore to Plaintiff Eun and the California Class members any money Toyota acquired by unfair competition, including restitution and/or restitutionary disgorgement, and for such other relief set forth below.

COUNT V

BREACH OF EXPRESS WARRANTY

(Based on California Law)

177. Plaintiff Eun and the California Class members incorporate by reference each preceding and succeeding paragraph as though fully set forth at length herein.

178. Toyota provided all purchasers and lessees of the Class Vehicles with the express warranties described herein, which became part of the basis of the parties' bargain. Accordingly, Toyota's warranties are express warranties under state law.

179. Toyota distributed the defective parts causing the Toyota Brake Defect in the Class Vehicles, and said parts are covered by Toyota's warranties granted to all purchasers and lessees of the Class Vehicles.

180. Toyota breached these warranties by selling and leasing Class Vehicles with the Toyota Brake Defect, requiring repair or replacement within the applicable warranty periods, and refusing to honor the warranties by providing free repairs or replacements during the applicable warranty periods.

181. Plaintiff Eun notified Toyota of its breach within a reasonable time, and/or he was not required to do so because affording Toyota a reasonable opportunity to cure its breaches would have been futile. Toyota also knew about the Toyota Brake Defect but chose to conceal it as a means of avoiding compliance with its warranty obligations.

182. As a direct and proximate cause of Toyota's breach, Plaintiff Eun and the California Class members bought or leased Class Vehicles they otherwise would not have, overpaid for their vehicles, did not receive the benefit of their bargain, and their Class Vehicles

suffered a diminution in value. Plaintiff Eun and the California Class members have incurred and will continue to incur costs related to the Toyota Brake Defect's diagnosis and repair.

183. Any attempt to disclaim or limit these express warranties vis-à-vis consumers is unconscionable and unenforceable under the circumstances here. Specifically, Toyota's warranty limitations are unenforceable because it knowingly sold a defective product without giving notice to Plaintiff Eun or California Class Members.

184. The time limits contained in Toyota's warranty period were also unconscionable and inadequate to protect Plaintiff Eun and the California Class members. Among other things, Plaintiff Eun and the California Class members had no meaningful choice in determining these time limitations, the terms of which unreasonably favored Toyota. A gross disparity in bargaining power existed between Toyota and the California Class members because Toyota knew or should have known that the Class Vehicles were defective at the time of sale and would fail well before their useful lives.

185. Plaintiff Eun and the California Class members have complied with all obligations under the warranty, or otherwise have been excused from performance of said obligations as a result of Toyota's conduct.

COUNT VI
BREACH OF IMPLIED WARRANTY
(Based on California Law)

186. Plaintiff Eun and the California Class members incorporate by reference each preceding and succeeding paragraph as though fully set forth at length herein.

187. Toyota was at all relevant times the manufacturer, distributor, warrantor, and/or seller of the Class Vehicles. Toyota knew or had reason to know of the specific use for which the Class Vehicles were purchased.

188. Toyota provided Plaintiff Eun and the California Class members with an implied warranty that the Class Vehicles and any parts thereof are merchantable and fit for the ordinary purposes for which they were sold. However, the Class Vehicles are not fit for their ordinary purpose of providing reasonably reliable and safe transportation at the time of sale or thereafter because, inter alia, the Class Vehicles suffered from the Toyota Brake Defect at the time of sale. Therefore, the Class Vehicles are not fit for their particular purpose of providing safe and reliable transportation.

189. Toyota implied that the Class Vehicles were of merchantable quality and fit for such use. This implied warranty included, among other things: (i) a warranty that the Class Vehicles and their brake systems manufactured, supplied, distributed, and/or sold by Toyota were safe and reliable for the purpose for which they were installed; and (ii) a warranty that the Class Vehicles would be fit for their intended use.

190. Contrary to the applicable implied warranties, the Class Vehicles at the time of sale and thereafter were not fit for their ordinary and intended purpose of providing Plaintiffs

Eun and the California Class members with reliable, durable, and safe transportation. Instead, the Class Vehicles suffer from a defective design(s) and/or manufacturing defect(s).

191. Toyota's actions, as complained of herein, breached the implied warranty that the Class Vehicles were of merchantable quality and fit for such use.

COUNT VII

COMMON LAW FRAUDULENT CONCEALMENT

(Based on California Law)

192. Plaintiff Eun and the California Class incorporate by reference each preceding and succeeding paragraph as though fully set forth at length herein.

193. Toyota made material omissions concerning a presently existing or past fact. For example, Toyota did not fully and truthfully disclose to its customers the true nature of the Toyota Brake Defect, which was not readily discoverable to them until years later. As a result, Plaintiff Eun and the California Class members were fraudulently induced to lease and/or purchase the Class Vehicles with the Toyota Brake Defect and all problems resulting from it.

194. Toyota made these statements with knowledge of their falsity, intending that Plaintiff Eun and the California Class members rely on them.

195. As a result of these omissions and concealments, Plaintiff Eun and the California Class members incurred damages including loss of intrinsic value and out-of-pocket costs related to repair of the systems.

196. Plaintiff Eun and the California Class members reasonably relied on these omissions and suffered damages as a result.

COUNT VIII

VIOLATIONS OF THE SONG-BEVERLY ACT – BREACH OF IMPLIED WARRANTY

(Cal. Civ. Code §§ 1792, 1791.1, *et seq.*)

197. Plaintiff Eun and the California Class members incorporate by reference each preceding and succeeding paragraph as though fully set forth at length herein.

198. At all relevant times hereto, Toyota was the manufacturer, distributor, warrantor, and/or seller of the Class Vehicles. Toyota knew or should have known of the specific use for which the Class Vehicles were purchased.

199. Toyota provided Plaintiff Eun and the California Class members with an implied warranty that the Class Vehicles, and any parts thereof, are merchantable and fit for the ordinary purposes for which they were sold. The Class Vehicles, however, are not fit for their ordinary purpose because, inter alia, the Class Vehicles suffered from an inherent defect at the time of sale.

200. The Class Vehicles are not fit for the purpose of providing safe and reliable transportation because of the Toyota Brake Defect.

201. Toyota impliedly warranted that the Class Vehicles were of merchantable quality and fit for such use. This implied warranty included, inter alia, the following: (i) a warranty that the Class Vehicles were manufactured, supplied, distributed, and/or sold by Toyota were safe and reliable for providing transportation; and (ii) a warranty that the Class Vehicles would be fit for their intended use—providing safe and reliable transportation—while the Class Vehicles were being operated.

202. Contrary to the applicable implied warranties, the Class Vehicles were not fit for their ordinary and intended purpose. Instead, the Class Vehicles are defective, including, but not limited to, the Toyota Brake Defect.

203. Toyota's actions, as complained of herein, breached the implied warranty that the Class Vehicles were of merchantable quality and fit for such use in violation of California Civil Code §§ 1792 and 1791.1.

C. Claims Brought on Behalf of the Colorado Class

COUNT IX

VIOLATIONS OF THE COLORADO CONSUMER PROTECTION ACT

(Col. Rev. Stat. § 6-1-101, et seq.)

204. Plaintiff Owens and the Colorado Class members incorporate the allegations set forth above as if fully set forth herein.

205. Defendants are "persons" under § 6-1-102(6) of the Colorado Consumer Protection Act ("Colorado CPA"), Col. Rev. Stat. § 6-1-101 *et seq.*

206. Plaintiff Owens and the Colorado Class members are "consumers" for purposes of § 6-1-113(1)(a) of the Colorado CPA, each of whom purchased or leased one or more Class Vehicles.

207. In the course of their business, Defendants participated in deceptive trade practices that violated the Colorado CPA, as described above and below. Defendants each are directly liable for these violations of law.

208. Defendants failed to disclose and actively concealed the dangerous risk of brake failure in the Class Vehicles.

209. Defendants engaged in deceptive trade practices prohibited by the Colorado CPA, including (1) knowingly making a false representation as to the characteristics, uses, and benefits of the Class Vehicles that had the capacity or tendency to deceive Plaintiff Owens and the Colorado Class members; (2) representing that the Class Vehicles are of a particular standard, quality, and grade even though Defendants knew or should have known they are not; (3) advertising the Class Vehicles with the intent not to sell them as advertised; and (4) failing to disclose material information concerning the Class Vehicles that was known to Defendants at the time of advertisement or sale with the intent to induce Plaintiff Owens and the Colorado Class members to purchase or lease the Defective Vehicles.

210. Defendants knew that the brake system in the Class Vehicles was defectively designed or manufactured, would fail without warning, and was not suitable for its intended use. Defendants nevertheless failed to warn Plaintiff Owens or the Colorado Class members about these inherent dangers despite having a duty to do so.

211. Defendants' practices significantly affected the public as consumers of the Class Vehicles, which pose an unreasonable risk of death or serious bodily injury to Plaintiff Owens and the Colorado Class members, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of brake failure.

212. Whether or not a vehicle's brake systems work properly is a fact a reasonable consumer would consider important in selecting a vehicle to purchase or lease. When Plaintiff Owens and the Colorado Class members bought a Class Vehicle for personal, family, or household purposes, they reasonably expected the vehicle would have non-defective brakes.

213. Defendants' deceptive practices were likely to and did in fact deceive reasonable consumers, including Plaintiff Owens and the Class members, about the true safety and reliability of the Class Vehicles.

214. Plaintiff Owens and the Colorado Class members suffered injury-in-fact to their legally protected property interests as a result of Defendants' violations of the Colorado CPA. Plaintiffs currently own or lease, or within the class period have owned or leased, the defective Class Vehicles.

215. Pursuant to § 6-1-113(2) of the Colorado CPA, Plaintiff Owens and the Colorado Class members seek monetary relief against Defendants measured as the greater of (a) the amount of actual damages sustained, (b) statutory damages in the amount of \$500 for each Plaintiff, and/or (c) three times the amount of actual damages based on Defendants' bad faith conduct.

COUNT X

BREACH OF EXPRESS WARRANTY

(Col. Rev. Stat. § 4-2-313)

216. Plaintiff Owens and the Colorado Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

217. Toyota is and was at all relevant times a merchant with respect to motor vehicles.

218. In the course of selling the Class Vehicles, Defendants expressly warranted in writing that the vehicles were covered by a Basic Warranty.

219. Defendants breached the express warranty to repair and adjust to correct defects in materials and workmanship of any part supplied by Toyota. Defendants have not repaired or

adjusted, and have been unable to repair or adjust, the Class Vehicles' materials and workmanship defects.

220. Furthermore, the limited warranty of repair and/or adjustments to defective parts, fails in its essential purpose because the contractual remedy is insufficient to make the Plaintiff Owens and the Colorado Class members whole and because Defendants have failed and/or have refused to adequately provide the promised remedies within a reasonable time.

221. Accordingly, recovery by Plaintiff Owens and the Colorado Class members is not limited to the limited warranty of repair or adjustments to parts defective in materials or workmanship, and thus Plaintiff Owens and the Colorado Class members seek all remedies as allowed by law.

222. Also, as alleged in more detail herein, at the time that Defendants warranted and sold the vehicles they knew that the vehicles did not conform to the warranties and were inherently defective, and Defendants wrongfully and fraudulently misrepresented and/or concealed material facts regarding their vehicles. Plaintiff Owens and the Colorado Class members were therefore induced to purchase the vehicles under false and/or fraudulent pretenses. The enforcement under these circumstances of any limitations whatsoever precluding the recovery of incidental and/or consequential damages is unenforceable.

223. Due to the breach of warranties set forth herein, Plaintiff Owens and the Colorado Class members assert as an additional and/or alternative remedy, as set forth in Col. Rev. Stat. § 4-2-711, for a revocation of acceptance of the goods, and for a return to Plaintiff Owens and to the Colorado Class members of the purchase price of all vehicles currently owned and for such other incidental and consequential damages as allowed under Col. Rev. Stat. §§ 4-2-711 and 4-2-608.

224. Defendants have received notice of these issues through numerous complaints, as alleged herein.

225. As a direct and proximate result of Defendants' breaches of their express warranties, Plaintiff Owens and the Colorado Class members have been damaged in an amount to be determined at trial.

COUNT XI

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY

(Col. Rev. Stat. § 4-2-314)

226. Plaintiff Owens and the Colorado Class members incorporate by reference and reallege all paragraphs alleged herein.

227. Defendants are and have been at all relevant times merchants with respect to motor vehicles under Col. Rev. Stat. § 4-2-104.

228. A warranty that the Class Vehicles were in merchantable condition was implied by law in the instant transaction, pursuant to Col. Rev. Stat. § 4-2-314.

229. The Class Vehicles, when sold and at all times thereafter, were not in merchantable condition and are not fit for the ordinary purpose for which cars are used. Specifically, the Class Vehicles are inherently defective in that their brake systems are defective.

230. Toyota was provided notice of these issues by numerous complaints as alleged previously herein.

231. As a direct and proximate result of Defendants' breaches of the warranties of merchantability, Plaintiff Owens and the other Colorado Class members have been damaged in an amount to be proven at trial.

COUNT XII

BREACH OF COMMON LAW WARRANTY

(Based on Colorado Law)

232. Plaintiff Owens and the Colorado Class members incorporate by reference and reallege all paragraphs as though fully set forth herein.

233. To the extent Defendants' repair or adjust commitment is deemed not to be a warranty under Colorado's Uniform Commercial Code provisions, Plaintiff Owens and the Colorado Class members plead in the alternative under common law warranty and contract law. Defendants limited the remedies available to Plaintiff Owens and the Colorado Class members to just repairs and adjustments needed to correct defects in materials or workmanship of any part supplied by Toyota. Defendants breached this warranty or contract obligation by failing to repair the Defective Vehicles evidencing a sudden unintended acceleration problem, including those that were recalled, or to replace them.

234. As a direct and proximate result of Defendants' breach of contract or common law warranty, Plaintiff Owens and the Colorado Class members have been damaged in an amount to be proven at trial, which shall include, but is not limited to, all compensatory damages, incidental and consequential damages, and other damages allowed by law.

COUNT XIII

FRAUD BY CONCEALMENT

(Based on Colorado Law)

235. Plaintiff and the Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

236. As set forth above, Defendants concealed and/or suppressed material facts concerning the safety of their vehicles that in equity and good conscience should be disclosed.

237. Defendants had a duty to disclose these safety issues because they consistently marketed their vehicles as safe and proclaimed that safety is one of their highest corporate priorities. Once Defendants made representations to the public about safety, they adopted the duty to disclose these omitted facts.

238. In addition, Defendants had a duty to disclose these omitted material facts because they were known and/or accessible only to Defendants, and Defendants knew they were not known to or reasonably discoverable by Plaintiff and the Colorado Class members.

239. The omitted facts were material because they directly impact the safety of the Class Vehicles.

240. Defendants actively and knowingly concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff and the Colorado Class members to purchase the Class Vehicles at a higher price than Plaintiff and the Class Colorado members otherwise would have paid had they been told the information.

241. Defendants still have not made full and adequate disclosure and continue to defraud Plaintiff and the Colorado Class members

242. Plaintiff and the Colorado Class members were unaware of these omitted material facts and would not have acted as they did if they had known of the concealed and/or suppressed facts. The actions of Plaintiffs and the Colorado Class members were justified. Defendants were in exclusive control of the material facts and such facts were not known to Plaintiff, the Colorado Class members, or the general public.

243. As a result of the concealment and/or suppression of the facts, Plaintiff and the Colorado Class members sustained damage. Plaintiff and the Colorado Class members reserve their right to elect either to (a) rescind their purchase or lease of the Class Vehicles and obtain restitution or (b) affirm their purchase or lease of the Class Vehicles and recover damages.

244. Defendants' acts were done fraudulently, maliciously, or willfully for purposes of Col. Rev. Stat. § 13-21-102. Defendants' conduct warrants an assessment of exemplary damages in an amount equal to the amount of the actual damages awarded to Plaintiff and the Class members.

COUNT XIV

UNJUST ENRICHMENT

(Based On Colorado Law)

245. Plaintiff Owens and the Colorado Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

246. As a result of their wrongful and fraudulent acts and omissions, as set forth above, Defendants charged a higher price for the Class Vehicles than Plaintiff Owens and the Colorado Class members would have paid had they had the information Defendants withheld from them.

247. For these reasons, Defendants obtained monies which rightfully belong to Plaintiff Owens and the Colorado Class. It would be inequitable and unjust for Defendants to retain these wrongfully obtained profits.

248. Plaintiff Owens, therefore, seeks an order establishing Defendants as constructive trustees of the profits unjustly obtained, plus interest.

D. Claims Brought on Behalf of the Florida Class

COUNT XV

VIOLATION OF FLORIDA UNFAIR & DECEPTIVE TRADE PRACTICES ACT

(Fla. Stat. § 501.201, *et seq.*)

249. Plaintiffs Siegal, Vasquez, Vasquez, and the Florida Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

250. Defendants' actions as set forth herein constitutes unfair or deceptive acts or practices, including, but not limited to their manufacture and sale of vehicles with a sudden acceleration defect that lack brake-override or other effective fail-safe mechanisms, which Defendants failed to adequately investigate, disclose and remedy, and its misrepresentations and omissions regarding the safety and reliability of its vehicles.

251. Defendants' actions as set forth above occurred in the conduct of trade or commerce.

252. Defendants' actions impact the public interest because Plaintiff Siegal and the Florida Class members were injured in exactly the same way as millions of others purchasing and/or leasing the Class Vehicles as a result of Defendants' generalized course of deception. All of the wrongful conduct alleged herein occurred, and continues to occur, in the conduct of Defendants' business.

253. Plaintiffs and the Florida Class members were injured as a result of Defendants' conduct. Plaintiffs and Florida Class members overpaid for the Class Vehicles and did not receive the benefit of their bargain, as the Class Vehicles have suffered a diminution in value.

254. Defendants' conduct proximately caused the injuries to Plaintiffs and the Florida Class members.

255. Defendants are liable to Plaintiffs and the Florida Class members for damages in amounts to be proven at trial, including attorneys' fees, costs, and treble damages.

256. Pursuant to Fla. Stat. § 501.201, Plaintiffs will serve the Florida Attorney General with a copy of this complaint because they seek injunctive relief.

COUNT XVI

BREACH OF EXPRESS WARRANTY

(Fla. Stat. § 672.313)

257. Plaintiffs Siegal, Vasquez, Vasquez, and the Florida Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

258. Defendants are and were at all relevant times merchants with respect to the sale of motor vehicles.

259. In the course of selling the Class Vehicles, Defendants expressly warranted in writing that the Class Vehicles were covered by a warranty.

260. Defendants breached the express warranty to repair and adjust to correct defects in materials and workmanship of any part supplied by Toyota. Defendants have not repaired or adjusted, and have been unable to repair or adjust, the Class Vehicles' materials and workmanship defects.

261. In addition to the written warranties Defendants issued, Defendants expressly warranted several attributes, characteristics, and qualities, as set forth above.

262. Furthermore, the limited warranty of repair and/or adjustments to defective parts, fails in its essential purpose because the contractual remedy is insufficient to make Plaintiffs and the Florida Class members whole and because Defendants have failed and/or have refused to adequately provide the promised remedies within a reasonable time.

263. Accordingly, recovery by Plaintiffs and the Florida Class members is not limited to the limited warranty of repair or adjustments to parts defective in materials or workmanship, and Plaintiffs and the Florida Class members seek all remedies as allowed by law.

264. Also, as alleged in more detail herein, at the time that Defendants warranted and sold the vehicles they knew that the vehicles did not conform to the warranties and were inherently defective, and Defendants wrongfully and fraudulently misrepresented and/or concealed material facts regarding their vehicles. Plaintiffs and the Florida Class members were therefore induced to purchase the Class Vehicles under false and/or fraudulent pretenses.

265. Moreover, many of the damages flowing from the Class Vehicles cannot be resolved through the limited remedy of “replacement or adjustments,” as those incidental and consequential damages have already been suffered due to Defendants’ fraudulent conduct as alleged herein, and due to their failure and/or continued failure to provide such limited remedy within a reasonable time, and any limitation on Plaintiffs and the Florida Class members’ remedies would be insufficient.

266. Defendants have been provided notice of these issues by numerous complaints as described herein. As a direct and proximate result of Defendants’ breach of express warranties, Plaintiffs and the Florida Class members have been damaged in an amount to be determined at trial.

COUNT XVII

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY

(Fla. Stat. § 672.314)

267. Plaintiffs Siegal, Vasquez, Vazquez, and the Florida Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

268. Defendants are and were at all relevant times merchants with respect to motor vehicles.

269. A warranty that the Class Vehicles were in merchantable condition is implied by law in the instant transactions, pursuant to Fla. Stat. § 672.316.

270. These vehicles, when sold and at all times thereafter, were not in merchantable condition and are not fit for the ordinary purpose for which cars are used. Specifically, the Class Vehicles are inherently defective.

271. Defendants were provided notice of these issues by numerous complaints as alleged herein.

272. Plaintiffs and the Florida Class members have had sufficient dealings with either the Defendants or their agents (dealerships) to establish privity of contract between Plaintiffs and the Florida Class members. Notwithstanding this, privity is not required in this case because Plaintiffs and the Florida Class members are intended third-party beneficiaries of contracts between Toyota and its dealers; specifically, they are the intended beneficiaries of Defendants' implied warranties. The dealers were not intended to be the ultimate consumers of the Class Vehicles and have no rights under the warranty agreements provided with the Class Vehicles; the warranty agreements were designed for and intended to benefit the ultimate consumers only.

273. Finally, privity is also not required because the Class Vehicles are dangerous instrumentalities due to the aforementioned defects and nonconformities.

274. As a direct and proximate result of Defendants' breach of the warranties of merchantability, Plaintiffs and the Florida Class members have been damaged in an amount to be proven at trial.

COUNT XVIII

BREACH OF CONTRACT/COMMON LAW WARRANTY

(Based on Florida Law)

275. Plaintiffs Siegal, Vasquez, Vasquez and the Florida Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

276. To the extent Defendants' repair or adjust commitment is deemed not to be a warranty under Florida's Commercial Code, Plaintiffs and the Florida Class members plead in the alternative under common law warranty and contract law theories Defendants limited the remedies available to Plaintiffs and the Florida Class members to just repairs and adjustments needed to correct defects in materials or workmanship of any part supplied by Toyota, and/or warranted the quality or nature of those services to Plaintiffs.

277. Defendants breached this warranty or contract obligation by failing to repair the Class Vehicles evidencing a sudden unintended acceleration problem, including those that were recalled, or to replace them.

278. As a direct and proximate result of Defendants' breach of contract or common law warranty, Plaintiffs and the Florida Class members have been damaged in an amount to be proven at trial, which shall include, but is not limited to, all compensatory damages, incidental and consequential damages, and other damages allowed by law.

COUNT XIX

FRAUD BY CONCEALMENT

(Based on Florida Law)

279. Plaintiffs Siegal, Vasquez, Vasquez, and the Florida Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

280. As a direct and proximate result of Defendants' breach of contract or common law warranty, Plaintiffs and the Class members have been damaged in an amount to be proven at trial, which shall include, but is not limited to, all compensatory damages, incidental and consequential damages, and other damages allowed by law.

281. Plaintiffs and the Florida Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

282. Defendants had a duty to disclose these safety issues because they consistently marketed their vehicles as safe and proclaimed that safety is one of Toyota's highest corporate priorities. Once Defendants made representations to the public about safety, Defendants were under a duty to disclose these omitted facts, because where one does speak one must speak the whole truth and not conceal any facts which materially qualify those facts stated. One who volunteers information must be truthful, and the telling of a half-truth calculated to deceive is fraud.

283. In addition, Defendants had a duty to disclose these omitted material facts because they were known and/or accessible only to Defendants who have superior knowledge and access to the facts, and Defendants knew they were not known to or reasonably discoverable by Plaintiffs and the Florida Class members. These omitted facts were material because they directly impact the safety of the Class Vehicles.

284. Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiffs and the Florida Class members to purchase the Class Vehicles at a higher price than they otherwise would have paid.

285. Defendants still have not made full and adequate disclosure and continue to defraud Plaintiffs and the Florida Class members.

286. Plaintiffs and the Florida Class members were unaware of these omitted material facts and would not have acted as they did if they had known of the concealed and/or suppressed facts. The actions of Plaintiffs and the Florida Class members were justified. Defendants were in exclusive control of the material facts and such facts were not known to the Plaintiffs, members of the Florida Class, or to members of the general public.

287. Defendants' acts were done maliciously, oppressively, deliberately, with intent to defraud, and in reckless disregard of the rights of Plaintiffs and the Florida Class members. Defendants' conduct warrants an assessment of punitive damages in an amount sufficient to deter such conduct in the future, which amount is to be determined according to proof.

COUNT XX

UNJUST ENRICHMENT

(Based on Florida Law)

288. Plaintiffs Siegal, Vasquez, Vasquez, and the Florida Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

289. Defendants had knowledge of the safety defects in the Class Vehicles, which it failed to disclose to Plaintiffs and the Florida Class members.

290. As a result of their wrongful and fraudulent acts and omissions, as set forth above, pertaining to the design defect of their vehicles and the concealment of the defect, Defendants charged a higher price for the Class Vehicles than Plaintiffs and the Florida Class members

otherwise would have paid, and Defendants obtained monies which rightfully belong to Plaintiffs and the Florida Class members.

291. Defendants appreciated, accepted, and retained the non-gratuitous benefits conferred by Plaintiffs and the Florida Class members, who without knowledge of the safety defects paid a higher price for vehicles than they otherwise would have paid. It would be inequitable and unjust for Defendants to retain these wrongfully obtained profits.

292. Therefore, Plaintiffs and the Florida Class members are entitled to restitution and an order establishing Toyota as constructive trustees of the profits unjustly obtained, plus interest.

E. Claims Brought on Behalf of the New Jersey Class

COUNT XXI

VIOLATION OF NEW JERSEY CONSUMER FRAUD ACT

(N.J. Stat. Ann. § 56:8-1, et seq.)

293. Plaintiffs Pabon, Feinberg, and the New Jersey Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

294. The New Jersey Consumer Fraud Act (“CFA”) makes unlawful “[t]he act, use or employment by any person of any unconscionable commercial practice, deception, fraud, false pretense, false promise, misrepresentation, or the knowing concealment, suppression or omission of any material fact with the intent that others rely upon such concealment, suppression or omission, in connection with the sale or advertisement of any merchandise or real estate, or with the subsequent performance of such person as aforesaid, whether or not any person has in fact been misled, deceived or damaged thereby” N.J. Stat. Ann. § 56:8-2.

295. Defendants are persons within the meaning of the CFA. N.J. Stat. Ann. § 56:8-1(d).

296. In the course of Defendants' business, they knowingly failed to disclose and actively concealed the dangerous risk of brake failure in the Class Vehicles. This was an unlawful practice in that Defendants represented that the Class Vehicles have characteristics, uses, benefits, and qualities which they do not have; represented that the Class Vehicles are of a particular standard and quality when they are not; and advertised the Class Vehicles with the intent not to sell them as advertised. Defendants knew or should have known that their conduct violated the CFA.

297. Defendants engaged in an unlawful practice under the CFA when they failed to disclose material information concerning the Class Vehicles which was known to Defendants at the time of sale. Defendants deliberately withheld the information about the vehicles' propensity for brake failure to ensure that consumers would purchase the Class Vehicles and to induce the consumer to enter into a transaction.

298. Defendants' unlawful practices have caused substantial harm to consumers.

299. The brake defects alleged herein were material to Plaintiffs Pabon, Feinberg, and to the New Jersey Class members. Had Plaintiffs Pabon, Feinberg, and the New Jersey Class members known that the Class Vehicles had these material safety defects, they would not have purchased the Class Vehicles.

300. Plaintiffs Pabon, Feinberg, and the New Jersey Class members suffered ascertainable loss of money or property caused by Defendants' unlawful practices. Plaintiffs Pabon, Feinberg, and the New Jersey Class members overpaid for their vehicles and did not receive the benefit of their bargain. The value of the Class Vehicles has diminished now that the

safety issues have come to light, and Plaintiffs Pabon, Feinberg, and the New Jersey Class members now own the Class Vehicles, which are unsafe.

301. Plaintiffs Pabon, Feinberg, and the New Jersey Class members are entitled to recover legal and/or equitable relief, treble damages, and reasonable attorneys' fees pursuant to N.J. Stat. Ann. § 56:8-19.

302. Pursuant to N.J. Stat. Ann. § 56:8-20, Plaintiffs will mail a copy of the complaint to the Attorney General of New Jersey within ten (10) days of filing.

COUNT XXII

BREACH OF EXPRESS WARRANTY

(N.J. Stat. Ann. § 12A:2-313)

303. Plaintiffs Pabon, Feinberg, and the New Jersey Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

304. Defendants are and were at all relevant times merchants with respect to motor vehicles.

305. In the course of selling vehicles, Defendants expressly warranted in writing that the Class Vehicles were covered by a warranty.

306. Defendants breached the express warranty to repair and adjust to correct defects in materials and workmanship of any part supplied by Defendants. Defendants have not repaired or adjusted, and have been unable to repair or adjust, the Class Vehicles' materials and workmanship defects.

307. In addition to the Defendants' express warranty, Defendants expressly warranted several attributes, characteristics and qualities, as set forth above.

308. Furthermore, the limited warranty of repair and/or adjustments to defective parts fails in its essential purpose because the contractual remedy is insufficient to make Plaintiffs Pabon, Feinberg, and the New Jersey Class members whole, and because Defendants have failed and/or have refused to adequately provide the promised remedies within a reasonable time.

309. Accordingly, recovery by Plaintiffs Pabon, Feinberg, and the New Jersey Class members is not limited to the limited warranty of repair or adjustments to parts defective in materials or workmanship, and Plaintiffs Pabon and Feinberg seek all remedies as allowed by law.

310. Also, as alleged in more detail herein, at the time that Defendants warranted and sold the vehicles they knew that the vehicles did not conform to the warranties and were inherently defective, and Defendants wrongfully and fraudulently misrepresented and/or concealed material facts regarding the Class Vehicles.

311. Moreover, many of the damages flowing from the purchase and use of the Class Vehicles cannot be resolved through the limited remedy of “replacement or adjustments,” as those incidental and consequential damages have already been suffered due to their failure and/or continued failure to provide such limited remedy within a reasonable time, and any limitation on available remedies would be insufficient to make Plaintiffs Pabon, Feinberg, and the New Jersey Class members whole.

312. Finally, due to the Defendants’ breach of warranties as set forth herein, Plaintiffs Pabon, Feinberg, and the New Jersey Class members assert as an additional and/or alternative remedy, as set for in N.J. Stat. Ann. § 12A:2-608, for revocation of acceptance of the goods, and for a return to Plaintiffs Pabon, Feinberg, and to the New Jersey Class members, of the purchase

price of all vehicles they currently own. Defendants have been provided notice of these issues by numerous complaints, including the complaints alleged herein.

313. As a direct and proximate result of Defendants' breach of express warranties, Plaintiffs Pabon, Feinberg, and the New Jersey Class members have been damaged in an amount to be determined at trial.

COUNT XXIII

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY

(N.J. Stat. Ann. § 12A:2-314)

314. Plaintiffs Pabon, Feinberg, and the New Jersey Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

315. Defendants are and have been at all relevant times merchants with respect to motor vehicles.

316. A warranty that the Class Vehicles were in merchantable condition is implied by law in the instant transactions.

317. These vehicles, when sold and at all times thereafter, were not in merchantable condition and are not fit for the ordinary purpose for which cars are used. Specifically, the Class Vehicles are inherently defective in that there are defects in the brake systems, nor do the Class Vehicles have an adequate fail-safe to protect against brake failure.

318. Defendants were provided notice of these issues by numerous complaints filed against them, including the instant complaint, and by numerous individual letters and communications sent by Plaintiffs Pabon, Feinberg, and the New Jersey Class members before or within a reasonable amount of time after Defendants implemented the Customer Support Program and the allegations of vehicle defects became public.

319. As a direct and proximate result of Defendants' breach of the warranties of merchantability, Plaintiffs Pabon, Feinberg, and the New Jersey Class members have been damaged in an amount to be proven at trial.

COUNT XXIV

BREACH OF CONTRACT

(Based on New Jersey Law)

320. Plaintiffs Pabon, Feinberg, and the New Jersey Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

321. To the extent Defendants repair or adjust commitment is deemed not to be a warranty under New Jersey's Commercial Code, Plaintiffs Pabon and Feinberg plead a common law contract claim in the alternative. Defendants limited the remedies available to Plaintiffs Pabon, Feinberg, and the New Jersey Class members to just repairs and adjustments needed to correct defects in materials or workmanship of any part supplied by Defendants, and/or warranted the quality or nature of those services to Plaintiffs Pabon, Feinberg, and the New Jersey Class members.

322. Defendants breached this contract obligation by failing to repair the Class Vehicles evidencing a sudden unintended acceleration problem, including those that were recalled, or to replace them.

323. As a direct and proximate result of Defendants' breach of contract, Plaintiffs Pabon, Feinberg, and the New Jersey Class members have been damaged in an amount to be proven at trial, which shall include, but is not limited to, all compensatory damages, incidental and consequential damages, and other damages allowed by law.

COUNT XXV

UNJUST ENRICHMENT

(Based on New Jersey Law)

324. Plaintiffs Pabon, Feinberg, and the New Jersey Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

325. Defendants had knowledge of the safety defects in the Class Vehicles, which it failed to disclose to Plaintiffs Pabon, Feinberg, and the New Jersey Class members.

326. As a result of their wrongful and fraudulent acts and omissions, as set forth above, pertaining to the design defect of their vehicles and the concealment of the defect, Defendants charged a higher price for its vehicles than the vehicles' true value. Defendants accordingly received a benefit from Plaintiffs Pabon, Feinberg, and the New Jersey Class members to their detriment.

327. Defendants appreciated, accepted and retained the benefits conferred by Plaintiffs Pabon, Feinberg, and the New Jersey Class members, who without knowledge of the safety defects paid a higher price for vehicles that Plaintiffs would have paid less money for had they known about the Toyota Brake Defect. It would be inequitable and unjust for Defendants to retain these wrongfully obtained profits.

328. Plaintiffs Pabon, Feinberg, and the New Jersey Class members, therefore, are entitled to restitution and to seek an order establishing Defendants as constructive trustees of the profits unjustly obtained, plus interest.

F. Claims Brought on Behalf of the North Carolina Class

COUNT XXVI

VIOLATIONS OF NORTH CAROLINA UNFAIR AND DECEPTIVE TRADE

PRACTICES ACT

(N.C. Gen. Stat. § 75-1.1, *et seq.*)

329. Plaintiff Felts and the North Carolina Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

330. Defendants engage in transactions in commerce as required by N.C. Gen. Stat. § 75-1.1.

331. By intentionally failing to disclose material information regarding the Class Vehicles' braking systems, Defendants engaged in an unfair or deceptive act or practice, in that Defendants' practices were immoral, unethical, unscrupulous, or substantially injurious to consumers.

332. Defendants' acts and practices were deceptive in the sense that they had the capacity or tendency to deceive, because they induced Plaintiff Felts and the North Carolina Class members to purchase the Class Vehicles when they would not have done so had they been aware of the information Defendants withheld.

333. Defendants' acts and practices proximately caused actual injury to Plaintiff Felts and the other North Carolina Class members, as Plaintiff Felts would not have purchased the Class Vehicles, or would have paid materially less for the Class Vehicles, if not for Defendants' misrepresentations and omissions.

334. Plaintiff Felts and the North Carolina Class members are entitled to all actual and consequential damages resulting from Defendants' unfair and deceptive practices. Plaintiff Felts

and the North Carolina Class members are also entitled to recovery of treble damages as provided in N.C. Gen. Stat. § 75-16. Plaintiff Felts and the North Carolina Class members are further entitled to attorneys' fees and costs based on Defendants' willful violation of the statute.

COUNT XXVII

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY

(N.C. Gen. Stat. § 25-2-314)

335. Plaintiff Felts and the North Carolina Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

336. Defendants were and are at all relevant times "merchants" with respect to motor vehicles under N.C. Gen. Stat. § 25-2-314.

337. A warranty that the Class Vehicles were in merchantable condition was implied by law in the instant transaction, pursuant to N.C. Gen. Stat. § 25-2-314.

338. The Class Vehicles, when sold and at all times thereafter, were not in merchantable condition and are not fit for the ordinary purpose for which vehicles are used. Specifically, the Class Vehicles are inherently defective in that the brake system has a defect that makes the car inherently dangerous for its intended use.

339. Defendants have been provided notice of these issues by numerous complaints, including complaints by its own certified dealers, as described above.

340. As a direct and proximate result of Toyota's breach of the warranties of merchantability, Plaintiff Felts and the North Carolina Class have been damaged in an amount to be proven at trial.

COUNT XXVIII

FRAUDULENT CONCEALMENT AND/OR OMISSION

(Based on North Carolina Law)

341. Plaintiff Felts and the North Carolina Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

342. As set forth above, Defendants concealed and/or suppressed material facts concerning the safety of their vehicles, which they were legally obligated to disclose.

343. Defendants had a duty to disclose defects in the Class Vehicles' braking systems because Defendants consistently marketed their vehicles as safe and proclaimed that safety is one of Toyota's highest corporate priorities. Once Defendants made representations to the public about safety, Defendants were under a duty to disclose these omitted facts.

344. In addition, Defendants had a duty to disclose these omitted material facts because they were known and/or accessible only to Defendants who have superior knowledge and access to the facts, and Defendants knew they were not known to or reasonably discoverable by Plaintiff Felts and the North Carolina Class members. These omitted facts were material because they directly impact the safety of the Class Vehicles.

345. Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff Felts and the North Carolina Class members to purchase the Class Vehicles at a higher price.

346. Defendants still have not made full and adequate disclosure and continue to defraud Plaintiff Felts and the North Carolina Class.

347. Plaintiff Felts and Class members were unaware of these omitted material facts and would not have acted as they did if they had known of the concealed and/or suppressed facts.

The actions taken by Plaintiff Felts and the other North Carolina Class members were justified. Defendants were in exclusive control of the material facts and such facts were not known to the public, or to Plaintiff Felts and the North Carolina Class members.

348. As a result of the concealment and/or suppression of the facts, Plaintiff Felts and the North Carolina Class members sustained damage. Should Plaintiff Felts and/or other North Carolina Class members seek to affirm the sale, these damages include the difference between the actual value of that which Plaintiff Felts and/or such North Carolina Class members paid and the actual value of that which they received, together with additional damages arising from the sales transaction, amounts expended in reliance upon the fraud, compensation for loss of use and enjoyment of the property, and/or lost profits. Should Plaintiff Felts and/or other North Carolina Class members seek to rescind the purchase, then Plaintiff Felts and such North Carolina Class members are entitled to restitution and consequential damages.

349. Defendants' acts were done maliciously, oppressively, deliberately, with intent to defraud, and in reckless disregard of the rights and wellbeing of Plaintiff Felts and the other North Carolina Class members, for the purpose of enriching Defendants. Defendants' conduct warrants an assessment of punitive damages in an amount sufficient to deter such conduct in the future, which amount is to be determined according to proof at trial.

COUNT XXIX

UNJUST ENRICHMENT

(Based on North Carolina Law)

350. Plaintiff Felts and the North Carolina Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

351. As a result of their wrongful and fraudulent acts and omissions, as set forth above, pertaining to the Class Vehicles, Defendants charged a higher price for the Class Vehicles than Plaintiff Felts otherwise would have paid, and Defendants thus obtained monies which rightfully belong to Plaintiff Felts and to North Carolina Class members.

352. Defendants knowingly enjoyed the benefit of increased financial gains, to the detriment of Plaintiff Felts and the North Carolina Class members, each of whom paid a higher price for vehicles than they would have paid had they known the true facts regarding the condition of the Class Vehicles' braking systems.

353. Plaintiff Felts and the North Carolina Class members, therefore, are entitled to restitution and seek an order establishing Toyota as constructive trustees of the profits unjustly obtained, plus interest.

COUNT XXX

BREACH OF CONTRACT/COMMON-LAW WARRANTIES

(Based on North Carolina Law)

354. Plaintiff Felts and the North Carolina Class members reallege and incorporate by reference all paragraphs as though fully set forth herein.

355. To the extent Defendants' agreements with Plaintiff Felts and/or the North Carolina Class members are deemed not to constitute warranties under North Carolina law, Plaintiff Felts and the North Carolina Class members seek damages pursuant to common-law warranty and contract law theories. Defendants limited the remedies available to Plaintiff Felts and the North Carolina Class to just those repairs and adjustments needed to correct defects in materials or workmanship of any part supplied by Defendants, and/or warranted the quality or nature of those services to Plaintiff Felts and the North Carolina Class members.

356. Toyota breached this warranty or contract obligation by failing to repair the Class Vehicles, or to replace them.

357. As a direct and proximate result of Defendants' breach of contract or common law warranty, Plaintiff Felts and the North Carolina Class members have been damaged in an amount to be proven at trial, which shall include, but is not limited to, all compensatory damages, incidental and consequential damages, and other damages allowed by law.

VIII. JURY DEMAND

358. Plaintiffs, on behalf of themselves and the putative Class, demand a trial by jury on all issues so triable.

IX. PRAYER FOR RELIEF

WHEREFORE, Plaintiffs, on behalf of themselves and the members of the Class, respectfully request that this Court:

- a. determine that the claims alleged herein may be maintained as a class action under Rule 23 of the Federal Rules of Civil Procedure, and issue an order certifying the Class as defined above;
- b. appoint Plaintiffs as the representatives of the Class and their counsel as Class counsel;
- c. award all actual, general, special, incidental, statutory, punitive, and consequential damages and restitution to which Plaintiffs and members of the Class are entitled, but award only restitution and injunctive relief, pursuant to Count III, under California Civil Code § 1780, at this time;
- d. award pre-judgment and post-judgment interest on any monetary relief;

- e. grant appropriate injunctive and/or declaratory relief, including, without limitation, an order that requires Defendants to repair, recall, and/or replace the Class vehicles and to extend the applicable warranties to a reasonable period of time, or, at a minimum, to provide Plaintiffs and Class Members with appropriate curative notice regarding the existence and cause of the Toyota Brake Defect.
- f. award reasonable attorneys' fees and costs; and
- g. grant such further relief that this Court deems appropriate.

Dated: February 24, 2020

Respectfully submitted,

By: /s/ Bruce W. Steckler
